HEALTHCARE QUALITY EXCELLENCE DIPLOMA

ADOPT A PRACTICAL JOURNEY TO HEALTHCARE ACCREDITATION

APPLY NOW 

Program Overview

The healthcare industry has one of the most complex infrastructures compared to other global industries. It is characterized by intertwining and ever-changing relationships between patients, physicians, hospital administrators, insurers, communities, and governments. Dynamic competition, increased expectations of demanding consumers, the evolvement of healthcare accreditation and regulatory bodies and the changing healthcare quality and patient safety standards, have generated an increasingly challenging healthcare environment.

The diploma addresses the current challenges and provides aspiring healthcare professionals with innovative techniques and approaches to creatively refine the provision of healthcare services.

Field visits to renowned hospitals will cover the practical aspects of how to master continuous improvement methodologies, patient safety techniques as well as the latest in risk management expertise.

Key Benefits

Program Outline

Once per week

Healthcare Systems (12hrs)

This module focuses on the importance of the partnership between payer, provider and patients. It addresses the new health care ecosystem in Egypt, which aims to achieve high-quality patient care in a cost-effective manner.

Operations Management (12hrs)

Quality doesn't happen by chance, it needs to be systematically developed with objective planning, stakeholders' involvement and considering patients' needs. It takes clear understanding of the operations and integration between clinical and non-clinical processes. This module will provide you with the needed tools to manage hospital's operations while applying quality management system efficiently.

People Management (12hrs)

Develop skills in managing people in organizations to maximize their performance through active learning and hands-on activities. This approach guarantees knowledge acquisition and skills development in alignment with the best practices in People Management.

Information-Driven Healthcare (12hrs)

Dive deep into a detailed explanation of the modern concept of information systems in healthcare. This module discusses different types and methodologies related to the development of such systems and covers various ethical, technical and legal issues. All of the previous concepts are discussed in the context of the Electronic Medical Record (EMR) and associated clinical information systems.

Twice per week

Accreditation Systems (24hrs)

Determine the best accreditation system that fits your organization most and how to implement it. Measure, score and evaluate your organization against accreditation standards. This module will enable you to understand and explain the standards, develop the documents required for accreditation, and deploy different quality functions needed to implement accreditation systems.

Patient Safety and Risk Management (24hrs)

Acquire the needed knowledge, skills and attitude to promote a culture of safety in your healthcare organization. Develop effective and efficient risk management skills, enabling you to establish an effective safety program, conduct a review of workplace issues and support care-givers after major errors.

Healthcare Performance Management (18hrs)

Performance management is a key to the long-term success of healthcare organizations. This module emphasizes that good performance management is a process, not an event. Plan a multidisciplinary process that occurs continuously and not just once a year. This performance management process creates a work environment in which employees are enabled to reach their maximum potential performance through alignment with the healthcare organization's strategic directions.

Continuous Improvement Methodologies (30hrs)

Improving the quality of processes and maintaining acceptable levels of performance are critical factors in the success of any organization. This module is designed to prepare attendees to develop the required knowledge, skills and practices necessary to efficiently influence and continuously improve the multiple elements of care delivery within a healthcare organization. Acquire a solid foundation of the different improvement and evaluation methodologies through mini-project models following FOCUS-PDCA, Six Sigma or Lean methodologies.

Hospital Visits (8 visits/5hrs each)

Observe and appreciate the best practices in the provision of healthcare services and become familiar with implementing the appropriate tools through well-planned and structured hospital visits.

Business Acumen Self-Paced Online (3 Courses)
