Introduction
This report, AUC Faculty Publications 2017, is a continuation of an annual series launched by former Vice Provost Ali Hadi in 2006. Prior to that year, there seems to have been only one previous list, compiled during 1982-83 by I. Moyer Hunsburger, who served at the time as Vice President for Academic Affairs and Dean of the Faculty. This report is automatically generated from the Annual Faculty Reports (AFR), the faculty database software. It follows the policy set by Graham Harman, Associate Provost for Research Administration at the time, in 2011, that the list includes only those publications that actually appeared during calendar year 2017. I am quoting Graham Harman in his 2011 introduction: “quantity is not everything, and mere quantitative output is no substitute for quality in research and creative endeavors. It should be noted that many productive AUC faculty do not appear on this list due to simple accident that none of their completed research happened to appear in 2016 publications. Hence absence from this list should not be construed as an absence of research or creative activities”. Publishing this report continue to serve goals set in Ali Hadi’s introduction back in 2006, as well as additional goals serving AUC current strategic directions; namely:
• Showcase faculty research productivity and increase the visibility of research, scholarly and creative works by AUC faculty.
• Serve as a vehicle for faculty members to get to know about each other’s’ work and interests. This is to serve the objective of increasing interdisciplinary and collaborative research and scholarly activities among AUC faculty.
• Help local and international community to identify AUC faculty with expertise in certain areas. Such identification should facilitate more international collaborative work and community engagement in guiding university priorities and services.
• Increase Emphasize the importance of research and creative endeavors as an integral part of faculty responsibilities.
• Serve as a database and historical record of AUC faculty intellectual output.
The Faculty Publications 2017 was compiled from the E.Repertoire of 2017 (thanks to Dahlia Saad and Shereen El Orabi at the associate provost’s office). Every effort has been made to make this list as accurate and complete as possible.

Alaa-Eldin M. Adris, PhD
Associate Provost for Research, Innovation and Creativity
