

## **Daily-Use Locker**

### **Rules & Regulations**

A new system for daily-use lockers has been implemented to protect users' belongings. The new rules are as follows:

- Users will receive two keys from the counter in exchange for their University ID. No extra copies will remain with the Office of Athletics staff members. Users must remove all items from the locker and return the two keys before they can receive back their ID.
- In the event that users do not return the two keys, the Office of Athletics staff members will cut the lock on the locker, and a LE 100 penalty will be charged to the user for the value of the damaged lock.
- An additional LE 50 is to be charged for the storage of the user's belongings. If users do not claim their belongings after 15 days, all stored items will be donated to charity.
- Each user should ensure that lockers are properly locked with the keys. Please note that the Office of Athletics is not responsible for the loss of any items.
