Application: [Final Report TLEG ▾] [Edit Form]

Form

Project Abstract

Your abstract of your findings should include enough detail so that rationale, methodology and outcomes are clear. Use plain language as this abstract will be posted on the AUC website(max 200 words).

Summary of Work Accomplished

Describe the study rationale (including supportive literature), project methodology, outcomes and potential application of outcomes.

Evaluation of Project's Success

Explain how you know that the project was successful (Include evidence of rigorous evaluation).

Transferable

List and describe knowledge gained in this project and how that knowledge could benefit faculty members in the AUC community

Media or Publication

List any media attention your project has received internally from AUC or externally. List any publications or conferences you have attended where data from this project was presented. Confirm that you acknowledged or will acknowledge the grant's contribution to your work in media, publication or conference presentations.
*If not applicable please skip this question.

Outcomes

Summarize very briefly the outcome(s) of your project. write the complete citation(s). Download template from here, fill it, and upload it.

Choose File | No file chosen

If appropriate, include an electronic copy of your project.

Choose File | No file chosen

How did these results relate to the original goals of your project?

What gains did you make in your professional development as an educator?

If your project involved changes in pedagogy for an existing course, describe how the project has affected the course(s) for which it was intended. Were your goals for student learning or teaching effectiveness realized? How did you assess the impact of the changes you made?

Date of Presentation to the department (please make sure that you invite the CLT):

Financial Report

Upload your financial report, you can download a sample here :
