Mr. Ahmed Badr  
Talent Acquisition Manager  
WinApp Corporation  
123 Haram Street  
Giza, Cairo

Dear Mr. Badr,

I received your company's brochure through the Computer Science department at the American University in Cairo where I obtained my bachelor degree in Computer Science. I am very interested in Applications Programming and would like to pursue a career in it. I would, therefore, like to inquire about relevant openings in your software development department.

I was drawn to Applications Programming during my internship at INET Developers. This made me focus on the software engineering and system analysis courses. I developed the data processing module for an international conference and worked within a team to develop a budgeting and accounts application. I also enhanced my interpersonal skills through the various interviews and discussions to elicit system requirements and parameters from the system users as well as from my extracurricular activities at university. I have enclosed my resume for your reference.

Your company comes highly recommended in the Applications Development field. Its reputable standing and strong software development department make it an attractive opportunity for a Computer Science graduate such as myself. I am very interested in a chance to work with you and benefit from your expertise in this field. I am confident that my technical knowledge and skills will be put to good use and further developed.

I would appreciate meeting with you regarding an opening at your firm. I will call you during the week of March 17 to see if such a meeting could be arranged. In the meantime, if you need any further information, please contact me at 0122.999.8999.

Thank you for your time and consideration. I look forward to meeting with you.

Sincerely yours,

Walid Bakr
