WHY FINANCE?

In essence, finance provides the bigger picture for any organization. With the proliferation of ground-breaking fintech services, the unprecedented growth in banking and the interconnectedness of global economies dominating the scene, the role of finance has become increasingly central to businesses.

Capital mismanagement can have insidious and immediate economic effects, which is why finance employs optimal money management strategies associated with banking, leverage or debt, credit, capital markets, money and investments to ensure business continuity and profitability. Even amid fluctuating economic climates, demand remains high for finance experts in global markets

A UNIQUE LEARNING EXPERIENCE

A Bachelor of Business in Finance (BBF) provides students with a comprehensive learning experience that transforms them into well-rounded professionals. Students in the BBF program gain in-depth financial knowledge and a thorough understanding of a given industry's best practices and a business's various functions. The courses offer an enriching classroom experience that focuses on adapting to a local context, fitting with Egyptian firms' needs and meeting market needs and challenges. Students also benefit from a range of experiential learning activities, including professional internships in the field and opportunities to compete in local and regional finance case competitions.

CAREERS

The Bachelor of Business in Finance equips its graduates with the skills needed to advance their careers in the finance field and keep up with the growth in the banking and financial service sectors, both locally and globally. Due to this growth, the finance field is brimming with rewarding career options in a wide variety of industries. Today, career-driven finance graduates are not found only in banking; they are also present in areas such as corporate and government financial management, financial planning, investment services, brokerage services, budget analysis, credit, financial advising and much more. Since the finance field will always be vital, the career opportunities continue to grow, unhindered by global circumstances.

AUC School of Business is one of only 70 business schools worldwide, out of nearly 14,000, as well as the first in the Middle East and third in Africa, to achieve triple-crown accreditation from the European Quality Improvement System (EQUIS), the Association of MBAs (AMBA) and the Association to Advance Collegiate Schools of Business (AACSB).

REQUIREMENTS

The number of students accepted into the BBF program is limited and is filled through the declaration of major process. Students who seek to be admitted into the BBF program should apply in their third semester and must have completed no fewer than 27 credit hours of study, including the four courses listed below in item 1. Based on the available space, a limited number of students who have successfully completed these courses and who meet the declaration requirements as determined by the department will be accepted into the major. The selection of students into the BBF major is competitive and will depend on the calculation of an equally weighted score between the overall GPA and the major GPA.

Required courses to be completed to declare finance as a major:

- ACCT 201/2001 - Financial Accounting (3 cr.)
- ECON 201/2021 - Introduction to Macroeconomics (3 cr.) or ECON 202/2011 - Introduction to Microeconomics (3 cr.)
- MACT 210/2222 - Statistics for Business (3 cr.)
- BADM 203/2001 - Introduction to Business (3 cr.)

Calculation of the weighted grade point average:

I. Overall GPA

The overall GPA will be calculated using the following criteria:
A minimum of 27 credit hours must be completed.

All courses that a student has completed will be included in the calculation, excluding, in certain cases, the course with the lowest grade*.

** A student could be eligible to have his/her lowest grade excluded from the calculation of the overall GPA if he/she has completed 30 or more credit hours.*

II. Major GPA

The major GPA will be calculated using the following criteria:
A minimum of 12 credit hours of courses related to the business major must be completed.

All business major courses, including collateral courses, that the student has completed will be included in the calculation, excluding, in certain cases, the course with the lowest grade*.

** A student could be eligible to have his/her lowest grade excluded from calculating the major-related GPA if he/she has completed 15 or more credit hours.*
