WHAT SHOULD I DO?

Have you been in close contact with someone with COVID-19? (i.e., less than 1.5 meters away from an infected person for a cumulative total of 15 minutes or more over a 24-hour period)

Yes

No

Have you developed symptoms?

Yes

No

Are you fully vaccinated AND boosted or had COVID in the past 30 days?

Yes

No

Do you have symptoms? (e.g., fever, sore throat, cough)

Yes

No

- Report your symptoms via the AUC Health Self-Check form.
- Stay home, and keep apart from others.
- Wear a properly-fitting, high-quality mask (e.g., N95, KN95) for 10 full days any time you are around others inside your home or in public.

Take a COVID-19 test as soon as possible.
You may schedule a free test on campus through the Office of Medical Services. If you test outside of AUC, send your result to the Office of Medical Services.

If you receive a positive test result...

- Regardless of your vaccination status, isolate for at least 10 days, starting either the day you tested positive (if you remain asymptomatic) or the day your symptoms started, whichever is earlier.
- Stay home (except to get medical care) or in your assigned isolation space on campus (if you’re a residential undergraduate student).
- Separate yourself from other people in your household, and wear a properly-fitting, high-quality mask (e.g., N95, KN95) for 10 full days any time you are around others inside your home or in public.
- Get rest and stay hydrated. Take over-the-counter medicines to help you feel better, if needed.
- Monitor any symptoms.
- Do not host any visitors.

If you receive a negative test result...

- You may resume your regular activities.

If you need medical assistance

Health Self-Check Form
Report symptoms or close contact with someone with COVID-19 by scanning the QR code or through the AUC mobile application.

Regardless of your vaccination and booster status:
- If you develop symptoms, stay home and get tested.
- Wear a properly-fitting, high-quality mask (e.g., N95, KN95) for 10 full days any time you are around others inside your home or in public.
- Avoid being around people who are at high risk.
- Avoid travel.

If you have questions, please contact AUC’s medical team at medicalserv@aucegypt.edu.
