Please explain.

New information
Informative and interesting course.
the topic is interesting
The readings.
the topics of focus and the in depth analysis of them
Discussions.
Interaction between students and instructor
The topic.
That each class is in chronological and logical row.
That the course is interesting and well rounded
the readings because they are very interesting and worthwhile
Topic
The Material itself.

What can be done to improve the class during the second half of the semester?

more theoretical discussion, not to follow the conventional narrative
Encourage more students to speak up and voice their opinions in class
Shift the focus to discussion and more group debates, assuming people have done the reading.
Less student presentations!
Maybe twice a week rather than once a week
maybe more non scholarly reading like to see what was the situation among the people at the time not just academics
