STUDY ARABIC IN EGYPT

The Department of Arabic Language Instruction (ALI) has attracted thousands of students interested in learning Arabic and who want the added experience of learning in an Arabic-speaking country. The following programs are some of the opportunities offered to Arabic-language learners at AUC:

Arabic Language Classes: Students wishing to study Arabic for one or two semesters as part of a study-abroad program are enrolled as nondegree students, provided they adequately meet the admissions requirements outlined by AUC. Therefore, students who are seeking degrees at other universities, but have come to AUC for a semester or year abroad to augment their education with Arabic language classes can satisfy their requirements with Arabic Language Classes (ALNG).

This program also offers field trips in Cairo and the surrounding areas, to bolster language-learning and expose students to Egyptian music, foods, art, history and culture.

Center for Arabic Study Abroad (CASA): Established in 1967, CASA offers intensive Arabic- language classes to students from the United States, and has the longest tradition of teaching Arabic in the Middle East of any program of its kind. It is also the only program in the world to offer a high quality master's in teaching Arabic as a foreign language.

Arabic Language Intensive Program for Professionals and Diplomats: This program is geared to professionals and diplomats who come to the Middle East to learn Arabic. Small-sized classes means students can take advantage of a tailored curriculum in Modern Standard Arabic (MSA) with courses in reading, writing, translation and interpretation, Quranic studies, literature, economics and history. Likewise, students will also take courses in spoken MSA and the colloquial Egyptian dialect.

Center for Advanced Arabic Study in Cairo (CAASIC): CAASIC is the host of the program CASA, and offers a more advanced and tailored CASA program for international students. This program is unique in that it gives students the chance to study immersive, advanced Arabic for one year at a reduced tuition fee. GRADING AND EXAMINATIONS

Student work in each course is evaluated throughout the semester. Examinations, quizzes, reports, discussions or other means of evaluation help students know how they stand in a course. Final examinations review the entire semester’s work but are not heavily emphasized. Each examination lasts no longer than two hours and counts for no more than one-third of the final course grade. Except in 400-level courses and higher where extensive writing assignments and projects pertain, no other element in the final course grade will count for more than one-third. Final examinations are held during the official examination period, which is listed in the academic calendar of the University.

At the close of the semester students receive a final grade in each course. The grade is the professor’s official estimate of the student’s achievement as reflected in examinations, assignments, and class participation. The final grades are recorded on the student’s permanent record at the Office of the Registrar. The grade may not be changed on the student record.

The following grading system is used at The American University in Cairo:
