OBJECTIVE

Seeking a rewarding employment opportunity as a site engineer where my academic background and technical skills could be put to challenge and development.

EDUCATION

Bachelor of Science in Construction Engineering, The American University in Cairo (AUC), Fall 2020

GPA: 3.52

Thanawiya Amma, Mathematics, Misr Language School (MLS), 2015

Average: 98.4%

ACADEMIC PROJECTS

- Senior Project: Structural Design of a twenty-story services building, on an area of 3000 square meters; conducted earthquake analysis, as well as produced a complete set of structural drawings
- Engineered, in collaboration with 6 team members, the reinforced concrete structure of a building
- Designed, with a group, the interior and exterior of the new AUC campus dormitory
- Produced an architectural design for a shopping center and constructed a model

EXPERIENCE

Construction Trainee, Vodafone, July and August 2019

- Provided a financial analysis for the tender of constructing Cairo 4 switch
- Performed the surveying works for different locations for temporary switches
- Produced layouts on AutoCAD for the temporary locations
- Built a sample board for the approved materials to be used in Vodafone retail shops
- Designed a database on MS Access for information on available suppliers

Site Engineer Trainee, Alexandria Construction Company, El-Rehab Residential City Project, June 2018

- Interpreted the project's drawings and compared them to the execution
- Supervised the work of the foremen and evaluated its progress
- Acquired knowledge about method statements of different construction activities

EXTRACURRICULAR ACTIVITIES

Chief Financial Officer, Entrepreneurs' Society, September 2017 – June 2018

- Submitted a forecasted budget for the society's year plan
- Ensured that every committee is working according to the set yearly budget
- Supervised the work of the fundraising and strategic fundraising teams

Fundraising Head, Construction Engineering Association (CEA), AUC, January – May 2017

- Contacted more than 5 managers to convince them to fund the association
- Represented the Construction Engineering Department on many occasions
- Co-organized the 15th anniversary of the Construction Engineering Department

SKILLS

Languages: Fluent in spoken and written Arabic and English

Computer: Excellent command of Windows operating systems and MS Office Applications
Excellent knowledge of AutoCAD, Water CAD, SAP 2000, Primavera and C++
