Antigen tests upon arrival will be carried out for passengers over 6 years old. Another PCR test will be carried out randomly upon arrival. <p>Vaccination:</p> <ul style="list-style-type: none"> All passengers over 18 years old are required to present a vaccination certificate Vaccinated passengers from GCC countries are not required to have a negative PCR test nor quarantine to board the flight from Cairo airport. Primary requirements: (Vaccinations to be 14 days after second dose / Third vaccination after 4 months from second dose)
4	<u>ALGERIA</u>	<p>Egyptair will resume operation to ALG starting from 6th of Feb. two flights weekly</p> <p><u>PCR test</u> <u>Including Algerian</u></p> <ul style="list-style-type: none"> PCR test with a negative result 36 hours before arrival in Algeria for direct flight. PCR test with a negative result 72 hours before arrival in Algeria for passengers with transit stopover to Algeria. (Exception for all children "regardless their nationalities" under 12 years old) PCR test Accepted with or without QR code. A health declaration form should be filled by the passengers before check-in and to be delivered to the quarantine authorities upon arrival. All passengers arriving to Algeria will be subject to an ANTIGENIC test at the airport before entry the fees for the test must be borne by the passengers (10 EUR 12USD or 1600 DZD).
5	<u>ERITREA</u>	<p><u>Till further notice</u>, Asmara airport is closed for commercial airlines flights. (<u>EgyptAir is given permit to operate to and from Asmara starting 28th May2021</u>)</p> <p>PCR:</p> <ul style="list-style-type: none"> All passengers travelling to Eritrea Must provide a certified evidence of negative PCR test result for COVID-19 carried out and issued within 72 hours prior to their arrival to Asmara International Airport, except for: <p>1- Those who have valid COVID-19 vaccine certificates.</p>

		<p>2- Children, under 6 years old and who are travelling with family members are exempted from the test if the family members tested are negative and fit to travel.</p> <ul style="list-style-type: none"> • Rapid Antigen Testing upon arrival at the airport (30 USD) for each passenger is already added to YQAC in the ticket and no need to collect it manually from the passenger at the airport.
6	<u>NIGERIA</u>	<ul style="list-style-type: none"> • Turkey, Brazil and South Africa have been removed from the list of “restricted countries”; <p><u>Into effect from 5th December, 2021:</u></p> <p>Fully vaccinated means: At least Two (2) weeks following 2 completed doses of either Astra Zeneca, Pfizer or Moderna vaccines; OR a single dose of Johnson and Johnson vaccine. Partially vaccinated means: 1 completed dose of the above.</p> <p><u>PCR/ QUARANTINE:</u></p> <p><u>A. PRE-DEPARTURE FROM COUNTRY OF EXIT:</u></p> <p><u>I. Pre-Boarding:</u></p> <ul style="list-style-type: none"> • Travelers MUST perform a COVID-19 PCR test not more than 2 days (48 hours) before boarding/departure. PCR tests done more than 48 hours before departure are not valid and persons will not be allowed to board. Rapid antigen or antibody test are not acceptable; only PCR tests can be used for this purpose. Test validity commences from the time of sample collection. For Travelers with multiple connections before arrival in Nigeria, the PCR test must be valid within 48 hours of boarding from the first point of departure. Travelers must bring along an electronic or hard copy of their negative COVID- 19 PCR test for presentation at the departure airport and upon arrival in Nigeria. A record of their vaccination status will also be required on arrival in Nigeria. • All intending Travelers (including diplomats and children less than 10 years old) MUST register via an online national travel portal (Nigeria International Travel Portal – https://nitp.ncdc.gov.ng) and proceed to fill in the online Health Declaration/ Self-Reporting form located on the portal. They should ensure that the information/contact details provided on the form are correct and verifiable. Travelers must provide valid phone numbers, residential addresses, and functional e-mails where they can be contacted. Travelers must also inform Port Health officials on arrival of any change in their health status since completion of the Health Declaration/Self-Reporting Form. • After filling the online Health Declaration/Self-Reporting Form, Travelers will be directed to upload their negative COVID-19 PCR test on to the portal. Only children less than 10 years old are exempted from uploading a pre-arrival negative COVID-19 PCR test result. Once this is successfully done, Travelers will proceed to the payment section of the travel portal. Only Children less than 10 years are exempted from payment for the repeat test in Nigeria. Travelers are

advised to still bring along an electronic or hard copy of their negative COVID-19 PCR test for presentation at the airport.

➤ **For partially vaccinated and unvaccinated Travelers:**

On reaching the payment section of the portal, Travelers will be requested to select their preferred Laboratory/Sample Collection Centre based on where they will be self-isolating for the period of 7-days in Nigeria. A list of accredited private laboratory providers/Sample Collection Centers across the country are available on the payment platform. The next stage is to choose a bank payment gateway and then proceed to pay for the **Day 2 (arrival day + 1 day)** and **Day 7 (arrival day + 6 days)** in-country COVID-19 PCR tests. Please **note** that Travelers paying in Naira should use cards issued by a Nigerian bank.

➤ **For fully vaccinated Travelers:**

- On reaching the payment section of the portal, Travelers will be requested to select their preferred Laboratory/Sample Collection Centre based on where they will be located 2 days after arrival in the country for the Day 2 test (arrival day + 1 day). A list of accredited private laboratory providers/Sample Collection Centers across the country are available on the payment platform. The next stage is to choose a bank payment gateway and then proceed to pay for the **Day 2** in-country COVID-19 PCR test. A record of their vaccination status will also be required on arrival in Nigeria.
- Following successful payment, Travelers should download the **Permit to Travel Certificate/ QR Code** using the “Get Permit to Travel” button visible at the top right corner of the portal, save and print the form for presentation at the point of boarding. The Permit to Travel Certificate/ QR code will have a “PAID” label if payment is successful and “UNPAID” label if payment had not gone through yet or is unsuccessful. Any passenger with an “UNPAID” label will not be allowed to travel. A copy of the Permit to Travel Certificate/QR Code will also be sent to the email address provided by the traveller.

II. Boarding:

1. Prior to boarding for Nigeria, Travelers **MUST** present **TWO** documents at their point of departure to be allowed to board.
 - a. A **negative COVID-19 PCR** test done within 2 days (**48 hours**) of departure. Airlines have been directed not to board Travelers with non-PCR COVID-19 tests (such as antigen or antibody tests), a positive COVID-19 PCR test result, or tests performed beyond 48 hours of boarding; and
 - b. **Permit to Travel Certificate/QR Code** - generated from the Nigeria International Travel Portal on completion of a health questionnaire, uploading of a negative COVID-19 PCR result and

schedule of PCR tests on Days 2 and 7 on arrival in Nigeria. Travelers failing to show a Permit to Travel Certificate/QR Code will not be allowed to board.

2. Airlines that board Travelers without any of the required documents (a negative COVID-19 PCR test done not more than 48 hours prior to boarding and a Permit to Travel Certificate/QR code, shall be sanctioned as follows:

a. Travelers, who are non-Nigerians, will be refused entry and returned to the point of embarkation at cost to the airline

b. Travelers who are Nigerians or holders of permanent resident permit will be allowed entry but subjected to the procedure outlined in Section D below. In addition, **Travelers arriving with forged (fake) COVID-19 PCR results will be escorted to a designated quarantine facility (government approved hotel) for a mandatory quarantine for a period of 7 days at expense to the traveler and will be prosecuted.**

c. Airlines shall be fined **USD 3,500** per traveler for failure to comply with any of the preboarding requirements.

d. Airlines who consistently fail to comply with the above requirements may be banned from coming to Nigeria.

3. At the time of boarding, Travelers will be required to undergo temperature screening and asked about COVID-19 symptoms. Travelers with temperature $>38^{\circ}\text{C}$ and other COVID-19 related signs and symptoms shall not be allowed to board the flight.

B. ON ARRIVAL IN NIGERIA

- All Travelers are required to strictly adhere to instructions given by Port Health Services at the arrival terminal. Travelers who fails to adhere to instructions will be sanctioned by relevant security personnel.

All Travelers arriving in Nigeria will be required to:

1. Go through the routine Port Health screening and present electronic or print-out evidence of **preboarding COVID-19 PCR test, Permit to Travel Certificate/ QR Code; and Vaccination Certificate (where applicable);** and
2. Present their international passports for clearance through the Nigerian Immigration Service System's Migrants Identification Data Analysis System (MIDAS).

For partially vaccinated and unvaccinated in-bound Travelers:

- Proceed on **mandatory 7 days self-isolation/quarantine** in their selected in-country destination address. Travelers are to avoid physical interaction with friends, family members, colleagues, and other members of the public during the period of self-isolation. Travelers should check their

emails/text messages regularly for updates regarding the arrangement for their repeat COVID-19 PCR test from the laboratory of their choice. During this period the traveler may be contacted by the COVID-19 Response team to ascertain state of self-isolation, Days 2 & 7 testing appointment and health status.

- Show-up at the laboratory/sample collection centers on the **2nd and 7th day of arrival**. Samples will be taken, and a COVID-19 PCR test done. The selected private laboratory will send a reminder text message, email, or phone call to the traveler a day before the appointment date.
- Persons who test negative for COVID-19 after 7 days of self-isolation/quarantine will be allowed to exit self-isolation on receipt of their result.

For fully vaccinated in-bound Travelers:

Show-up at the laboratory/sample collection centers on the **2nd day of arrival**. Samples will be taken, and a COVID-19 PCR test done. The selected private laboratory will send a reminder text message, email, or phone call to the traveler a day before the appointment date.

C. NOTE:

- a. Travelers who fails to show up at the sample collection centers on Days - 2 and 7 of arrival (as applicable) will be sent text reminders and their details forwarded to the State Public Health Department teams and Nigeria Centre for Disease Control (NCDC) for active follow-up.
- b. Travelers who fails to show up for testing will have travel restrictions placed on their passports for at least 6 months and will not be able to travel abroad during this period. Non-Nigerian passport holders will have their visas revoked and will be deported from the country.
- c. Test results will be provided within 24 hours and the State Public Health Departments & NCDC will be informed; accordingly, if test result is not received after 24hrs, the traveller may contact the private Laboratory for his/her test result.
- d. Partially vaccinated or unvaccinated persons who test negative for COVID-19 after 7 days shall end self-isolation on receipt of a negative test result but must continue to self-monitor for symptoms until Day 14; and MUST continue to observe Non-Pharmaceutical Intervention measures (e.g., wearing face mask, maintaining social distance, regular washing of hands and use of alcohol-based hand sanitizers);
- e. Fully vaccinated persons who test negative for COVID-19 after the post-arrival Day 2 test MUST continue to observe Non-Pharmaceutical Intervention measures (e.g., wearing face mask, maintaining social distance, regular washing of hands and use of alcohol-based hand sanitizers);
- f. Travelers reporting or developing symptoms of COVID-19 on arrival in Nigeria, or during screening will not be allowed to self-isolate and will be placed in institutional quarantine; and

		<p>g. Persons who test positive for COVID-19 after the post-arrival Days 2 and 7 test (as applicable) shall be managed based on national guidelines for COVID-19 treatment.</p> <p><u>D. PROCEDURE FOR TRAVELERS ARRIVING WITHOUT A VALID PCR RESULT:</u></p> <ul style="list-style-type: none"> • Any traveler arriving in Nigeria without a valid COVID-19 PCR result (i.e., no COVID-19 PCR test result, a forged COVID-19 PCR test result or COVID-19 antigen or antibody test result) will be subjected to the following measures: <ol style="list-style-type: none"> 1. If holding foreign passport and non-resident in Nigeria, the traveler will be denied entry into the country and returned to the point of embarkation at cost to the airline. 2. For Nigerians and foreign passport holders with residency rights: <ol style="list-style-type: none"> a. Port Health Services will screen the traveler to include a temperature check and review of health questionnaire to establish infectivity risk; b. Traveler will be escorted by Port Health Services and security personnel to a designated quarantine facility (government approved hotel) for a mandatory quarantine for a period of 7 days at expense to the passenger; c. Traveler’s passport will be collected by relevant authorities and will not be released to him/her until after successful completion of mandatory quarantine period; and d. A COVID-19 PCR test will be conducted by a designated private laboratory within 24 hours of arrival at the quarantine facility at expense to the passenger. If the test result is Positive for COVID-19, the passenger will be transferred to an isolation facility and managed according to National treatment guidelines. If test result is negative, passenger will CONTINUE with mandatory isolation at the quarantine facility until a satisfactory Day-7 COVID-19 PCR test is done. <p><u>II. GUIDELINES FOR OUTBOUND PASSENGERS</u></p> <p>All passengers travelling out of Nigeria are required to provide:</p> <ol style="list-style-type: none"> a. Evidence of full COVID-19 vaccination, or b. A negative COVID-19 PCR test done no longer than 48 hours before departure.
7	<u>TUNISIA</u>	<ul style="list-style-type: none"> • <u>Effective from 27th January 2022:</u> <ol style="list-style-type: none"> 1. <u>For Fully Vaccinated foreigners not residing in Tunisia over 18 years of age:</u> It is mandatory to present a vaccination certificate showing completion of vaccination against SARS-CoV-2 virus for a period not less than 28 days for JANSSEN vaccination and for a period of 7 days for the rest of the vaccinations, as a mandatory condition for their acceptance on flights to Tunisia. 2. <u>FOR TUNISIANS OR FOREIGNERS RESIDING IN TUNISIA:</u> <ol style="list-style-type: none"> <u>1- those who have completed the vaccination against the sars-cov-2 virus:</u> <ul style="list-style-type: none"> • It is mandatory to present a vaccination passport or a certificate proving the completion of the

vaccination schedule against the sars-cov-2 virus for at least 28 days for the "janssen" vaccine and 7 days for the other vaccines.

2- Those who have not completed the vaccination against the sars-cov-2 virus:

- Are subject to a mandatory confinement at their expense for a period of ten (5) days from the date of arrival, in a center dedicated to mandatory confinement in the list appearing in the following link <https://www.ontt.tn/ar/blagh>. (On passengers' cost)
- EgyptAir should not accept the registration of any passenger who has not the voucher including all costs. - if an airline accepts a passenger on its flight arriving in Tunisian airport without verifying that he has not the voucher, it either bears the expenses of his accommodation in a dedicated center for the required period or ensures his repatriation to the country of origin with the payment of his accommodation costs in a center until the date of his departure.
- Passengers should perform a PCR test within the last 24 hours of the mandatory confinement period, with the condition that the test result will be issued on the tenth (10th) day of the mandatory confinement. If the result test will be negative and at the end of the entire period of mandatory confinement (05 days), exit from the mandatory confinement center will be authorized. If the result of the test will be positive, the passenger concerned will be transferred to the medical isolation center for positive cases at the expense of the concerned.
- Passengers should present the confirmation of booking and payment (voucher) before registering for the flight to Tunisia. paid voucher must be exhibited at the check-in counter before his/her departure, such voucher must be included the following costs:
 - A- cost of 5 days of Compulsory quarantine hotel .
 - + B- cost of transportation from airport to the quarantine hotels .
 - + C-cost of full PCR or rapid one at the end of the compulsory quarantine.
- All passengers travelling to Tunisia are required to fill the electronic form before his/her embarkation via the link: (<https://app.e7mi.tn>) , <https://smex-ctp.trendmicro.com:443/wis/clicktime/v1/query?url=https%3a%2f%2fapp.e7mi.tn&umid=ae22b4ec-0edf-4c62-9b0a-b7a2adb8d77e&auth=e0ea8d76fb0a69b0ed7fc71e0a03902ca1384677-e8e0b8fe5f5dc79118e63ec92a8d7ec25af0e953> , and present proof of this to the airline at check-in and to the health services on arrival in Tunisia, whether in digital or paper version.
- **Exemption from the mandatory confinement:**
 - Unaccompanied minors (under 18) or minors accompanying people vaccinated against sars-cov-2 with the obligation to comply with the self- confinement for ten (05) days.

- Diplomats accredited in Tunisia and the members of their families residing in Tunisia, provided they present at the flight check-in, the diplomatic passport, the note verbal from the embassy or the organization concerned with all the necessary information or their residence cards in Tunisia in force, with the obligation to comply with the self-confinement for ten (05) days.

PCR

- Passengers must present a negative PCR test certificate, which the date of realization does not exceed **48 hours** or TDR – AG (24 hours) at check-in at the airport of departure, with the exception of children under 6 years old.
- EgyptAir shall not accept the check-in of any passenger if he does not present the negative PCR test and shall verify the negative result of PCR test and the absence of sars-cov-2 virus symptoms.
- in case of boarding a passenger, without the negative PCR test or having a positive PCR test or having sars-cov-2 virus symptoms, the airline assume the responsibility whether by covering the costs of realization an PCR test on arrival of the passenger in Tunisia and any other sanitary measures, or by ensuring his repatriation to the country of origin with the payment of his accommodation costs in a center until the date of his departure.
- Tunisia accepts any kind of vaccines.
 - If a passenger is vaccinated with two different kinds of vaccine for example first dose is AstraZeneca and second dose is Normal Sputnik or Pfizer, that is acceptable if 7 days is passed from the date of his/her second dose.
 - If a passenger is vaccinated with only one dose of sputnik light, it is consider like Janssen vaccine and it is acceptable if 28 days is passed from the date of his/her dose.
 - If a passengers is vaccinated with only one dose and mentioned formally in his vaccination certificate that he/she previously infected with corona virus ,
 - It is also acceptable if 7 days is passed from the date of his dose or from the date of his infection (whatever is the last one) as the infection with corona virus is consider in Tunisia like one vaccine dose.
- **Effective 15th February 2022;**
 - Only for Any passenger who exceeds 18 years old and completed his /her vaccination (period of 7 days must be passed for any kind of vaccine). For Janssen & sputnik light vaccines (period of 28 days must be passed) is no need to do full PCR test or rapid one beside his/her vaccine to enter Tunisia.
- test for the detection of the sars-cov-2 virus:

		<ul style="list-style-type: none"> All arrivals are systematically subjected to a rapid test or a PCR test for the detection of the sars-cov-2 virus upon their arrival in Tunisia. If the test is positive, the person concerned will be transferred to the isolation center for positive cases at the expense of the concerned if he is not fully vaccinated against the sars-cov-2 virus.
8	<u>ETHIOPIA</u>	<ul style="list-style-type: none"> <u>Effective from 06th January 21 EgyptAir will resume daily operation to ADD.</u> <u>PCR / QUARANTINE:</u> <ul style="list-style-type: none"> <u>All passengers MUST have a negative PCR test issued 120 Hours before arrival from accredited laboratory center</u> <u>The PCR test must have 2 dates (sample date and report date), the sample date must be 5 days at most before arrival time.</u> <u>This does not apply to passengers younger than 10 years old.</u> <u>No more quarantine is available anymore for passengers without or with invalid / expired PCR test (neither Quarantine Hotels nor Governmental Quarantine)</u> <u>Any passenger arrives without PCR or with invalid / expired PCR will not be allowed to enter Ethiopia and the carrier will be forced to remove the passenger(s) on the same day of departure. In addition, a legal notice against the carrier for failing to comply with the government regulations will be issued.</u> With immediate effective, passengers arriving and departing to and from Ethiopia are recommended to use the PanaBIOS electronic System to verify their negative COVID-19 certificate in line with the Africa CDC Trusted Travel electronic verification rules and guidelines available here: www.africacdc.org/trusted-travel <ul style="list-style-type: none"> Passengers should use the same email address he/she gave to the lab in signing up for an account to use the PanaBIOS system at: trustedtravel.panabios.org If passengers are departing from countries where a PanaBIOS registered lab (Trusted Lab) is not present, they can upload their Printed COVID 19 certificate by visiting www.globalhaven.org and signing up for an account. They can also do so at trustedtravel.panabios.org The process of uploading passengers' certificate can be initiated by clicking the "check in" button on the dashboard after logging in at www.globalhaven.org or trustedtravel.panabios.org. passengers will then be able to generate a Trusted Travel Code(TT Code) that is automatically integrated with Panabios Electronic System. Should passengers encounter any difficulties, they can reach out for support at: globalhaven@panabios.org

		<ul style="list-style-type: none"> • The RT-PCR test result certificate for COVID-19 for a test taken in Ethiopia is not allowed for travel back/re-entry to Ethiopia. The negative RT-PCR test certificate required to be presented before boarding a flight to Ethiopia must be a test taken at departure country.
9	<u>GHANA</u>	<ul style="list-style-type: none"> • <u>Pre-Departure Process-Passengers intending to exit Ghana</u> All international departing passengers will be required to meet the following guidelines prior to departure: <ol style="list-style-type: none"> 1) Create an account on the AU-endorsed site: https://trustedtravel.panabios.org. On the check-in page, check for accredited laboratories by entering Ghana as your origin country. 2) Passengers are advised to visit only laboratories that have the Trusted Travel (TT) logo next to their name on the platform to take their PCR test. 3) At the laboratory, give the same email address and mobile number you entered when creating your PanaBIOS account 4) Once your result is ready, it will automatically appear in the account with the TT number issued by the lab. Look out for an email from admin@panabios.org or an SMS message. 5) The Trusted Travel test (TT) code shall be verified by airlines and Port Health Authorities to confirm that the test came from an accredited laboratory. • <u>Departure Process- Passengers exiting Ghana</u> • <u>Vaccination</u> <ol style="list-style-type: none"> A. All Ghanaians 18 and above travelling out of the country are to be fully vaccinated effective midnight 12th December 2021. b. Definition of Fully Vaccinated <ol style="list-style-type: none"> c. A person is said to be fully vaccinated when he/she has taken the full dose of vaccines approved and registered by the Food and Drugs Authority (FDA), Ghana. • <u>List of covid-19 vaccines approved for travelers into Ghana</u> <ul style="list-style-type: none"> • Sputnik V / Oxford/AstraZeneca / Janssen /Pfizer-Biotech’s Comirnaty / Modena’s spikevax/ Vaxzevira • Passengers will be required to adhere to COVID-19 testing requirements for the destination countries • Departing passengers will undergo temperature screening at the entrance of Terminal 3 departures • Only passengers and persons with business in the terminal will be allowed entry

- Online check-in or the use of self-service kiosks is strongly encouraged to reduce physical contact at the airport
- Passengers are advised to arrive at the airport at least 4 hours before the scheduled departure time.

PCR:

For travels from Accra to UAE:

- The only approved Labs are LEDING, FRONTIERS, AIRPORT CLINIC, MDS LANCET, and AKAI HOUSE.
- Travelers to UAE from Accra would have to show proof of 24 hours PCR negative test result obtained within 24hours before departure time (validity must be calculated from time sample was taken and only hard copies with barcodes for verification would be accepted.
- Passengers will be also required to present a negative covid-19 rapid or rare time PCR test certificate with QR code for a test conducted at the airport within 6 hours of departure from the following approved labs LEDING OR FRONTIERS.

Effective 25th January 2021:

- All passengers 18 years and above arriving in Ghana will be requested to provide evidence of full vaccinated for COVID-19 vaccine.
- Ghanaians and Resident Foreigners who are partially vaccinated or unvaccinated are exempted from requirement for full vaccinations before traveling to Ghana, and will be offered vaccination on arrival, failing which the passenger will undergo mandatory quarantine for 7 days.
- All other cases will be considered on a case-by-case basis.
- Vaccination will be offered to pregnant women
- Moderna or Pfizer BioNTech are the recommended vaccines for administration to pregnant women.
- Airlines that bring passengers to Kotoka International Airport who are not fully vaccinated would be surcharged \$3500.
- Passengers must not have symptoms suggestive of COVID-19 including body temperature >38°C.
- All International arrivals must be in Possession of a COVID-19 negative PCR test result from an accredited laboratory in the country of origin, not more than 72 hours before the scheduled departure time from the country of origin
- Airlines who board passengers without a PCR test result or a Positive PCR test result will be fined US\$3,500 per passenger, Non-Ghanaians may be refused entry and returned to the point of

embarkation at a cost to the Airline, Ghanaians will be allowed entry but subject to 14 days of mandatory quarantine at designated facility

- Arriving passengers will undergo temperature screening.
- For passengers who depart Ghana and return within one (1) week, the passengers will not be required to present a COVID-19 test result from the country of departure. They will however undergo a mandatory COVID -19 testing upon arrival in Ghana.
- Passengers will be subjected to a mandatory COVID-19 test at the airport terminal at a cost to be borne by the passenger as indicated below:
 - i. Ghanaians and Ecowas Citizens - \$50
 - ii. All Other Passengers - \$150
- All passengers travel to Accra must have the Online Payment Receipt and show it to check in counter, to avoid heavy penalties.(3500USD / passenger)
- Airlines who board passengers without proof of payment for the COVID-19 test and would/could NOT pay for the test in Ghana, will be fined US\$3,500 per passenger.
“Non-Ghanaian passengers may be refused entry and returned to the point of embarkation at a cost to the Airline”
- All arriving passengers who test positive for COVID-19 will undergo mandatory isolation and treatment at a designated health facility or isolation center, at a cost to passengers, **EXCEPT Ghanaian citizens**. The isolation will be for a period of seven (7) days. However, the final discharge of cases will be based on existing case management guidelines and protocols.
- For all patients on home isolation, de-isolation will be 7 days after testing positive.
- In cases of high or moderate Risk Exposure to someone infected with COVID-19, affected person will stay at home/self-quarantine until day 5 after last exposure.
- If symptoms develop, the person will be tested for COVID-19 i. For negative test result, the person can resume normal activities on Day 5.
 - ii. Where test is positive, the person will isolate until Day 7 after last exposure
- All passengers who test negative for COVID-19 will be required to continuously adhere to COVID-19 safety protocols and will receive regular information on COVID-19 within five (5) days of arrival in Ghana.
- All passengers testing negative will be advised to continue to observe COVID-19 safety precautions following arrival in Ghana.

		<ul style="list-style-type: none"> • For passengers who transit through other countries before arriving in Ghana, the first country of departure will be the reference point (Connecting flights should not deny passenger boarding, as long as the journey has not been terminated in any of the transit countries.) • <u>Transit Passengers</u> • Passengers transiting and transferring through Accra will not be required to take the COVID-19 test in Accra. • Transit passengers will be required to adhere to COVID-19 testing requirements for the destination countries. • <u>Exemptions :</u> • Children under 5 years of age will not be required to undergo testing on Arrival at the Kotoka International Airport • Passengers who arrive under emergency circumstances such as diverted flights will not be required to undergo testing if they do not leave the airport or remain in remain in isolation in their hotel. • Children between the ages of 5-12 years will be tested free of charge. • <u>Travelling with Pets:</u> • Travelling with pets into Ghana is allowed in line with guidelines of the Veterinary Services Directorate of the Ministry of Food & Agriculture.
10	<p style="text-align: center;"><u>COTE D'IVOIRE</u></p>	<ul style="list-style-type: none"> • <u>Starting from 1st JUL 2020</u>, all international flights will be <u>resumed</u>. • <u>Procedures for travelers to Abidjan:</u> • All passengers traveling to Abidjan must provide a negative PCR test certificate for not more than 7 days of withdrawal date of sample , Only passengers whose results are negative dated less than 7 days, are allowed to travel. • <u>Passengers are required to fill Travel declaration</u> on https://deplacement-aerien.gouv.ci/ , Pay online for travel declaration with Orange Money, Moov Money, MTN Mobile Money, Visa, MasterCard, Yup, EcobankPay • Declaration form must be printed and a copy will be sent to passenger inbox. (Passengers will be asked for his declaration form before boarding). • Amount of the travel declaration: 2,000 FCFA (3.04 €) • <u>Procedures for travelers departing from Abidjan:</u> • Declaration of displacement must be filled on https://deplacement-aerien.gouv.ci/ at most 7 days before travelling. • Declaration form must be printed and a copy is sent to Passenger inbox.

		<ul style="list-style-type: none"> • Covid-19 PCR test to be performed at most 7 days before traveling at the coronavirus disease (COVID-19) sampling and screening center. • Passengers will be asked for the test results upon boarding. Only passengers with negative results less than 7 days old are allowed to travel. • Amount of the travel declaration + Payment of the PCR-COVID-19 test fees to be paid before departure : 50,000 FCFA (€ 76.22) ,Payment can be done online with Orange Money, Moov Money,MTN Mobile Money, Visa, MasterCard, Yup, EcobankPay
11	<u>KENYA</u>	<ul style="list-style-type: none"> • Passenger must fill in an online surveillance form which will give them <u>QR CODE</u> that will be scanned on arrival. • Passengers without QR code will not be allowed into the terminals to commence the arrival process, passengers will remain on board until they fill the form and get a QR code. • Passengers arriving on flights after the curfew, with a valid Air Ticket and Boarding Pass shall be allowed to proceed to their hotels and/or residences; • Passengers departing on flights after the curfew, with a valid Air Ticket and Boarding Pass shall be allowed to proceed to their departure airport; • All travelers will be expected to fill the travelers’ locator form and submit before travel to http://bit.ly/covid19moh and thereafter submit daily health information to jitenge platform for 14 consecutive days. • Passengers arriving from South Africa, Botswana, Zimbabwe, Malawi, Eswatini (Swaziland), Lesotho, Ghana, Namibia, Mozambique, Nigeria, Zambia will have to undergo a mandatory rapid antigen test before entering Kenya • <u>Effective from 7th September 2021</u>, the following conditions shall apply to passengers from India. <ol style="list-style-type: none"> 1- All passengers travelling from India to Kenya are exempted from quarantine if they are in possession of negative PCR test conducted 72 h before arrival. 2- Self isolation for 10 days upon arrival in the country and register on “Jitenge” for monitoring. • All travelers will be expected to fill the travelers’ locator form and submit before travel to http://bit.ly/covid19moh and thereafter submit daily health information to “jitenge” platform for 14 consecutive days. • Inbound and transit passenger flights from United Arab of Emirates are suspended from 17th January till 24th January. <p>PCR:</p>

- **ALL** arriving passengers must be in possession of the followings:
 - 1- A negative PCR tests carried out within the 72 hours before travel (above the age of 5 years).
 - 2- COVID-19 vaccination Certificate are required (from passengers above 18 years of age).
- There will be no paper verification of COVID-19 test results and vaccination certificates upon arrival into Kenya. Airlines should ensure that all travelers have uploaded both documents into global haven before boarding via www.globalhaven.org.
- Passengers are required to visit www.africacds.org/trusted-travel for the guidance on uploading the test result. (upon arrival, passengers are required to provide a digital Covid-19 Certificate for validation)
- For travelers whose certificates expire while on transit, the airline shall deposit the travelers passport at port health and facilitate testing in a recognized facility, at own cost.

3- EURPOE

<u>No.</u>	<u>Country</u>	<u>Instructions & Restrictions</u>
1	<u>ITALY</u>	<ul style="list-style-type: none"> • All incoming passengers must have proved reason to enter Italy (Permit of stay / Residence / Work visa). • Travel is allowed to and from any other Countries for reasons of work, health or absolute necessity, or to return home or to one's place of residence or dwelling, as well as for reasons of study. • Any other kind of tourism visa not allowed at the moment. • Effective from 10th January 2022, it will be mandatory for all the hotel guests to exhibit the reinforced Covid-19 Green Certificate upon check-in. This can only be obtained via vaccination or recovery from Covid-19, and NOT with a negative test result. Therefore, the negative Covid test will not be accepted anymore. • The document certifies one of the following conditions: <ul style="list-style-type: none"> • vaccination against COVID-19 with the last dose issued no later than 9 months • recovery from COVID-19 issued no later than 9 months • Non-EU citizens can present a COVID-19 Green Certificate, in paper or digital form, issued by the health authorities of their home country, certifying vaccination recognized by the European Medicines Agency (EMA). • For the international flights, the exemption certificates for the anti-SARS-CoV-2 vaccination are not recognized; such certifications may be used for the domestic flights. <ul style="list-style-type: none"> • The certifications for antigenic tests may be presented in hard-copy.

- With regard to the new measures that will take effect as of 10JAN22: The obligation to present a so-called “super green pass” upon boarding a public transport do not apply to international transport services.
 - Consequently , the measures regulating arrivals in Italy will remain those listed in the Ministry of Health’s Ordinances of 22OCT21 and 14DEC21, whilst for outgoing journeys the measures in effect at the Country of destination shall apply.
 - The green COVID-19 certificates , or their equivalents , may be presented also in hard-copy
- **The EMA currently recognizes the following vaccines:** (Comirnaty (Pfizer/BioNTech) / Spikevax (Moderna) / Vaxzevria (AstraZeneca) / Covishield / Janssen Pharmaceutica NV (Johnson&Johnson)
- In case Passengers do not have the COVID-19 Green Certificate recognized in EU, they will not be able to stay at the hotel.
- Police authority at FCO airport will not release Egyptair Flights until all incoming passengers from Cairo been checked and approved to enter Italy that means flight can't be departed back to Cairo before clearance.
- Egyptair will be fully responsible for that and fine maybe imposed
- Travel within the Member States of the European Union will continue to be unrestricted (in addition to EU Member States, (United Kingdom and Northern Ireland, Andorra, Principality of Monaco, Republic of San Marino and the Vatican City State). People travelling to Italy from these Countries will not be required to justify their reasons for travelling and will not be subject to a 14-day quarantine period in self-isolation (unless they stayed in any other Country during the 14 day period prior to travelling to Italy).
- Passengers holding residence in the following countries (Algeria, Australia, Canada, Georgia, Japan, Montenegro, Morocco, New Zealand, Rwanda, Serbia, Republic of Korea, Thailand, Tunisia, Uruguay) are allowed to enter Italy.
- For the purpose of containing the spread of the COVID-19 virus, to persons who intend to enter the national territory and who in the previous fourteen days have stayed or transited in (**Belgium, France, the Netherlands, United Kingdom of Great Britain and Northern Ireland , Czech Republic and Spain**) without prejudice to the provisions of the decree of the President of the Council of Ministers of 7 September 2020, as extended by the decree-law of 7 October 2020, n. 125, the following alternative preventive measures apply:
 - Obligation to present to the carrier at the time of boarding and to anyone appointed to carry out checks on the attestation of having undergone, in the 72 hours prior to entry into the national territory, a molecular or antigen test, carried out by means of swab and negative result).

- **Entry and transit in Italy is forbidden** to people who have stayed or transited in the following countries in the previous 14 days: (Armenia, Bahrain, Bangladesh, Brazil, Bosnia Herzegovina, Chile, Kuwait, North Macedonia, Moldova, Oman, panama, Peru, Dominican Republic, Serbia, Montenegro, and Kosovo), also direct and indirect flights to/from countries referred are also suspended. Exception to this rule is for Italian citizens or nationals of EU and Schengen Member States, UK, Andorra, Monaco, San Marino or the Vatican City State and their close family members, provided that they were resident in Italy since before July 9, 2020.
- **Effective from 24th May 2021**, all passengers entering Italy from foreign states in list B,C,D and E is required to fill in the DPLF (digital passenger locator form). For further information and DPLF visit website <https://app.euplf.eu/#/> .that in addition to the self-declaration forms. (The passengers should fill the DPLF and get the QR code.) passengers will not be accepted without DPLF with QR Code
- Passengers who have stayed in/transited through countries listed in list E (**EGYPT is included**) in the previous 14 days, must:
 - complete the DPLF digital Passenger Locator Form, which replaces the previous self-declaration.
- **The travel regulations to/from this list as following.**
 - 1.The journeys towards the Countries included in the **list E** of Annex 20 (DPCM 2MAR21) are only permitted for one of the following reasons or conditions:
 - a) Work reasons
 - b) Absolute urgency
 - c) Health reasons
 - d) Study reasons
 - e) Return to one’s home, residence or dwellings (also a close partner’s residence in a proven relationship is acceptable)
 2. The entry into the national territory by the persons who in the 14 days preceding the arrival have stayed or transited in one of the Countries included in list E above is allowed on condition of abidance by the measures indicated in paragraph 3 below and exclusively for one of the following reasons or conditions :
 - a) Work reasons
 - b) Absolute urgency
 - c) Health reasons
 - d) Study reasons

- e) Return to one's home , residence or dwellings (also a close partner's residence in a proven relationship is acceptable)
- f) EU , Schengen Agreement , Andorra , Principality of Monaco, San Marino and Vatican State citizenship
- g) Relatives of the persons having citizenship in one of the Countries listed under f) above
- h) Long-term residents or citizen of third Countries entitled to resident status
- i) Relatives of the persons listed under h) above
- l) Entry into the national territory to reach the home, residence or dwellings of a person listed under f) and h) above, even if not a cohabitant, with whom there is a proven and stable relationship.
- m) Athletes, coaches, referees , sport journalists and assistants for sport events of national interest

- **From these countries it is not possible to enter Italy for tourism reasons**
- **The police form must be handed over to the border police upon arrival**
- **The carrier's form must be kept by the carrier, available to the USMAF, Ministry of Health for any health checks.**
- Travel to/from the countries **in list E** (EGYPT) is only allowed for specific reasons, such as: (work / health reasons / study reasons / absolute urgency / return to one's domicile, home, or residence).
- Travelling for tourism is therefore not permitted.
- The re-entry/entry into Italy, in case of stay/transit in the previous 14 days from this group of countries, is always allowed to Italian/EU/Schengen citizens and their family members, as well as to holders of long-term resident status and their family members (Directive 2004/38/EC). It is also confirmed the possibility of entry into Italy, from List E countries, for persons who have a proven and stable emotional relationship (even if not cohabiting) with Italian/EU/Schengen citizens or natural persons who are legally resident in Italy (long-term residents), who need to reach their partner's home/domicile/residence (in Italy).
- Athletes, technicians, competition judges and officials, foreign press representatives and accompanying persons participating in competitive sports competitions, recognized to be of pre-eminent national interest with a provision of the Italian National Olympic Committee (CONI) and the Italian Paralympic Committee (CIP) and regulated by a specific safety protocol adopted by the sports organization responsible for the event.
- **Effective 29th April 2021 till 21st June 2021**; Ban on entry and transit in Italy of natural persons from (**India / Bangladesh / Sri Lanka**).

- The new order prohibits entry to Italy for people coming from India, Bangladesh and Sri Lanka or who have stayed in the countries in the preceding fourteen days. The entry ban does not apply to the following persons:
- Italian citizens registered as residents in Italy since before April 29, 2021 and who do not display any symptoms of COVID-19, and the persons referred to in Art. 51, paragraph, 7 letter n) of the Prime Ministerial Decree of 2 March 2021.
- Italian citizens registered on the Registry of Italians Resident Abroad (AIRE);
- Only Italian Citizens and persons in possession of a formal written authorization from the Ministry of Health can enter Italy.
- On the basis of the provisions of the Ordinance, the entry into Italy of natural persons coming from or who have stayed in the previous fourteen days in India, Bangladesh and Sri Lanka is prohibited, with the exception of Italian citizens who do not show symptoms of COVID 19 and of the subjects referred to in art. 51 paragraph 7 letter. n of the Prime Ministerial Decree of 2 March 2021 (n) to officials and agents, however named, of the European Union or of international organizations, diplomatic agents, administrative and technical staff of diplomatic missions, consular officers and employees, military personnel , including those returning from international missions, and of the Police Forces, to the personnel of the Information System for the security of the Republic and of the Fire Brigade in the exercise of their functions).
- Entry is conditioned, in addition to the declaration obligations already provided for by the Prime Minister's Decree of 2 March 2021 and the Ordinance of the Minister of Health April 16, 2021, by:
- Obligation to present the certification of having undergone a molecular or antigenic test carried out in the 72 antecedents and negative result;
- Obligation to undergo a molecular or antigen test upon arrival at the airport;
- Obligation to undergo, regardless of the negative result of the test, isolation at a COVID Hotel or other place indicated by the health authority or civil protection for a period of ten days;
- Obligation to undergo a further molecular or antigen test after the quarantine period.
- Passengers arriving in Italy who do not meet the required requirements will be rejected with transport costs for repatriation to be borne by the carrier.
- Instructions of countries in LIST (D):
 - List D countries includes (Saudi Arabia, Australia, Bahrain, Canada, Chile, United Arab Emirates, Japan, Jordan, Kosovo, Israel, Kuwait, New Zealand, Qatar, Rwanda, United Kingdom of Great Britain and Northern Ireland (including Gibraltar, the Isle of Man, Channel Islands and British bases on the island of Cyprus and excluding territories not belonging to the European continent), Republic

of Korea, Singapore, United States of America, Ukraine, Uruguay, Taiwan, Hong Kong and Macao Special Administrative Regions and the States.

A- Entry into Italy without self-isolation

- Anyone who has stayed or passed through one of the countries on List D in the 14 days prior to entering Italy without self-isolation (5 days) must comply with the following regulations:
 - Fill out the Passenger Locator Form prior to entering Italy. This form replaces the self-declaration made to the travel company and can be shown in both digital and paper format
 - take a negative molecular or antigen swab test in the 72 hours prior to entering Italy; in the case of arrivals from the UK and Northern Ireland and British Isles, the swab test must be taken in the 48 hours prior to entering Italy
- Present the COVID-19 Green Certificate, or equivalent certificate, certifying the completion of the vaccination cycle to the transport operator at the time of boarding and to anyone appointed to carry out the checks. Persons
 - who have stayed in or passed through Canada, Japan and the United States of America in the fourteen days prior to their entry into Italy, can also show a COVID-19 Green Certificate certifying recovery or a certificate issued by the competent health authorities certifying recovery. These certificates can be shown digitally or on paper.

B- Entry into Italy with self-isolation requirement (5 days)

- This prevention measure shall be applied only to people entering Italy without showing either a negative swab test or a vaccination certificate. Travellers who do not present the vaccination certificate must:
- Fill out the Passenger Locator Form prior to entering Italy. This form replaces the self-declaration made to the travel company and can be shown in both digital and paper format
- take a negative molecular or antigen swab test in the 72 hours prior to entering Italy; in the case of arrivals from the UK and Northern Ireland and British Isles, the swab test must be taken in the 48 hours prior to entering Italy
- Notify the Prevention Department of the local health authority of their entry to Italy. See COVID-19 Numeri verdi regionali for the contact details of local Italian health authorities
- travel to their final destination in Italy by private transport only
- remain in self-isolation at the address indicated on the Passenger Locator Form for a total of 5 days
- take another molecular or antigen swab test at the end of the 5 days in self-isolation

- All children under the age of 6 entering Italy are always exempt from pre-departure swab tests; they are also exempt from fiduciary isolation in the event that the accompanying parent with whom they travel does not have this obligation because they have a valid Green Certificate for vaccination or recovery.
- All minors aged 6 or over are required to have a pre-departure swab test; if they do not take the swab test, they will not be exempt from quarantine.
- Entry BAN on air traffic for passengers coming from (South Africa, Lesotho, Botswana, Zimbabwe, Malawi, Mozambique, Namibia, Eswatini):
 - The ban on passengers who have stayed or transited in the aforementioned countries in the 14 days prior to entry into Italy.
 - Italian citizens residing in Italy from a date prior to that of this Ordinance together with minor children, spouse or part of a civil union and the categories referred to in art. 51, paragraph 7, letter n of the Prime Ministerial Decree of 2 March 2021, provided that they do not show symptoms from Covid 19. The categories of passengers exempted from the entry ban are obliged to:
 - fill in the dPLF
 - present upon boarding a negative result of a molecular swab performed in the 72 hours prior to entering the national territory;
 - undergo a swab, antigenic or molecular, upon arrival at the airport;
 - Undergo a ten-day period of fiduciary isolation.
 - Airlines must promptly communicate the names of any passengers falling within the aforementioned exemption to the e-mail addresses usma.fiumicino@sanita.it and t.esposito@sanita.it.
 - **Effective from 25th Dec, 2021:**
 - It is mandatory to wear FFP2 masks on board of all means of transport (including airplane)
 - The Italian Maritime, Air and Border Health Offices (USMAF-SASN) will perform spot checks through antigenic or PCR tests on incoming passengers entering Italy.
 - **Effective 16DEC21 Till 31st January 2021 the following changes will be applied:**
- 1. List-C (UE-Schengen-EEA) – same list of countries but different conditions of entry.
 - Entry without fiduciary isolation: presentation of dPLF, a negative swab certificate (-48h for molecular, -24h for antigenic) together with a Covid green certificate of immunization (vaccination, recovery, recovery after vaccination).

- Entry with fiduciary isolation: 5 day quarantine period is needed for all those who, despite presenting a negative swab result, do not have the Covid green certificate of immunization. A final swab is required at the end of the isolation period.

PCR:

- **Till 15th December 2021**, a molecular or antigen swab test needs to be performed **within 72 hours** prior to entry into Italy for those coming from or having stayed at/ transited through, in the previous 14 days, (Minors under the age of 6 are exempted from having a pre-departure swab test) one or more states or territories listed in lists D and E (**Egypt in list E**).
- All passengers , irrespective of the country of origin, **who do not leave the airports' transit** areas or , not being residents in Italy, arrive in an Italian airport and then proceed to a destination abroad must produce upon boarding a molecular (48 Hours before the arrival) or antigenic (24 hours before the arrival) negative test result.
 - Transit passenger who do not leave the airports' transit areas and those who reach the airport with a private vehicle before proceeding to their final destination are exempted from the obligation to fill in a DPLF.
- **Till 31st January 2021:**
 - List-D Countries: added Argentina, Colombia, Indonesia and Perù, removed Singapore, Ucraina, Kosovo and Jordan. Reduced deadlines for the antigen test to entry Italy (to 24h)
 - List-E Countries: reduced deadline for the antigen test to entry Italy (to 24h) (Egypt in List E)
- **Exemptions:**
Exemption from the swab test taken in the 72 hours prior to entry to Italy, from self-isolation and the swab test at the end of self-isolation
 Without prejudice to the general conditions above, this exemption applies to the following categories:
 - transport crew members
 - onboard transport staff
 - travel to and from the States and territories referred to in List A of Annex 20
 - anyone who enters Italy for a period not exceeding one hundred and twenty hours (5 days) for proven reasons of work, health or emergency, with the obligation, at the end of this time period, to leave Italian territory immediately or, failing this, to begin the period of surveillance and self-isolation in compliance with paragraphs 1 to 5.
 - anyone who transits, by private vehicle, in Italian territory for a period not exceeding thirty-six hours, with the obligation, at the end of this period of time, to leave Italian territory immediately or, failing this, to begin the period of surveillance and self-isolation in compliance with paragraphs 1 to 5

		<ul style="list-style-type: none"> • cross-border workers entering and leaving Italy for proven reasons of work and for the subsequent return journey home or to their place of residence • the staff of businesses and entities with registered or secondary offices in Italy for travel abroad for proven reasons of work and for trips lasting no more than one hundred and twenty hours • pupils and students in order to attend school or university in a State other than that in which they live or are resident, to which they return every day or at least once a week . • <u>Diplomatic passengers will need PCR or Antigen test 72 hours prior entry to Italy as they are only exempted from self-isolation and swab test at the end of self-isolation.</u> • <u>Vaccination certificates</u> <ul style="list-style-type: none"> • The certificate may be shown in paper or digital format and must be in one of the following languages: Italian, English, French or Spanish. • Certificates are valid only if they meet the following conditions: • it must be issued by the national health authority of the country the person is travelling from • the vaccine used for vaccination must be approved by the European Medicines Agency (EMA): (Comirnaty by Pfizer-BioNtech / Moderna / Vaxzevria / Jansen (Johnson & Johnson)). • <u>QUARANTINE: All passengers arriving Italy (so far) are subject to self-quarantine for 14 days.</u> • For passengers arriving from D and E list (Egypt in list E), quarantine will be 10 days at the address indicated on the Passenger Locator Form. After 10 days quarantine passengers must take a second test. <u>At the end of the quarantine period, an additional molecular or antigenic swab test needs to be carried out.</u> • <u>Exemptions for Covid-19 second test and quarantine:</u> • Passengers that are coming for business, health or urgent reasons and will stay maximum 120 hours on Italian territory • Transit of 36 hours is referred only to whom is travelling by car, this kind of transit is not applied for passengers arriving by air.
2	<u>TURKEY</u>	<ul style="list-style-type: none"> • All kinds of Visas are accepted to enter Turkey. • <u>Effective from 15th March 2021, all passengers arriving to Turkey should fill an Online “Traveler Entry Form” within 72 hours before their trip.</u> • Passengers are accepted <u>with the following conditions:</u> • All passengers have to wear masks during any time at the airport and on board. • <u>All arriving passenger will be asked to fill the passenger locator online form 72hrs before the flight to obtain HES Code via (Register.health.gov.tr)</u>

- All arriving passengers will be examined and will be tested if they have any symptoms. Passengers shall be informed by the operators beforehand and during flight.
- Passengers with positive test result, will not be deported, will receive treatment.
- All passengers that are 6 years and older will be require to fill Traveler Entry Form through: register.health.gov.tr within the last 72 hours prior to departure of their inbound flight to Turkey.

PCR: Starting from 30th December 2021 till 31st March 2022,

- Passengers arriving from **Egypt** will be requested to submit a PCR test report with a negative result at most 72 hours prior to arriving turkey **OR** submit proof of 2 doses of vaccination (listed by WHO or turkey for emergency use) (1 dose for Johnson and Johnson) provided that the last dose was at least 14 days before arrival.
- Passengers aged under 12 are exempted from PCR test report and vaccine certificate application on entry to republic of Turkey.
- **Passengers arriving directly from South Africa, Botswana, Mozambique, Namibia, Zimbabwe, Brazil, Nepal, Sri lanka, Bangladesh, India & Pakistan** who had been in these countries within the last 14 days shall submit a negative PCR test result at most 72 hours before arrival and will be exempted from quarantine if they submit proof of 02 doses of vaccination listed by WHO or Turkey Emergency use (1 dose for Johnson and Johnson) provided that the last dose was at least 14 days before arrival otherwise these passengers will be quarantined at their residences or addresses they submit. If passengers aged over 12 and under 18 travelling with their parents a negative PC-+R test prior to the entry will be sufficient.
- Passengers to be quarantined as mentioned above shall pay the hotel fees before arriving to turkey. Passengers who cannot prove that they have made the necessary payments to stay at the hotels determined by the governorships will not be allowed to board the plane by airline operators.
- Passengers arriving from the countries other than those listed in the above mentioned countries those who submit proof of 2 doses of vaccination (listed by who or turkey for emergency use) (1 dose for Johnson and Johnson) provided that the last dose was at least 14 days before arrival and/**OR** a proof of recovery from covid-19 within the last 6 months starting from the 28th day of the first positive PCR test result, will not be asked to present a negative PCR test report and quarantine measures will not be applied.
- The republic of turkey citizens will enter to the republic of turkey those who submit proof of 2 doses of vaccination (listed by WHO or turkey for emergency use) (1 dose for Johnson and Johnson) and/or those who submit document that they have covid-19 within the last 6 months or those who submit

		<p>PCR test report with a negative result implemented at most 72 hours before entry or submitting a negative rapid antigen test result at most 48 hours before arrival country will be allowed.</p> <ul style="list-style-type: none"> • Passengers aged under 12 are exempted from PCR/antigen test report and vaccine certificate application on entry to republic of turkey. • Documents such as vaccine certificate, PCR/antigen test result will be controlled by airline companies before travel and passengers without the document will not be accepted to the travel, the responsibility arising due to the accepting of non-certified persons will be compensated by the airline companies. • These requirements are not applicable to transit and/or transfer passengers. • The hotels determined by the governorships for passengers to be quarantined under the article 3a will be published in English on the link of DGCA (http://web.shgm.gov.tr/tr/covid-19-tedbirler/6599-izolasyon-otelleri note: you must enter the web address to the web browser in lower letters and English characters).
3	<p><u>UNITED KINGDOM</u></p>	<ul style="list-style-type: none"> - All Passengers (even transit) arriving in the UK (England, Wales, Scotland, Northern Ireland) from outside the common travel area must provide the Passenger Locator Form ahead of their arrival The online Passenger Locator form are available https://www.gov.uk/provide-journey-contact-details-before-travel-uk - <u>Effective 11 February 4AM</u> - All testing requirements will be removed for eligible fully vaccinated arrivals, with only a Passenger Locator Form (PLF) now required. - Arrivals who are not recognized as fully vaccinated will only need to take a pre-departure test and a PCR test on or before day 2 after they arrive in the UK. - Children aged 12-15 in England will be able to prove their vaccination status or proof of prior infection via a digital NHS COVID Pass from 3 February for outbound travel - NO airside transit facilities at both London Gatwick and Manchester Airports. <p><u>PCR:</u></p> <ul style="list-style-type: none"> - All passengers (including UK nationals and residents) arriving to UK must provide proof of a negative COVID-19 test taken within 2 days of departure to the UK. (Children aged under 11 are exempted) - Types of tests: PCR / Antigen - More information can be found via; www.gov.uk/guidance/coronavirus-covid-19-testing-for-people-travelling-to-england - Travelling with children:

- Children aged 4: do not have to take any COVID-19 travel tests i.e NO need to take Pre-Departure Test (PDT) in which PCR or Antigen that are both accepted to travel to UK and NO need to have quarantine on arrival and take a PCR on or before day 2
- Children aged 12 to 17: must take the PDT - COVID-19 test (PCR or Antigen) in the 2 days before travel to England and to have quarantine on arrival and take a PCR on or before day 2.
- Children aged less than 12: are not required to take the PDT - COVID-19 test (PCR or Antigen) in the 2 days before travel to England ,
- Children aged 5 to 17: have to follow the testing and quarantine rules for people who qualify as fully vaccinated on arrival in England. (In terms of PDT or having to quarantine on arrival and take a PCR test on or before day 2 as above mentioned).
- This means that they have to quarantine on arrival and take a PCR test on or before day 2.
- Fully vaccinated passengers and under 18s will NO longer need to take a pre-departure test or self-isolate on arrival in England, but must continue to take their post-arrival tests.
- Fully vaccinated passengers and over 5s will be able to take a lateral flow test instead of a PCR on or before day 2 of their arrival in England. Lateral flow tests for travel can be booked from Friday 7 January and taken upon arrival, by the end of day
- Approved vaccines
- passengers must complete course of one of the following vaccines at least 14 days before arriving in England: (Oxford/AstraZeneca / Pfizer BioNTech / Moderna / Janssen (single dose vaccine) / Sinovac-CoronaVac / Sinopharm Beijing / Covaxin)
- The day that the passenger has his / her final dose does not counted as one of the 14 days.
- Formulations of these vaccines, such as (AstraZeneca Covishield, AstraZeneca Vaxzevria and Moderna Takeda,) also qualify as approved vaccines. If you were vaccinated with a 2 dose vaccine, or a combination of them, you must have had both doses to be considered fully vaccinated for travel to the UK.
- This applies in all cases, even if the passenger recently recovered from COVID-19 and have natural immunity.
- Countries with an approved proof of vaccination and examples of proof required van be found via: (www.gov.uk)
- Passenger who will present fake PCR for traveling from or to London will be reported to the police and investigated by the police”

QUARANTINE:

		<ul style="list-style-type: none"> - All arrivals must be quarantined for 10 days unless exempt. If you have travelled through a red list country in the last 10 days, you must have a valid Managed Quarantine Facility booked prior to departure. For information please visit: www.gov.uk/travel-quarantine-and-testing. Check the list of exempt countries immediately before travel and the list of work-related exemptions if travelling for work. - Any passenger have the option to take a PCR test after five days of self-isolation , with a negative test releasing them from the need to isolate themselves for 10 days in sequence.
4	<u>GREECE</u>	<p><u>Effective 7th February 2022 (04:00) till 21st February 2022 (04:00):</u></p> <ul style="list-style-type: none"> • All passenger arriving to Greece regardless of nationality must complete the electronic passenger locator form (PLF) with QR code published in HTTPS://TRAVEL.GOV.GR before arrival to Greece. • Passenger arriving from EU countries, Schengen states and from 33 countries (NON EU) that have joint the EU digital covid certificate system (Albania, Andorra, Armenia, Cabo Verde, El Salvador, Faroe Island, Georgia, Israel, Iceland, Lebanon, Liechtenstein, Moldova, Monaco, Montenegro, Morocco, New Zealand, North Macedonia, Norway, Panama, San Marino, Serbia, Singapore, Switzerland, Taiwan, Thailand, Tunisia, Togo, Turkey, Ukraine, United Arab Emirates, United Kingdom, Uruguay And Vatican) are accepted provided that they display the EU digital covid-19 certificate or: <ul style="list-style-type: none"> • To have completed the vaccination for coronavirus covid-19 at last fourteen (14) days before scheduled arrival and to present a vaccination certificate up to nine (9) months following the administration of the last dose of the primary vaccination, the limitation does not apply to certificate for booster doses. The certificate must include the full name as registered in passport, type of vaccine and the number of doses. • To present proof of recovery from covid-19 supported by a molecular (PCR) or rapid antigen test for covid-19, the European digital certificate of recovery is issued fourteen (14) days after the first positive diagnosis and is valid up to one hundred eighty (180) days. • To display a negative molecular (PCR) for covid-19 performed by taking an oropharyngeal or nasopharyngeal smear up to 72 hours before the schedule arrival, or 24 hours diagnostic rapid antigen test for covid-19 prior to the schedule flight. • All valid Schengen visas for Greece or Schengen states is accepted to travel to Greece without permission from the Greek consulate. <p>PCR:</p> <ul style="list-style-type: none"> • Passengers arriving from (Australia / Canada / USA) are permitted to enter under the conditions that they display either:

		<ul style="list-style-type: none"> • Vaccination certificate for those who have completed vaccination for covid-19 at least fourteen (14) days before arrival valid for nine (9) months after the complete of the basic vaccination and without time limit for travelers who received the booster dose, the certificate must include the full name as registered in passport, type of vaccine and the number of doses. • To present certificate of recovery from covid-19 supported by a molecular (PCR) or rapid antigen test for covid-19, the European digital certificate of recovery is issued fourteen (14) days after the first positive diagnosis and is valid up to one hundred eighty (180) days. • To display a negative molecular (PCR) for covid-19 performed by taking an oropharyngeal or nasopharyngeal smear up to 72 hours before the schedule arrival, or 24 hours diagnostic rapid antigen test for covid-19 prior to the schedule arrival. • Passengers arriving from all other countries are permitted to enter Greece under the condition that they display a negative molecular test (PCR) for covid-19 performed by taking an oropharyngeal or nasopharyngeal smear up to <u>72 hours</u> or rapid antigen up to <u>24 hours</u> before schedule arrival, the certificate must include the full name of passenger as registered in the passport. • <u>The above obligations include children from the age of five (5) years and above.</u> • All passengers will be subjected to a random PCR test upon arrival. • Airlines are required to confirm the fulfilment of the above requirement before boarding, in case of violation passenger will be repatriated at the airline responsibility and expenses.
5	FRANCE	<ul style="list-style-type: none"> • <u>The French Government has announced on 04th June 2021 a Strategy to Reopen the Borders from 09th June 2021. New updates as follows:</u> • <u>Classification of countries according to the evolution of their epidemic situation (lists to be found in www.gouvernement.fr/ info-coronavirus).</u> • PLF is required from all passengers travelling to France. • 1- “Green” countries: These are the countries of the European area: Member States of the European Union as well as Andorra, Iceland, Liechtenstein, Monaco, Norway, San Marino, Switzerland and Vatican. In addition, the following countries and territories are added: Saudi Arabia, Bahrain, South Korea, United Arab Emirates, Honduras, Hong Kong, Indonesia, Japan, Kuwait, New Zealand, Qatar, Rwanda, Senegal, Taiwan and Vanuatu. • 2- Orange Country: These are all countries not included in the list of "green" countries. • NB: Depending on your country of origin, you may be subject to screening on arrival and for which you are asked, in order to facilitate the administrative formalities, to complete the form available at the following address:

<https://www.gouvernement.fr/infocoronavirus/deplacement#:~:text=passenger.serveureos.org>

3- «Red» countries: Countries where active viral circulation has been reported, including relevant variants. These include the following countries: Afghanistan, Belarus, Brazil, Costa Rica, Cuba, Georgia, Moldova, Montenegro, Pakistan, Russia, Serbia, Suriname, Turkey and Ukraine.

4- “SCARLET RED”: This classification includes the following countries: (South Africa, Botswana, Eswatini, Mauritius, Lesotho, Malawi, Mosambique, Namibia, Zambia, and Zimbabwe)

The following Measures will be applied to enter France from “SCARLET RED” country:

- Proof of vaccination.
- Urgent reason required. (Page 8 in the following link).
https://www.gouvernement.fr/sites/default/files/dp-covid_frontieres_021221_3ep_0.pdf
- Negative PCR test less than 48Hrs, or Antigen test less than 24Hrs.
- **Quarantine:** mandatory for 10 days controlled by security forces.

(In case of a positive test on arrival, a 10-day isolation measure in a location determined by the representative of the state in the department will be pronounced, after examination of the individual situation, and controlled by the forces of internal security).

- **Effective 04th December 2021**, any passenger (whether vaccinated or not) **12 years of age or above** coming from a foreign country not red or yellow (Orange: **Egypt** is included) must provide a result of a PCR or antigen test carried out **less than 48 hours** before the trip.
- The vaccines accepted by France are those recognized by the European Agency of the drug (EMA): Pfizer, Moderna, AstraZeneca and Johnson & Johnson.
- Proof of vaccination should certify a complete vaccination plan, namely:
 - * 7 days after the second injection for double-injection vaccines (Pfizer, Moderna, AstraZeneca / Vaxzevria/Covishield)
 - * 4 weeks after injection for single-injection vaccines (Johnson & Johnson);
 - * 7 days after injection for vaccines in people with a history of Covid-19 (only 1 injection required).
- For persons who have received all the required doses of a WHO-licensed vaccine not approved by the European Medicines Agency, 7 days after receiving an additional dose of an EMA-approved mRNA vaccine.
- The measures applied to vaccinated adults are extended under the same conditions to their accompanying minors, whether vaccinated or not.
- Full information for all zones can be found in <https://www.gouvernement.fr/>
- **Effective from 30/01/2021;**

- Travel (entering and leaving the territory) between France and abroad, except member states of the (European union, Andorra, Iceland, Liechtenstein, Monaco, Norway, San Marino, Switzerland and Vatican), are only be authorized for an **imperative reasons of personal or family nature, a health reason relating to the emergency** or **a professional reason that cannot be deferred**. The list of acceptable reasons for travel is given in a derogatory travel form available on the internet (ministry of interior website).
- **Effective 04th December 2021,**
- Passengers aged twelve or above wishing to travel to the national territory from (**South Africa, Botswana, Eswatini, Mauritius, Lesotho, Malawi, Mozambique, Namibia, Zambia or Zimbabwe**) must be provided with a negative result of a PCR test of less than 48 hours or of an antigen test of less than 24 hours before boarding.
- Passengers aged twelve or above wishing to travel to the national territory from (a member state of the European Union, Andorra, Iceland, Liechtenstein, Monaco, Norway, San Marino, the Holy See or Switzerland) must, if they do not have proof of their vaccination status or a certificate of recovery- be provided with the result of a PCR or antigen test carried out less 24 hours before the trip.
- Passengers twelve years of age or above wishing to travel to the national territory from a foreign country must also be provided with a sworn statement attesting that they accept that they can be tested upon arrival at the airport.
- EgyptAir must be sure that the boarding passenger can present: (the exceptional travel certificate filled in and signed / supporting documents corresponding to the admissible reason for travel indicated on the certificate). If the passenger is unable to present these documents, he/she is not allowed to board the aircraft.
- **Effective 3rd Feb 2022,**
- In order for the vaccination schedule to remain recognized as complete, persons aged 18 years or older wishing to enter the Republic of France must have received an additional dose of complementary messenger RNA vaccines approved by European Medicines Agency (Pfizer, Johnson, Moderna, and Astrazeneca) no later than 9 months following the injection of the last required dose.
- All other regulations remain the same with no change

PCR:

- **Effective 12th Feb;**

- For travelers vaccinated within the European regulations, no further tests will be required on departure. The proof of vaccination becomes sufficient again to arrive in France, whatever the country of origin.

-For unvaccinated travelers, the obligation to present a negative test to travel to France remains, but the test or isolation measures on arrival are lifted when they come from countries on the "green" list, characterized by moderate circulation of the virus.

-When unvaccinated travelers come from a country on the "orange" list (EGYPT) they must present a proof of a negative PCR test 72 hours before departure, or Antigen test 48 hours before departure, and they have to continue to present an urgent reason justifying their need to enter France and may still be subjected to a random test on arrival. Travelers who test positive will have to isolate themselves, in accordance with the recommendations of the Health Insurance.

- All arriving passengers of age 12 and older are required to have a negative **PCR test dating with 48 hours of departure**.
- Children under eleven years are exempted.
- PCR test types are (RT-LAMP / QRT-PCR / LAMP / QPCR / PCR / RT-PCR Detection of RNA)
- The Air carrier denies boarding to any person aged SIX years or older who does not wear a surgical mask. This requirement will not prevent the passenger from being asked to withdraw the mask for the purpose of identity check”.
- Statement for passengers to certify that he/she do not have any symptoms of COVID-19 is now required (must be filled by the passenger before travel)
- All arriving passengers from: (South Africa, Argentina, Bahrain, Bangladesh, Brazil, Chile, Colombia, Costa Rica, United Arab Emirates, India, Nepal, Pakistan, Qatar, Sri Lanka, Turkey, Uruguay), New additional measures are as follows:
A- Before departure;
 - All travelers, whatever their nationality, must present to the transport company and to the border control authorities:
 - for travelers over eleven years old only, the result of a virological screening biological test "COVID RT-PCR" dating less than 36 hours before departure (departure of the first flight in the event of a connecting trip) and not conclusive not to contamination by covid-19 or the result of a biological virological screening examination (PCR) carried out less than 48 hours before departure not concluding to contamination by covid-19 and a antigenic test carried out less than 24 hours before departure not concluding to contamination by covid-19;

- supporting documents attesting to the address of the home or of a suitable accommodation (hotel or similar), specifying, where applicable, the access procedures allowing control officers to verify compliance with the quarantine measure or isolation, except in the event of isolation in a place of accommodation provided by the administration (territorial isolation support cells have been set up to support people placed in isolation) or transit in international area;
 - a sworn statement attesting to
 - that he does not present any symptoms of infection with covid-19,
 - that he is not aware of having been in contact with a confirmed case of covid-19 in the fourteen days preceding the trip,
 - for travelers over eleven years old only, that he accepts that a test or a biological virological screening test for detection of SARS-CoV-2 can be carried out on his arrival in the national territory.
 - Travelers will systematically be subject to a quarantine or isolation measure which will be pronounced by prefectural decree on their arrival in mainland France for a period of ten days, which will be accompanied by restrictions on exit times from the place of isolation. (Except in the case of transit in an international zone).
 - There is a tolerance for the boarding test presentation requirements for these new countries until Sunday May 16 at 11:59 p.m.
- B- Upon arrival:**
- Have an Antigen test carried out at the airport of arrival;
 - Self-isolate for the mandatory 10-day period (failure to do so may result in a fine).
 - As part of the self-isolation support system, you will be regularly contacted by the French Health Insurance Services to help you during this period.
 - Declaration for travelers aged 11 and over and Declaration for travelers under 11 are available on the site of The Ministry of Interior
 - <https://www.interieur.gouv.fr/Actualites/L-actu-du-Ministere/Attestation-de-deplacement-et-de-voyage#from6>
 - **QUARANTINE: Self isolation for 7 seven days is applied, then undergo another test**
 - **Passengers arriving from countries where test is not possible, a letter from the French consulate is required. Then will undergo a test at the airport of arrival, and will be quarantined in a concerned place of the government.**

6	<p><u>Germany</u></p>	<ul style="list-style-type: none"> • Passengers who intend to enter Germany and who have stayed in an international risk area including a high-incidence area or an area of virus variant of concern (VOC) within the last 10 days prior to entry are subject to mandatory entry registration and sars-cov-2. • Areas of virus variants of concern: carriers are strongly advised to regularly review the designation list at www.rki.de/covid-19-risikogebiete. Designations are subject to change at short notice. (<u>Egypt is still listed as high-risk at RKI</u>). • It is mandatory for all passengers arriving from categorized risk countries to register online and get a confirmation PDF: www.einreiseanmeldung.de • (Botswana, Eswatini, Lesotho, Malawi, Mozambique, Namibia, South Africa and Zimbabwe) have now been added to the list of virus variant areas. (Ban on carriage from areas of variant of concern) • A substitute form is to be filled-in only in case passenger doesn't have internet access and not in addition to the online registration. • In case he/she filled-in the substitute form it is not to be collected by cabin crew, but passenger will have to hand it over to Federal Police at border control in Germany. • Temporary travel restrictions apply to all non-essential travel from third countries to the Federal Republic of Germany. (This does not include flight restrictions).The restrictions do not apply to German citizens. • Exempted from these travel restrictions Transit passengers and passenger who have resided and last stayed in the following countries and regions: (Argentina, Australia, Bahrain, Canada, Columbia, Hong Kong, Indonesia, Jordan, Kuwait, Macao, New Zealand, Peru, Qatar, Rwanda, South Korea, Taiwan, United Arab Emirates, Uruguay ,). • <u>Entry into the federal republic of Germany is permitted to all passenger from third countries who have an imperative need for travel:</u> <ul style="list-style-type: none"> ○ EU citizens and third-country nationals with current right of residence in Germany, ○ healthcare workers, health researchers and Geriatric care workers, ○ skilled and highly qualified foreign workers if their employment is necessary from an economic perspective and the work cannot be postponed or performed abroad, ○ freight transport and other transport personnel, ○ seasonal workers in agriculture, ○ Seafarers, ○ Foreign students, trainees, volunteers,
---	---------------------------------------	---

- persons immigrating into Germany for the purpose of joining their families and visits for urgent family reasons or short term visits of core family members (husband/wife, minor children, parents of minor children) or unmarried partners in a relationship with German nationals, EU citizens and third-country nationals with current right of residence in Germany or joint short term visits of couples (third country national and German national/EU citizen) residing together in a third country for important reasons,
- Persons in need of international protection or for other humanitarian reasons,
- Diplomats, staff of international organizations, military personnel and humanitarian aid workers in the exercise of their functions,
- Ethnic German resettles,
- Passengers in transit.

For further information: WWW.BMI.BUND.DE/EN/

- Entry from third countries into the federal republic of Germany for the sole purpose of onward travel to another EU-/Schengen state is permitted. this applies under the following conditions:
 1. The time spent in Germany is limited to the duration required for direct transit to the destination state,
 2. The third-country national is permitted to enter the destination state in accordance with annex i or annex ii of the council recommendation (EU) 2020/912 of 30 June 2020 or an individual confirmation of the granting of entry issued by the destination state.
 3. The third country is not designated as an area of virus variants of concern.

Under these conditions, entry by air and onward travel to the country of destination by land is also permitted. It is the traveler's responsibility to prove the right of entry into the country of destination and the route of travel in the event of controls.

- EgyptAir are prohibited to transport passengers from an area of VOC to Germany. This restriction applies to all travel of passengers originating from an area of voc. Exemptions: the transport ban does not apply to:
- Passengers having German nationality and passengers residing and with right of residence in Germany as well as their spouses, partners from the same household, minor children and parents accompanying their minor children, in the case of flights from member states of the European union or the united kingdom of great Britain and northern Ireland: the transport ban does also not apply to passengers with a partner in Germany (German nationality or right of residence in Germany) who does not belong to the same household

(The following applies to the proof of the civil partnership: The life partnership of the entering partner with the partner residing or permanently entitled to reside in Germany must be made credible in individual cases by a declaration of the relationship as well as proof of a meeting that took place in person). The FAQs of the BMI will be adapted accordingly. (So far only available in German which can be found at <https://www.bmi.bund.de/SharedDocs/faqs/DE/themen/bevoelkerungsschutz/coronavirus/coronavirus-faqs>)

- exclusively cargo or postal or ferry flights,
- repatriation of aircrafts and crews,
- transportation of personnel in the interest of public health,
- ambulance flights and flights transporting transplant organs and necessary accompanying personnel,
- flights for urgent humanitarian reasons,
- flights on behalf of the erratum safeguards, the international atomic energy agency, the united nations and its agencies, the European union and the European center for medium-range weather forecasts,
- members of a foreign diplomatic mission or consular office as well as their accompanying spouses, partners from the same household and minor children whose appointment and arrival has been notified to the federal foreign office, -transport of persons accredited by the respective organizing committee for the preparation, participation, implementation and follow-up of international sporting events,
- transports of vaccinated pax for which the federal government of Germany
- Carriers must only transport passenger who have presented proof of successful registration or substitute registration form.
- For passengers who intend to enter Germany and who have stayed at a high-incidence area or an area of VOC within the last 10 days prior to entry, preflight testing is mandatory. The sample collection for the test must not be older than 48hr before entry.
- Passengers who have only passed through a high-incidence area and have not had a stopover there or who enter Germany only for transit purposes and leave Germany again by the quickest route are exempted from presenting a proof of negative testing. The list of exceptions is not exhaustive. Further exemptions may apply. Please check against regulation.
- Egyptair must provide information of the German Federal ministry of health to all passengers.
- passengers who intend to enter Germany and who have stayed in an international risk area (including high-incidence area or an area of virus variant of concern) within the last 10 days prior to entry are subject to mandatory entry registration (electronically) and sars-cov-2 testing

- The above instructions including transit and transfer passengers originating from a high-incidence area or area of virus variant of concern.
- The obligation to fill out a PLF and the local quarantine regulation when returning from a risk area, high risk area or an area of VOC are still valid.
- The air carrier is obliged to inform the passengers about the new digital entry registration, and to check before the flight if the passengers have registered online. If, in exceptional cases, passenger are not able to fill out the digital registration they have to fill out a replacement registration in paper form. The carrier has to collect this paper form and has to hand it over to the Health Authorities at the first point of arrival in Germany.

- All passengers arriving at Munich Airport to wear FFP2 / KN95 masks within the airport building

PCR:

- From 23 December 2021 until 03 March 2022.
- Children 6 years and older (not 12+ years anymore) must provide a negative COVID testing, proof of recovery or vaccination before boarding the flight and are – if not vaccinated or recovered - also obliged to quarantine for 5 days after returning from a high risk area or for 14 days after returning from an area of variants of concern.

1) High risk area or non-risk area:

a) **Antigen**, the sample collection for the test must not be older than 48 hrs before entry.

b) **PCR or PoC-PCR test**, The sample collection for the test must not be older than 48hrs before time of or planned time of departure.

2) Area of Variants of concern:

Passengers returning from or staying within the last 10 days in an area of variants of concern before entering to Germany must provide a negative PCR test with a sample taken max. 48h before departure. In this case, antigen tests are not valid.

Please note: Those passengers should also beware of that the authority in charge can request an additional PCR test at the German entry point or anytime within 14 days after entering Germany. This addition is not fixed in the ordinance but in the explanatory statement.

1. Transit/Transfer passengers are not exempted from these regulations anymore. All transfer passengers are obliged to provide a proof of recovery, vaccination or a negative COVID test before boarding the flight via Germany. Transfer passengers on flights from an area of variants of concern must provide a negative COVID testing as well.
2. **Vaccination:**

3. Passengers who received one dose of Janssen must also receive a booster dose of Janssen, Moderna or Pfizer-BioNTech at least 14 days before departure

- Entries of fully vaccinated passengers from countries outside the European Union will be allowed.
- Entry into the federal republic of Germany is permitted to all passengers who have resided and last stayed in third countries, provided they are fully vaccinated against sarscov-2 coronavirus.
- Persons under 6 years of age who have not yet been vaccinated may enter if accompanied by at least one fully vaccinated parent.
- The passengers is considered fully vaccinated under the following conditions:
 1. The vaccine must be listed on the website of the paul-ehrlich-institute.
 2. Passenger must have received all the necessary vaccination doses required for a complete protective vaccination as listed on the website of the paul-ehrlich-institute.
 3. At least 14 days have elapsed since the last required vaccination, except for recovered persons.
 4. Passenger has not stayed in an area of virus variants of concern during the last 10 days.
 5. Passenger is citizen of a state whose entry requirements are not subject to reciprocity. (Reciprocity reservations currently exist for the following state: china).
- On all flights to Germany carriers must only transport passengers who have presented proof of negative test for sars-cov-2 **or** a vaccination certificate or (fully vaccinated) a proof of recovery of sars-cov-2. PAX transiting via a German airport to a third country or a country in the Schengen area are exempted.
- Passenger must present a digital Covid certificate of the European Union (EU-dcc) or an equivalent proof of vaccination before departure to the carrier. EU-dcc or an equivalent proof of vaccination must be checked by carriers against ID card or equivalent prior boarding.
- The vaccination certificate must contain at least the following information:
 1. Personal data of the vaccinated person (at least surname, first name and date of birth),
 2. Date of vaccination,
 3. Number of vaccination doses,
 4. Name of the vaccine,
 5. Name of the disease against which vaccination was received, and
 6. Characteristics that indicate the person or institution responsible for carrying out the vaccination or issuing the certificate, for example an official symbol or the name of the issuer.
 7. accepted languages of proof of vaccination: German, English, French, Italian or Spanish.
- Regarding the current status of Non-EU countries recognizing the European Digital COVID certificate. Up to now, the 16 following Non-EU countries joined the EU Digital COVID Certificate System:

(Albania / Andorra / Switzerland / Faroe Islands / Israel / Iceland / Liechtenstein / Morocco / Monaco / North Macedonia / Norway / Panama / San Marino / Turkey / Ukraine / The Vatican)

- The accepted Vaccines are (BioNTech / Moderna / AstraZeneca / Janssen).
- **Passengers are required to undergo testing (SARS-COV2) virus no more than 48 hours before or immediately after entry.**

QUARANTINE:

- Those travelers are obliged to go directly to their home or other suitable accommodation immediately after their return and to stay there permanently for a period of 10 days.
- When returning from **High risk areas** The obligation to quarantine at home for **10 days** is still valid. The quarantine can be shortened after 5 days with a proof of a negative Covid test. With a proof of a vaccination or of recovery there is no need to quarantine. (Children **under 6 years** the quarantine is obliged but ends automatically after 5 days without having a proof of a negative test)
- When returning from **Areas of variant of concern** VOC, the quarantine obligation **14 days.** (There is no option to shorten the quarantine with a proof of vaccination, recovery or negative test.)
- It is NOT mandatory to quarantine for the following: Traveling through, border traffic, professional activity / training / study, border commuters, private visits and special professional groups.
- You can find more details about this at: Further information on exemptions from quarantine regulations can be found at: <https://soziales.hessen.de/gesundheit/corona-hessen/quarantaenebestimmungen-und-coronatests-fuer-einreisende/neue-regelungen-ab-08112020/ausnahmen-zu-quarantaenebestimmungen-und-coronatests-fuer-einreisende>
- Ending quarantine early when entering from areas of variants of concern is an option in the following two cases:
 - The respective area of variants of concern is downgraded in Germany during the self-isolation period (i.e. it is either classed as a high-incidence area or as a basic risk area). In this case, when the self-isolation period ends depend on the regulations for high-incidence or basic risk areas.
 - For persons who are fully vaccinated with a specific vaccine listed on the Robert Koch Institute's website, self-isolation ends when they submit their proof of vaccination. This is on condition that the Robert Koch Institute has determined (and published on its website) that this vaccine is sufficiently effective against the variant of the virus for which the classification as an area of variants of concern was made.

7	<u>CYPRUS</u>	<ul style="list-style-type: none"> • Effective 14th January till 28th February 2022, all passengers arriving in the Republic of Cyprus must have undergone <u>a 72-hour PCR laboratory test before their departure or ANTIGEN RAPID TEST, WITHIN 24 HOURS PRIOR TO DEPARTURE.</u> <ul style="list-style-type: none"> • It is recalled that all passengers regardless of vaccination history, will undergo another PCR laboratory test upon arrival, the cost of which will be borne by them (15 Euro) (Only children less than 12 years is exempted). For more details please use below link: https://www.pio.gov.cy/en/press-releases-article.html?id=25053#flat • All passengers entering the Republic of Cyprus, are required to undergo a <u>rapid antigen test upon completion of 72 hours from the time of their arrival.</u> (After arrival, Free of charge) through the mobile testing units of the Ministry of Health, upon presentation of their boarding pass card and proof of identity (identity card, passport). Excluded are those who received the booster / 3rd dose of acceptable vaccines. • <u>All passengers, regardless of country category, shall be obliged to fill an application on the https://cyprusflightpass.gov.cy/ within 48 hours prior to their departure flight.</u> • <u>No passengers will be accepted without Cyprus Flight pass.</u> • Transit passengers will not be accepted via Larnaca Airport onboard low cost carriers unless passengers are in position allow to enter Cyprus with all documents needed (Visa, PCR test and Cyprus flight pass) • For more details kindly visit web : https://cyprusflightpass.gov.cy/

Country Categories

Countries are categorized according to their epidemiological situation into categories Green, Orange and Red, with category Green having the most favourable epidemiological status. Any Countries not defined below are treated as Grey (Special Permission) category.

The categorization of Countries will be updated weekly by the Ministry of Health.

For Categories Green, Orange and Red, please see below. Any Countries not defined below are treated as Grey (Special Permission) category.

Countries in Green Category

- **Passengers from Green countries:**

- Passengers should complete the Cyprus Flight Pass (<https://www.cyprusflightpass.gov.cy>) within 24 hours prior to their departure flight.

Countries in Orange Category

- **Passengers from Orange countries:**

- Passengers should complete the Cyprus Flight Pass (<https://www.cyprusflightpass.gov.cy>) within 24 hours prior to their departure flight.
- **Passengers coming from orange countries are required to undergo a molecular test at a certified lab, with the sample taken during the last 72 hours prior to flight departure, and upload a certificate that demonstrates a negative PCR for COVID-19, on the Cyprus Flight Pass Platform.**
- **Children below the age of 12 are exempted from testing. All travelers will also need to provide certain information and solemn declarations.**

Countries in Red Category

(Andorra / Argentina/ Armenia / Australia /Austria / Bahrain /Belarus / Belgium / Bulgaria / Canada / Chile / China / Colombia /Croatia / Czech republic / Denmark / Egypt / Estonia / Finland / France / Georgia / Germany / Greece /Holy See (Vatican City State) / Hong Kong/ Hungary / Iceland /

Indonesia/ Ireland / Israel/ Italy / Japan/ Jordan / Korea, Republic of / Kuwait/ Latvia / Lebanon / Liechtenstein / Lithuania / Luxembourg / Macao/ Malta/ Monaco/ Netherlands / New Zealand /Norway / Oman / Peru / Poland / Portugal / Qatar/ Romania/ Russian Federation / Rwanda /San Marino / Saudi Arabia /Serbia / Slovakia / Slovenia / Spain / Sweden / Switzerland / Ukraine / United Arab Emirates /United Kingdom / United States / Uruguay)

PCR/ QUARANTINE:

- Passengers coming from RED countries are required to undergo a molecular test at a certified lab, with the sample taken during the last 72 hours prior to flight departure, and upload a certificate that demonstrates a negative PCR for COVID-19, on the Cyprus Flight Pass Platform.
- They will also need to pay for and undergo a molecular PCR test upon arrival to Cyprus.
- Only children below the age of 12 are exempted from testing.

4- GREY countries (special permission): The rest of Countries not mentioned in **Green, Orange and Red**

PCR/ QUARANTINE:

- Passengers coming from Grey countries are required to undergo a molecular test at a certified lab, with the sample taken during the last 72 hours prior to flight departure, and upload a certificate that demonstrates a negative PCR for COVID-19, on the Cyprus Flight Pass Platform.
- In addition, they will remain in a status of obligatory self-isolation / quarantine for fourteen (14) days or a status of obligatory self-isolation / quarantine for ten (10) days, provided they undergo another PCR test for Covid-19 on the 10th day, at their own expense. The result of the lab test must be submitted to the electronic address: monada@mphs.moh.gov.cy.
- Children below the age of 12 are exempted from testing.
- Travel from GREY countries, is allowed only for:
 - Cypriot citizens and their family members (spouses and children)
 - Persons legally residing in the Republic of Cyprus
 - EU citizens, citizens of European Economic Area (Island, Lichtenstein, Norway) and Switzerland
 - Persons allowed to enter the Republic of Cyprus in accordance with the Vienna Convention ((Diplomatic passports))
 - Citizens of third countries, provided they obtain prior special permission from the Republic of Cyprus, (<https://cyprusflightpass.gov.cy/en/special.permission>).

		<p>Note: European Union citizens, citizens of European Economic Area (Island, Lichtenstein, Norway), citizens of Switzerland and citizens of third countries, must undergo a molecular test prior to departure, as stipulated above. The other categories of passengers have the choice of either taking the test prior to their departure or taking it upon entry to the Republic of Cyprus, at their own expense.</p>
8	<p><u>NETHERLANDS</u></p>	<ul style="list-style-type: none"> • <u>Effective 5th February 2022:</u> <ul style="list-style-type: none"> • All passengers travelling from a ‘high risk’ area within the EU/Schengen area will be harmonized in accordance with EU-standards. • As a result, passengers DCC who’s primary vaccination series in <u>older than 270 days</u>, will <u>NO longer be accepted for travel to The Netherlands</u>. Passengers can extend the validity through proof of a booster vaccination, or a negative test result of proof of recovery. • The maximum validity of 270 days only applies to proof of vaccination in het DCC (and therefore not for hardcopy proof of vaccination from third countries, not enrolled in the DCC. Hardcopy proof of vaccination may be accepted, also when they are older than 270 days. Change of legislation is in the making but will not be valid before February 4th 2022. • <u>Effective 22nd December 2021 (0:01 AM):</u> <ul style="list-style-type: none"> • Passengers (<u>aged 12 or over</u>) travelling from outside the EU/Schengen area must always provide a <u>negative test result</u> to enter the Netherlands. (The test results must be from either a <u>NAAT (PCR) test performed no more than 48 hours before departure</u> OR an <u>antigen test performed no more than 24 hours before departure</u>). • All passengers need to be able to show a completed quarantine declaration, even when they are exempt from the mandatory quarantine. • Hard copy quarantine declarations need to be collected by the airline. • Passengers without the correctly completed quarantine declaration shall be denied boarding. • Passengers from very high-risk areas must always <u>self-quarantine</u> (for <u>10 days</u> even if they have proof of vaccination or proof of recovery. This quarantine period can be shortened if they get tested by the municipal health service (GGD) on day 5 of the quarantine and the result is negative). • The above rules also apply to passengers with proof of vaccination or proof of recovery, who were previously exempt from the mandatory quarantine. • Other exceptions to the mandatory quarantine and test requirements remain in effect • If you are travelling by air you must fill in a health declaration (only when aged 12 or above) and carry it with you. Some airlines allow you to complete this health declaration digitally when you check in.

- Take a coronavirus **test after arriving** in the Netherlands. This applies even if you have been vaccinated. You can:
 - Get tested with a NAAT (PCR)-test directly after arrival (day 1) at the municipal health service (GGD) at Schiphol. Or you can take a self-test on day 1.
 - Get tested with a NAAT (PCR)-test on day 5 after your arrival at the GGD.
 - You can end your self-quarantining when your test on day 5 is negative.
 - **The Red List Countries are:** (Afghanistan / Anguilla / Armenia / Barbados / Belize / Cayman Islands / Dominica / Georgia / Haiti / Jordan / Mauritius / Montenegro / Saint Kitts and Nevis / Saint Vincent and the Grenadines / Serbia / Singapore (until 16 December 2021, high-risk area from 16 December 202 onwards) / Somalia / Trinidad and Tobago / Ukraine (until 16 December 2021, high-risk area from 16 December 202 onwards) / United Kingdom / Venezuela).
 - **Effective 08th August 2021,** the Dutch government announces that all ‘orange’ colour codes (do not travel unless imperative) will be removed for all countries within the EU, unless a worrisome new variant of the COVID-19 virus is found. Countries within the EU will be issued with a ‘yellow’ or ‘green’ advice instead.
 - For arriving passengers, this results in the following:
 - No more mandatory quarantine within the EU, unless a new worrisome COVID-19 is found.
 - Proof of negative test result, recovery or vaccination is mandatory for travelling from countries with a ‘yellow’ colour code within the EU.
 - Proof of negative test result or vaccination is mandatory for travelling from safe areas outside the EU.
 - Urgent advice to passengers travelling with a negative test result to have themselves tested on day 2 and day 5 after arrival. This is not warranted for vaccinated or recovered passengers.
 - **Time period for validity of negative PCR-test will be 48 hours, time period for rapid-antigen test will be 24 hours, before departure.**
- Effective from 23rd December, 00:01 o’ clock local time in the Netherlands;
- All passenger flights departing from South-Africa, all countries within South-America (Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, French-Guyana, Guyana, Paraguay, Peru, Surinam, Uruguay and Venezuela), Dominican Republic and panama with destination Netherlands are prohibited to enter the Netherlands. This flight ban is in effect until April 1 2021, 00:01 hours Dutch local time. Any possible change of this period shall be assessed depending on further developments.
 - Notice: as of march 9 2021, 00:01 hours Dutch local time, there is no longer a flight ban in effect for the United Kingdom.

- Effective from 15th May 2021, the Dutch government has issued an update on COVID-19 flight and traveller restrictions. Flight bans for the following countries have been extended until June 1st 2021 0:01 LT (**India** / South-Africa) All countries within South-America (Argentina / Bolivia / Brazil / Chile / Colombia / Ecuador / French-Guyana / Guyana / Paraguay / Peru / Surinam / Uruguay / Venezuela).
- Exception: <https://www.government.nl/topics/coronavirus-covid-19/visiting-the-netherlands-from-abroad/dutch-flight-ban-and-docking-ban>
- Safe countries outside the EU/Schengen area (Australia / New Zealand / Rwanda / Singapore / South Korea / Thailand / China (mainland China, Hong Kong, Macau)). Only if China lifts entry restrictions on European travelers. Travelers from China are not required to present a negative COVID-19 test declaration.
- Israel (as of 15 May 2021).
- **Restrictions for passenger flights will be continued**
- All non-Schengen nationals and non-EU nationals are prohibited to enter the Netherlands by order of the ministry of justice and security.
- **Exempted** from the travel restriction are residents from (Australia, New Zealand, Rwanda, Singapore, South-Korea and Thailand).
- **The following categories of travelers from non-Schengen/non EU/non UK countries not listed above are exempted specific categories of travelers with an essential function or need:**
 - healthcare professionals, health researchers, and elderly care Professionals,
 - Frontier workers,
 - Transport personnel,
 - Diplomats, staff of international organizations and people invited by international organizations whose physical presence is required for the well-functioning of these organizations, military personnel and humanitarian aid workers and civil protection personnel in the exercise of their functions,
 - Passengers in transit,
 - Passengers travelling for imperative family reasons,
 - seafarers,
 - Persons in need of international protection or for other humanitarian reasons.
 - Persons on board of a state flight
 - Persons in the interest Dutch economy and society , elite athletes and their support staff
 - Personal in the cultural and creative sectors, journalist and researchers

- Partners in a long-distance relationship under certain conditions, for more information [HTTPS://WWW.GOVERNMENT.NL/TOPICS/CORONAVIRUS-COVID-19/TACKLING-NEW-CORONAVIRUS-IN-THE-NETHERLANDS/TRAVEL-AND-HOLIDAYS/VISTING-THE-NETHERLANDS-EXMPTIONS-TO-ENTRY-BAN](https://www.government.nl/topics/coronavirus-covid-19/tackling-new-coronavirus-in-the-netherlands/travel-and-holidays/visiting-the-netherlands-exemptions-to-entry-ban)
- Urgent advice of 10 days self-quarantine applies for passengers from the regions and countries mentioned on [HTTPS://WWW.GOVERNMENT.NL/TOPICS/CORONAVIRUS-COVID-19/TACKLING-NEW-CORONAVIRUS-IN-THE-NETHERLANDS/TRAVEL-AND-HOLIDAYS /SELF-QUARNTINE](https://www.government.nl/topics/coronavirus-covid-19/tackling-new-coronavirus-in-the-netherlands/travel-and-holidays/self-quarantine)
- Be aware current situation health declaration: for all passengers aged 13 years or older travelling to and from the Netherlands a health declaration is mandatory before boarding.
- Passenger locator data: the local health authorities may request operators to provide passenger locator data in a very short time (including seat number) for contact tracing. Operators should therefore keep this information for at least 2 weeks after each flight. A passenger locator form drafted in accordance with international standards can be used for this purpose.
- Please refer to [HTTPS://WWW.GOVERNMENT.NL/TOPICS/AVIATION/DOCUMENTS/PUPPLICATIONS/2020/07/07/INFORMATIO N-FOR-PASSENGERS-FLYING-TO-AND-FROM-THE-NETHERLANDS](https://www.government.nl/topics/aviation/documents/publications/2020/07/07/information-for-passengers-flying-to-and-from-the-netherlands) for further instructions.
- **Netherlands has decided to allow some categories to enter the Netherlands; some of these categories are holding type D visa (long stay visa) and some categories are holding type C visa (short stay visa).**
Hereunder the list of categories which are allowed to enter the Netherlands for the time being: EU citizens, including UK nationals and members of their families* can travel freely (no specific reasons have to be documented).
Non-EU citizens covered by the under mentioned exceptions should travel well documented:
 - Nationals and inhabitants of Norway, Iceland, Switzerland , Monaco, Andorra, San Marino en Vatican city, and their family members if they are traveling or are joining them to Netherland. [Check whether they need a visa.](#)
 - Third-country nationals holding a residence card or a residence permit in accordance with Directive 2003/109/EC (the LTR Directive) and their family if they are traveling or are joining them to Netherland [First check whether they need a visa.](#)
 - Third-country nationals who derive their right of residence from other European Directives or from the national law of a Member State and their family members if they are traveling or are joining them to Netherland. [Check whether they need a visa.](#)
 - Holders of a long-stay visa [authorization for temporary stay or 'MVV'](#)

- Holders of a valid residence permit and their family members if they are traveling or are joining them to Netherland.
- Other third country nationals who have a vital function or need, including:
 - Healthcare personnel; doctors, nurses or researchers;
 - Border workers;
 - Seasonal workers;
 - Persons employed in the transport of goods and other transport personnel, where necessary, including container ships, bulk carriers (e.g. ore or coal), tankers (fuels and chemicals), fisheries, persons employed in the energy sector i.e. oil and gas platforms and wind farms as well as offshore companies providing services to this sector, and flight crew;
 - You are a cross-border commuter.
 - Seafarers in possession of a seaman's book, with the exception of seafarers on commercial and pleasure yachts;
 - Diplomats, or service passport holder in the performance of their duties;
 - Armed forces personnel, in the performance of their duties;
 - Personnel of international and humanitarian organizations;
 - Persons who have imperative reasons to visit their families; these are journeys in exceptional cases.
 - **An exceptional case is visiting a terminally ill family member and attending a funeral. It is intended for first-degree and second-degree family members. Father, mother and children are first-degree and partner, grandchildren, brothers and sisters are second degree.**
 - Visiting a terminally ill family member or attending a funeral. You must be a family member in the first or second degree (as defined in Dutch law).
 - Coming to the Netherlands to be with your legal partner when they give birth. This applies to the father of the child only. If you are not legally married, you must have acknowledged paternity of the unborn child. You must also be able to prove that your partner is more than 34 weeks pregnant.
 - Citizens of non-EU+ countries can transfer to a country outside the EU+ via Amsterdam airport, if they remain in the non-Schengen transit area of the airport and if they have a ticket for a confirmed connecting flight -to an airport outside the Schengen area- that departs within 48 hours upon arrival in Amsterdam.
 - Persons in need of international protection; the border procedure applies in full;

	<ul style="list-style-type: none"> • Persons admitted for humanitarian reasons; • Students; provided that you are in possession of a residence notification letter issued by the IND: "Study". • Highly skilled migrants: provided that you are in possession of a notification letter issued by the IND for residence as: Highly skilled migrant. • Long distance relationship (type C visa). <ul style="list-style-type: none"> • Effective 26th November 2021 (12:00 local time), a flight ban is in effect for passengers travelling to the Netherlands from (South-Africa / Lesotho / Eswatini (Swaziland) / Botswana / Namibia / Zimbabwe. The flight ban is currently in place until 04th December 2021. <p>For more information :about Family members of a national of a European Union (EU) country</p> <p>For more information on lawful residence on regular grounds and lawful residence on asylum grounds, see the IND's website.</p> <p>Please note: even if you are permitted to travel to the Netherlands because you fall into an exemption category, you may also be required to self-quarantine for 10 days on arrival. This depends on the country you are travelling from</p> <ul style="list-style-type: none"> • <u>Very high risk areas</u>: (Argentina / Bangladesh / Bolivia / Brazil / Chile / Colombia / Dominican Republic / Ecuador / French Guiana / Guyana /India /Lebanon/ Myanmar /Nepal /Pakistan /Panama/Paraguay/ Peru / South Africa /Suriname/United Kingdom /Uruguay / USA/Venezuela) <p>PCR:</p> <p>Effective 6th September 2021, Passengers travelling to the Netherlands from very high risk areas must be able to show a negative (PCR) test result, in addition to proof of vaccination or recovery (72 hours after September 4th 2021).</p> <p>Effective from June 1st 2021, the mandatory antigen test is NO longer needed, EXCEPT for passengers arriving from destinations designated as high risk areas or areas with COVID-19 virus variants.</p> <ul style="list-style-type: none"> • All travelers on flights to the Netherlands from a high-risk country outside the EU or Schengen area and to which the flight ban does not apply and/or who are exempted from the EU-entry ban, are required <u>to meet the following conditions</u>: <ol style="list-style-type: none"> 1. a valid negative NAAT-test (either MPOCT, NAAT, PCR, RT PCR, LAMP or TMA), no older than 48 hours before expected arrival in the Netherlands, 2. A valid negative NAAT-test declaration (only for travelers from outside the EU/Schengen area), 3. A health declaration for all passengers aged 12 years or older travelling to and from the Netherlands.
--	---

- Before boarding, airlines shall verify if passengers meet these conditions. If passengers fail to meet these conditions, they shall be refused on the flight and boarding the aircraft.
- The following categories of travelers are exempted from being in possession of:
 - 1) A valid negative NAAT-TEST **no older than 48 hours** before expected arrival in the Netherlands,
 - 2) A valid negative NAAT-test declaration (only for travelers from outside the EU/Schengen area),
 - 3) A negative antigen rapid test, no older than 24 hours before boarding the aircraft heading to the Netherlands.

Exceptions:

- Passengers under the age of 12 years,
- Persons who are travelling on behalf of the minister or state secretary of justice and security. this applies in particular to flights where kmar personnel are accompany a person to or from the Netherlands.
- Travelers with a statement from the ministry of health, welfare and sport in the context of urgent medical transport.
- Travelers who have been tested positive for covid-19 previously, who no longer have covid-19-associated symptoms, are no longer contagious, who continue to test positive for a longer period of time and therefore cannot show a negative covid-19 test result. the following applies to these travelers:
 - a. travelers who have been infected with covid-19 and are therefore unable to submit a negative NAAT test result may still travel if they can show the following documents:
 - i. positive NAAT-test result from a minimum of 2 to a maximum of 8 weeks old;
 - ii. positive NAAT-test result of maximum 72 hours old upon arrival in the Netherlands;
 - iii. Negative rapid test result of maximum 24 hours old before boarding.
 - b. in case of a permanently positive rapid test result, travelling to the Netherlands is allowed if they can show the following documents:
 - i. positive NAAT-test result from a minimum of 2 and a maximum of 8 weeks old;
 - ii. positive NAAT-test result test result of **maximum 48** hours old upon arrival in the Netherlands;
 - iii. Signed doctor's statement of a maximum of **48 hours before** boarding that shows that this traveler is no longer covid-19 contagious.
- Cross-border commuters (including students and school children),
- (Incoming) staff of diplomatic and consular representations or international organizations in the Netherlands - including the members of their official household - and as such (to be) registered with the ministry of foreign affairs,

- Holders of non-Dutch diplomatic passports,
- Holders of Dutch diplomatic passports, if they are travelling in the exercise of their work or whose physical presence is required for work,
- heads of state and members of foreign governments,
- passengers on a direct flight from a non-risk country (who have resided there 10 days previous to the trip) to the Netherlands,
- Passengers on flights from a non-risk country (who have resided there 10 days previous to the trip) which do have a Dutch airport as their destination, who are transferring in a high-risk country and who do not leave the airport during transfer are exempted.
- A. passengers who do leave the airport during transfer, are not exempt from both the NAAT-test as well as the rapid antigen test. The rapid antigen test should at least be taken at the point of departure airport.
- passengers on flights which do not have a Dutch airport as their destination, but are diverted to a Dutch airport due to unforeseen circumstances,
- passengers with a NATO travel order or a nato-2 visum,
- aircrew (crew members or personnel operating passenger or cargo flights or travelling as passengers to or from their departure base), who do not leave the aircraft position (except for safety inspections) during turnaround and continue flying (back) immediately afterwards,
- Individuals who work on oil and gas platforms, offshore wind farms and offshore companies that provide services to the energy sector. This only includes passengers who are flying directly to the Netherlands from an (offshore) platform/wind farm.

Proof of vaccination

- Proof of vaccination is accepted only if it:
- has been issued following vaccination with a vaccine that has been approved by the European Medicines Agency (EMA) or is on the Emergency Use Listing of the World Health Organization (WHO);
- has been issued based on full vaccination. That means that:
- the vaccination schedule consists of a single dose and this single dose has been administered (Janssen);
or
- the vaccination schedule consists of two doses and:
- both doses have been administered, or
- one dose has been administered and it has been confirmed that the person vaccinated had previously been infected with the virus SARS-CoV-2

- has been issued in one of the following languages: (Dutch / English / French / German / Italian / Portuguese / Spanish), includes the following:
- Information identifying the person who has been vaccinated.
- Information demonstrating that the person in question has been fully vaccinated against the virus SARS-CoV-2.
- The name of the vaccine and the name of the manufacturer or marketing authorisation holder of each dose of the vaccine administered.
- The date on which each dose of the vaccine was administered.
- The name of the country in which the vaccine was administered.
- The name of the issuer of the proof of vaccination.
- A signature or stamp of authenticity placed by the issuer.
- Approved vaccines; The following vaccines have been approved by the EMA/WHO: (Pfizer/BioNTech / Astra Zeneca EU / Johnson & Johnson / Moderna / Astra Zeneca-SK Bio / Serum Institute of India (Covishield) / Sinopharm / Sinovac).
- Effective 10th July 2021, the Dutch government will implement a two weeks waiting time that passengers need to abide by before they are eligible to travel using the Digital COVID-19 certificate. Vaccination is presumed to protect after a period of two weeks, hence the waiting period.

THE FOLLOWING CATEGORIES OF TRAVELLERS ARE ONLY EXEMPTED FROM BEING IN POSSESSION OF:

- 1) a valid negative NAAT-test (either MPOCT, NAAT, PCR, RT PCR, lamp or TMA), no older than 72 hours before expected arrival in the Netherlands,
 - 2) a valid negative NAAT-test declaration (only for travelers from outside the EU/Schengen area),
- Seafarers (including cruise ship and ferry crew members), that possess a seamen record book if they are travelling in the exercise of their work or whose physical presence is required for work. The exemption does not apply to seafarers on commercial yachts and pleasure craft.
 - Individuals who work in the goods transport sector, and other essential transport personnel, including lorry drivers and crew members on container ships, bulk carriers (e.g. ore and coal), tankers (fuel and chemicals), fishing vessels and individuals who work in the energy sector if they are travelling in the performance of their duties or if they travel to or from their work.
 - For more information, please refer to:
<https://www.government.nl/topics/coronavirus-covid-19/visiting-the-netherlands-from-abroad/negative-test-result-and-declaration>.

Test report should include Date and time of test: must be maximum 72 hours before arrival in the Netherlands

Health declaration

The Health Declaration form also remains mandatory for all passengers arriving, departing and transiting in The Netherlands, in addition to the covid-19 test declaration.

QUARANTINE:

- **Effective 1st June 2021**, passengers will be quarantined for 5 days if they are traveling to the Netherlands after staying in certain countries. This requirement also applies even if you have been vaccinated.
- After 5 days, upon booking a test appointment and if a NAAT-test shows a negative result, the quarantine ends. Passengers can find all relevant information on the mandatory quarantine in both Dutch and English via the following links:
 - [Quarantaineplicht voor reizigers uit gebied met zeer hoog risico \(verplicht thuisblijven\)](#)
 - [Uitzonderingen op de quarantaineplicht](#)
 - [Mandatory quarantine for travellers from very high-risk areas \(requirement to stay at home or in your accommodation\)](#)
 - [Formulier quarantaineverklaring](#)
- Passengers travelling from all very high risk area's to the Netherlands, are subject to a mandatory 10-day self-quarantine. The quarantine period can be ended if a test, taken by local health authorities (GGD), 5 days after arrival in the Netherlands, shows negative. for more information on mandatory quarantine for passengers from a very high risk area to the Netherlands, please refer to: <https://www.government.nl/topics/coronavirus-covid-19/visiting-the-netherlands-from-abroad/self-quarantine/mandatory-quarantine>
- Very urgent advice of 10 days self-quarantine applies for all passengers travelling to the Netherlands from a high-risk area 3 (not to be mistaken with a very high risk area). The quarantine period can be ended if a test, taken by local health authorities (GGD), 5 days after arrival in the Netherlands, shows negative.
- Home quarantine is no longer required for color code 'orange'.
- for information on exemptions regarding the quarantine measure, please refer to: <https://www.government.nl/topics/coronavirus-covid-19/visiting-the-netherlands-from-abroad/self-quarantine/exemptions>
- Passengers and airlines can check the quarantine requirements per country via <https://reizentijdenscorona.rijksoverheid.nl/en/bestemming>
- A declaration should be filled and can be downloaded via www.government.nl/mandatoryquarantine .
- Quarantine declaration becomes digitally available.

9

AUSTRIA

- Flights between Egypt and Vienna have been resumed.

- All passenger arriving to Vienna need to fill out the following link before arrival in Vienna (this will be checked before passport control from health authority).
- <https://smex-ctp.trendmicro.com/wis/clicktime/v1/query?url=https%3a%2f%2finkprotect.cudasvc.com%2furl%3fa%3dhhttps%253a%252f%252fwww.sozialministerium.at%252fPTC%2dFormular%2dde%26c%3dE%2c1%2chN33RoGofgMhOJouvilTK5rLXNFipEqPWF8%2dmRX9V%5fraEyac0qS7kw6Yg5D45rrq7lG3aQO4IeF%2d7IKg19KBD4DWfptUDSZdmsOAqE%2dPSJg9fVrNNmqLd2E%2c%26typo%3d1&umid=956f089a-4f0e-43b4-afe5-930d9cad236e&auth=44b6184d612dfc4c823be658ab4751caee1d06ca-0fa2663dfad4dd2ccf1754b887d920b5c8319ae7>
- Before entering the country, people must register online at [HTTPS://ENTRY.PTC.GV.AT](https://ENTRY.PTC.GV.AT) and present the confirmation of transmission upon entry.
- VISA TYPE D is not accepted
- **Entries from EU / EEA countries, Switzerland, Andorra, Monaco, San Marino, the Vatican and the United Kingdom:**
 - a. Passengers arriving from one of the following countries AND who have only been to these countries or in Austria within the last 10 days are free to enter Austria (no molecular-biological / Antigen-Test of SARS-CoV-2-test, no quarantine): (Australia / Finland / Greece / Iceland / Japan / New Zealand, / Norway / Republic Korea / Singapore / Vatican)
 - b. Third-country nationals arriving from out of Schengen or from out of countries as listed in a) are not allowed to enter Austria
 - c. Remaining persons are required to start a 10-day quarantine, which is considered to have ended if a molecular biological test / antigen test for SARS-CoV-2 is carried out at the earliest on the fifth day after entry and the test result is negative
 - d. Exceptions apply to the following persons, although they must present a medical certificate that is not older than 72 hours and confirms that a molecular biological test / antigen test is negative for SARS-CoV-2:
 - i. humanitarian forces,
 - ii. people who come for work purposes,
 - iii. an accompanying person during entry for medical reasons,
 - iv. persons who enter the country for the purpose of performing a mandatory court or official duty, such as summoning to court hearings,

v. Strangers, if they have a photo ID according to § 95 of the Aliens Police Act 2005, Federal Law Gazette I No. 100/2005.

If the medical certificate cannot be presented, a ten-day quarantine must be commenced immediately.

If a molecular biological test / antigen test carried out during this time for SARS-CoV-2 is negative, the quarantine is deemed to have ended.

- **Entry from other states and areas**

a. passengers arriving from one of the following countries AND who have only been to these countries or in Austria within the last 10 days are free to enter Austria (no molecular-biological / Antigen-Test of SARS-CoV-2-test, no quarantine): Australia, Finland, Greece, Iceland, Japan, New Zealand, Norway, Republic Korea, Singapore, Vatican

b. exceptions apply to the following people, who have to enter a 10-day quarantine, which is considered to have ended if a molecular biological test / antigen test for SARS-CoV-2 is carried out at the earliest on the fifth day after entry and the test result is negative:

i. Austrian citizens, EU / EEA citizens and people who live with them in the same household,

ii. Swiss citizens and citizens of the United Kingdom as well as persons who live with them in the same household,

iii. people with residence or habitual abode in EU / EEA countries or Andorra, Monaco, San Marino, the Vatican, Switzerland or the United Kingdom and people who live with them in the same household,

iv. entry in connection with other important events that can be planned in the family circle such as weddings, baptisms, birthday parties or the non-regular visit of the partner,

v. foreigners, if they have a visa D issued by Austria or a photo ID according to § 95 of the Aliens Police Act 2005, Federal Law Gazette I No. 100/2005, vi. persons who are entitled to stay in Austria on the basis of a residence permit, a residence title or documentation of the right of residence in accordance with the Settlement and Residence Act, Federal Law Gazette I No. 100/2005, or the Asylum Act 2005, Federal Law Gazette I No. 100/2005 are, vii. members of the staff of diplomatic missions or consular posts and persons who live with them in the same household,

viii. employees of international organizations and people who live with them in the same household,

ix. humanitarian forces,

This information does not replace legal advice and therefore no legal claims can be based on its use.

Printed versions are not being revised, the latest valid legal basis can be found at www.ris.bka.gv.at.

- x. persons who are employed by a domestic regional authority or a domestic corporation under public law and whose place of employment is abroad or whose service is performed abroad, insofar as the activity of this corporation abroad is in the interests of the Republic of Austria,
- xi. people who come for work purposes,
- xii. an accompanying person during entry for medical reasons, xiii. people who travel to the country to begin or continue studying or doing research,
- xiv. people who come to attend school, or
- xv. people who enter the country for the purpose of performing a mandatory judicial or official obligation, such as summoning to court hearings
- c. exceptions apply to the following persons, although they must present a medical certificate¹ that is not older than 72 hours and confirms that a molecular biological test / antigen test is negative for SARS-CoV-2:
 - i. humanitarian forces,
 - ii. people who come for work purposes,
 - iii. an accompanying person during entry for medical reasons,
 - iv. persons who enter the country for the purpose of performing a mandatory court or official duty, such as summoning to court hearings,
 - v. strangers, if they have a photo ID according to § 95 of the Aliens Police Act 2005, Federal Law Gazette I No. 100/2005. If the medical certificate cannot be presented, a ten-day quarantine must be commenced immediately. If a molecular biological test / antigen test carried out during this time for SARS-CoV-2 is negative, the quarantine is deemed to have ended
- **Entry for medical reasons**
 - a. The entry of:
 - i. Austrian citizens,
 - ii. persons who are subject to compulsory health insurance in Austria, or
 - iii. persons who have been granted a treatment agreement by an Austrian hospital for medical reasons that are particularly worthy of consideration,
 is permitted without restriction if it takes place in Austria for the use of absolutely necessary medical services. Upon entry, a confirmation of the absolute necessity of using a medical service³ must be presented.
 - b. People with their place of residence or habitual abode in Austria are allowed to re-enter the country without restrictions after having used essential medical services. Upon re-entry, a confirmation of the absolute necessity of using a medical service³ must be presented.

- **General exemptions,**
 - regardless of where these people come from, apply to (persons neither need molecular-biological test / Antigen-Test of SARS-CoV-2 nor have to start a quarantine):
 - a. to maintain goods and passenger traffic (crews),
 - b. exclusively for compelling reasons of animal care or for agricultural and forestry measures in individual cases,
 - c. in the context of the implementation of a professional transfer trip / a professional transfer flight,
 - d. in the imperative interest of the Republic of Austria,
 - e. transit passengers or the transit through Austria without a stopover, which is also the case with only essential interruptions,
 - f. entry or re-entry as part of the regular commuter traffic for professional purposes, unless they are carers,
 - g. entry or re-entry as part of regular commuter traffic to participate in school and study operations,
 - h. entry or re-entry as part of regular commuter traffic for family purposes or to visit a partner,
 - i. the crew of a repatriation trip / a repatriation flight including the accompanying organs of the public security service,
 - j. for unforeseeable, urgent reasons that are particularly worthy of consideration in the family circle in individual cases (e.g. serious illnesses, deaths, funerals, births and the care of people in need of support in emergencies)
- exemptions do not release passenger/crew from foreign immigration entry regulations (visa, ...)
- No declared virus-variant areas any more (same entry-requirements for all countries of the world) effective from 24/1/2022.
- Passengers entering Austria must be in possession of a proof of vaccination or a proof of recovery AND a negative test result. b. If there is no negative test result, registration must be carried out and quarantine must be commenced immediately. The quarantine is considered ended as soon as a negative test result is received. The costs for the test are to be borne by yourself. The negative test result must be presented at a control.

QUARANTINE/ PCR:

- Negative PCR test certificate is required not more 72h (PCR / LAMP / TMA) or not more than 48h (Antigen test)

- Passengers arriving to Austria must stay for 10-days home or self-paid quarantine that can be ended if a negative SARS-CoV-2 test is carried out at the earliest on the fifth day after entry and the test result is negative, even if they present medical certificate with negative result (which is not mandatory).
- **Children under the age of 6 are exempted from any obligation to take a molecular biological SARS-CoV-2 test.**
- Medical or official recovery certificates must confirm an infection that has been overcome in the last six months or proof of neutralizing antibodies that must not be older than three months
- **Vaccination certificates must meet the following requirements:**
 - 1- second vaccination, whereby this must not be more than 270 days ago and at least 14 days must have elapsed between this and the first vaccination, or
 - 2- 21 days have passed since vaccination in the case of vaccines for which only one vaccination is planned, whereby this must not be more than 270 days ago, or
 - 3- vaccination, provided that at least 21 days before the vaccination, a disease of COVID-19 was confirmed by means of a positive PCR-/LAMP-/TMA-test for SARS-CoV-2 or proof of neutralizing antibodies, whereby the vaccination must not be more than 270 days ago, or
 - 4- Further vaccination, whereby this must not be more than 270 days ago and between this and a vaccination in terms of points i. and iii. at least 120 days or a vaccination in terms of point ii. at least 14 days must have passed.
- Austrian citizens, EU / EEA citizens and people with their place of residence or habitual abode in an EU / EEA country who do not have a vaccination or recovery certificate must register and immediately start a ten-day quarantine. The quarantine is deemed to have ended if a test with a negative result is carried out on the fifth day after entry at the earliest.
- **Following vaccines are recognized:**
 - 1- Comirnaty from BioNTech and Pfizer (2 vaccinations)
 - 2- Covid-19 Vaccine Moderna (2 vaccinations)
 - 3- Vaxzevria (formerly COVID-19 Vaccine AstraZeneca®) by AstraZeneca (2 vaccinations)
 - 4- COVID-19 Vaccine Janssen® from Johnson & Johnson / Janssen Pharmaceuticals (1 vaccination)
 - 5- Sinopharm vaccine from Beijing Bio-Institute of Biological Products (2 vaccinations)
 - 6- Sinovac-CoronaVac vaccine, SARS-CoV-2 Vaccine (Vero Cell), Inactivated (2 vaccinations)
- **As from 25.05.2021, UK is listed in the same category like Brazil, India or South Africa:**
 - 1- Passengers allowed to enter Austria must carry a negative PCR-/LAMP-/TMA-test prior arrival.
 - 2- vaccination/recovery alone not sufficient
 - 3- no Antigen-test accepted

		<p>4- test after arrival only possible for Austrian citizens, EU-/EEA-citizens or Swiss citizen, or persons having a place of residence or habitual abode in Austria</p> <ul style="list-style-type: none"> • The obligation to carry proof of vaccination or recovery does not apply to <ul style="list-style-type: none"> a. People who cannot be vaccinated without endangering life or health, b. Pregnant women, c. Strangers, if they have a photo ID in accordance with Section 5 of the Official Seat Act, Federal Law Gazette I No. 54/2021, d. Persons who enter the country for the purpose of taking up employment as members of the staff of diplomatic missions, consular posts or as employees of international organizations, as well as the persons who live with them in the same household and e. People who visit an international institution within the meaning of Section 2 no. 1 of the Official Seat Act for professional purposes. (In the cases of points a and b, a medical certificate must be carried).
10	<u>SWITZERLAND</u>	<p><u>1- Only the following categories are allowed to enter Switzerland:</u></p> <ul style="list-style-type: none"> - Passengers arriving from Schengen Member States; - Nationals or residents of Switzerland or Liechtenstein; - Nationals of EEA Member States; - British nationals; - Family members of nationals of EEA Member States. They must present proof of their relationship; - Family members of British nationals. They must present proof of their relationship; - Residents of Schengen Member States returning directly via Switzerland to their country of residence; - Passengers with a D visa issued by Switzerland; - Passengers with a Schengen C visa issued by Switzerland after 16 March 2020. <p><u>2- Passengers are not allowed to transit if arriving from a non-Schengen Member State to another Schengen Member State.</u></p> <ul style="list-style-type: none"> - <u>This does not apply to:</u> - Nationals of EEA Member States and Switzerland; - British nationals; - Family members of nationals of EEA Member States and Switzerland; - Family members of British nationals; - Residents of EEA Member States and Switzerland; - Passengers with a D visa issued by Switzerland; - Passengers with a Schengen C visa issued by Switzerland after 16 March 2020.

		<p>All passengers have to be advised to register via (https://swissplf.admin.ch/formular) and present QR Code on arrival.</p> <ul style="list-style-type: none"> On entry, everyone must have completed the entry form with their contact details (Swiss PLF). This can be done online or on paper. <p>PCR:</p> <ul style="list-style-type: none"> Effective from Saturday 22 January 2022 unvaccinated or recovered people still need to present a negative test to enter Switzerland (PCR 72H, RAT 24H). That concretely means that we go back to a 3G rule. Please note that the “famous” PLF entry form still needs to be filled in. For foreign nationals, always consult the following links to make sure about Effective from Saturday, 4th December: All arrivals into Switzerland (vaccinated or have recovered from the disease). In addition to taking a PCR test before travelling, required to take a second test (PCR test or rapid antigen test) must be carried out between the fourth and seventh day after arrival. Test costs must be borne by the traveler. Effective from 8th February 2021, All Passengers travelling to Switzerland (either from a country with a high risk of infection or low risk infection) must be able to show a negative PCR test result that is no more than 72 hours old. <ul style="list-style-type: none"> Effective 20th December 2021: <ul style="list-style-type: none"> Rapid antigen tests are accepted and must be performed no more than 24 hours prior to boarding. The requirement to take a second test 4 to 7 days after entering Switzerland <u>will be waived</u> for persons who are vaccinated or have recovered from COVID-19. Non-vaccinated/recovered people still have to undergo a second test after 4-7 days. The antigen rapid tests and saliva PCR pool tests are again covered by the federal government and are therefore free of charge. This does not apply to self-tests as well as individual PCR tests and antibody tests. (Still covered by the federal government are the costs of single PCR tests for persons with symptoms of disease, for contact persons, and after positive pool tests. Children under the age of 16 are exempted from the PCR test. QUARANTINE: Effective from Saturday, 4th December: no countries on the quarantine list.
11	<u>BELGIUM</u>	<ul style="list-style-type: none"> Belgium has decided on 4th of December to impose additional measures for passengers coming from third countries that are not listed on Annex I of Council Recommendation 2020/912: <u>1- Passengers who have their main residence in Belgium, must, upon arrival:</u>

- o If fully vaccinated: (2 weeks after your last vaccination dose and if the vaccine is EMA-certified or Covishield): PCR-test on day 1, quarantine until the result of the first PCR test is known, PCR-test on day 7
- o If not fully vaccinated : quarantine of 10 days, PCR-test on day 1 and on day 7. Quarantine may be shortened to 7 days if the second test is negative.

2- EU-nationals or passengers having their main residence in the EU, must:

- o Present a negative RAT or PCR test before arrival
- o If fully vaccinated (2 weeks after your last vaccination dose and if the vaccine is EMA-certified or Covishield): PCR-test on day 1, quarantine until the result of the first PCR test is known, PCR-test on day 7
- o If not fully vaccinated : quarantine of 10 days, PCR-test on day 1 and on day 7. Quarantine may be shortened to 7 days if the second test is negative.

3- Other passengers must:

- o Present a negative RAT or PCR test before arrival
- o Essential travel is allowed:
 - If fully vaccinated (2 weeks after your last vaccination dose and if the vaccine is EMA-certified or Covishield): PCR-test on day 1, quarantine until the result of the first PCR test is known, PCR-test on day 7
 - If not fully vaccinated : quarantine of 10 days, PCR-test on day 1 and on day 7. Quarantine may be shortened to 7 days if the second test is negative.
- o Non-essential travel is allowed only if fully vaccinated (2 weeks after your last vaccination dose and if the vaccine is EMA-certified or Covishield): PCR-test on day 1, quarantine until the result of the first PCR test is known, PCR-test on day 7

Effective 01st June 2021,

1- (Non) essential travels are allowed to Belgium for the following persons:

- Persons who have the nationality of an EU- or Schengen Member State
- Third country nationals in possession of a valid residence permit issued by a Schengen State or a valid visa type D (with the exception of persons travelling from a high risk zone, i.e. VOC = Variants of Concern)
- Persons who have their main residence in a third country included on the “white list” (Australia, Hong Kong, Israel, Lebanon, Macao, New Zealand, Republic of North-Macedonia, Rwanda, Singapore, South Korea, Taiwan, Thailand, Uruguay and USA) ,These persons must still fulfill the entry conditions upon arrival in Belgium.

2. It is prohibited for persons who have been on the territory of a country that has been identified as a very high risk zone on the website “info-coronavirus.be” at any time in the past 14 days to travel directly or indirectly to the Belgian territory, insofar as they do not have Belgian nationality or do not have their main residence in Belgium, with the exception of the following authorized essential trips:

- Professional travels of transport personnel, freight and cargo personnel and seafarer workers, provided they have a certificate issued by the employer;
 - The travel of diplomats, staff of international organizations and people who are invited by international organizations and whose physical presence is required for the well-functioning of these organizations, in the exercise of their function, provided of an essential travel certificate issued by the diplomatic mission or the Belgian consular post.
 - The travels of a spouse/partner or child of a person who has the Belgian nationality or has his main residence in Belgium, provided they live under the same roof
 - Spouse/partner or child must be in possession of an “Essential Travel Certificate – issued by the Belgian embassy/consulate
 - The de facto partner must have provided plausible evidence of a stable and long term relationship
 - People who travel through Belgium to the country of the European Union or Schengen zone of which they are a national or where they have their main residence
 - People travelling outside the Schengen zone and the European Union (transit via a high-risk country without leaving the international zone of the airport or transit in Belgium from a high risk country without leaving the airport’s extra-Schengen zone)
 - persons travelling for compelling humanitarian reasons
 - Persons must be in possession of a “Certificate of compelling humanitarian reasons – issued by the Belgian embassy/consulate – approved by the Aliens Office”.
 - **EPLF** is mandatory for travel to Belgium residents & all non-residents in Belgium (paper version is no longer valid).
3. Remarque “Color code of a zone):
- The color code of a zone can always change during your travel <https://www.info-coronavirus.be/en/colour-codes-by-country/>
 - **Effective 21st December 2020**, the passenger is obligated to carry the proof of submission of the completed **Electronic** Passenger Locator Form (E-PLF) during the entire journey to the final

destination in Belgium and the 48 hours following arrival into BRU. If it is impossible to obtain this particular proof, the traveler must carry a copy of the completed the Electronic Passenger Locator Form (E-PLF) during the entire journey to the final destination in Belgium and the following 48 hours.

- All Passengers are obliged to (complete / Sign) The **Electronic** Passenger Locator form (EPLF) before departure via <https://travel.info-coronavirus.be/>, **(PAPER VERSION IS NOT ALLOWED)**
- Passenger will be denied boarding in case of not completing The Public Health Locator form.
- The new E-PLF form is applicable. It can be found via <https://smex-ctp.trendmicro.com:443/wis/clicktime/v1/query?url=https%3a%2f%2ftravel.info%2dcoronavirus.be%2fpublic%2dhealth%2dpassenger%2dlocator%2dform&umid=11de0703-4710-4106-b97e-5a5249c273fb&auth=e0ea8d76fb0a69b0ed7fc71e0a03902ca1384677-fe22359fe05208cdf191e5813e5574f389bbe781>
- Every passenger, regardless of the nationality, who takes an Extra-Schengen flight to Belgium is obliged to complete this form before departure. The passenger must sign and date the “Public Health Passenger Locator Form”.
- If a passenger did not complete the "Public Health Passenger Locator Form" and boarded the plane, the Belgian authorities can **refuse** the access on the Belgian territory.
- **Travelling with a visa type C is allowed**
If a passenger is in possession of a visa type C – issued after 18 March 2020 by the Belgian embassy - the passenger can travel to Belgium. I remind you that a passenger can still be refused to enter the territory, if he/she doesn't fulfill the entry conditions according to Article 3 of the law of 15 December 1980 on access to the territory, the sojourn, the establishment and the removal of foreigners.
 - Passengers holding E-Visa will be refused entry, and therefor airline should deny boarding Them
 - If a passenger is not in possession of a valid travel document (expired passport, expired identity card, expired visa, expired residence permit ...), **the airline is requested to deny boarding.**
- **Passengers will be fined (up to 250EUR) if they arrive at Brussels Airport without QR-code (e-PLF) or filled in paper PLF form (back-up). The Local Police Inspectors will perform active checks to ensure that passengers comply with the new regulation.**
- It is prohibited for persons who have been on the territory of (Brazil, India or South Africa at any time in the past 14 days to travel directly or indirectly to the Belgian territory, insofar as they do not have Belgian nationality or do not have their main residence in Belgium, with the exception of the following authorized essential trips:
 - o professional travels of transport personnel, freight and cargo personnel and seafarer workers, provided they have a certificate issued by the employer;

o the travel of diplomats, staff of international organizations and people who are invited by international organizations and whose physical presence is required for the well-functioning of these organizations, in the exercise of their function, provided of an essential travel certificate issued by the diplomatic mission or the Belgian consular post.

- **Effective from 18/1/2022, Safe countries** (residents) are (Bahrain / Chile / Colombia / Hong Kong / Indonesia / Kuwait / Macao / New-Zealand / Qatar / Peru / Rwanda / Saudi-Arabia / South Korea / Taiwan / Uruguay/ United Arab emirates)
 - The residents of these countries can therefore travel for (non) essential travels to Belgium.
- **PCR:**
- All non-residents in Belgium, from the age of **12 years**, arriving on Belgian territory, coming from a **red zone** must have a negative PCR-test result **72 hours prior to departure**. Or a negative RAT-test (Rapid Antigen Test 36 hours before arrival on Belgian territory), **even** if they are in possession of a certificate of vaccination.
- All persons, coming from **a green or orange zone**, no testing nor quarantine is needed
- (countries color zones can be found via: <https://www.info-coronavirus.be/en/colour-codes-by-country/>)
- The document can be in paper format or in electronic format but must be consultable immediately.
- The document must be in English, German, French or Dutch.
- As passenger passes the Belgian border control, he needs to have a negative PCR test.
- Any passenger from the age of 12 years old to Belgium from a country outside the European Union that is not included in ("Whitelist") must submit a negative test result since December 4th . This applies even to vaccinated persons. Persons who have their main residence in Belgium are exempt from this measure.
 - The test certificate is a digital EU-COVID certificate or another certificate in Dutch, French, German or English, which indicates:
 - either that a NAAT test (Nucleic Acid Amplification Test, PCR test) with negative result was performed in an official laboratory not more than 72 hours before arrival on Belgian territory,
 - or that a RAT test (Rapid Antigen Test) with negative result was carried out not more than 36 hours before arrival on Belgian territory by a professional.
 - The countries ("Whitelist") are listed at Kleurcodes per land | Coronavirus COVID-19 (info-coronavirus.be). For those traveling from these countries, a negative test result prior to travel is not required.

- Travelers who only transit by air and who remain exclusively in the transit zone without entering Belgian territory as far as the travelers are not required to have a negative PCR test result to continue their journey.
- **“Certificate of vaccination”:**
 - “European certificate of vaccination”: A person who is in possession of a valid digital corona certificate can travel freely within the Member States of the European Union. However, some countries may impose additional conditions.
 - “Certificate of vaccination third country”: a person must be fully vaccinated (+2 weeks) with a vaccine recognized by Europe At this moment, there is no “Certificate of vaccination – issued by a third country – approved by Europe
- Persons who are travelling to Belgium must be vaccinated with a vaccine recognized by Belgium/EU.
- Vaccination certificates – recognized by Belgium are from (Albania / Andorra / El Salvador / Faroe Islands / Georgia / Israel / Moldova / Monaco / Morocco / New Zealand / North Macedonia / Panama / Serbia / Singapore / Togo / Turkey / Ukraine / United Kingdom (England, Northern Ireland, Wales)).
- No other certificate of vaccination (from above-mentioned countries) is accepted anymore, only a certificate of vaccination with a QR code is accepted.
- (RT.LAMP / RAPID ANTIGENIC TESTS / SEROLOGICAL TESTS) ARE **NOT** ACCEPTED
- From/to red zone, the digital EU Covid certificate can be used without further measures as testing or quarantine.
 - on the condition that a corona certificate provides evidence that:
 - 1- One has been vaccinated (‘vaccination certificate’),
 - 2- One has taken a negative PCR test less than 72 hours before departure (‘test certificate’),
 - 3- Or one has antibodies because one has been through the illness (‘recovery certificate’).
- Belgium determines the conditions for those who enter our country, including those who return from a trip.
- Belgium states to have two vaccine shots before entry (foreigners and citizens), and that at least 2 weeks ago.
- If not yet vaccinated, demonstrate a negative PCR test: taken on arrival, the day after arrival or in the country where you will spend your holiday (less than 72 hours before your return journey).
- If not yet received an invitation to a vaccination or are not yet fully vaccinated, two free PCR test will be provided. (Children are to be tested as of 12 years).
- **QUARANTINE: 7 days quarantine is obliged in Belgium.**

		<ul style="list-style-type: none"> • On arrival in Belgium from a <u>red zone</u>, a quarantine and a test on <u>day 1</u> and on <u>day 7</u> of this <u>quarantine</u> are mandatory for residents in Belgium. • Passengers arriving from green and orange zone, no testing nor quarantine is needed • Visitors who are staying in Belgium for less than 48 hours or who have been in a red zone abroad for less than 48 hours will not be asked to have themselves tested or to go into quarantine. • On arrival in Belgium from a red zone, a quarantine and a test on day 7 of this quarantine are mandatory for non-residents in Belgium. Passengers will receive a text message on their arrival, allowing them to get a test at a test center.
12	<u>DENMARK</u>	<ul style="list-style-type: none"> • Effective 1st of February 2022, the rules for entry into Denmark will be changed. Until further notice valid until 28th of February: <ul style="list-style-type: none"> • Vaccinated and previously infected: Can enter Denmark without testing or isolation from all countries. • Passengers who have not been vaccinated or preciously infected: Must be tested within 24 hours of entry. (Anti-gen test or PCR Test) .When entering from a county in the EU /Schengen, passengers may instead choose to be tested prior to entry. (upon arrival) • Approved vaccines: The list of vaccines approved for entry into Denmark is expanded and now includes both EMA- and WHO-approved vaccines. Approved vaccines now also include Covishield, Covaxin, Sinovac and Sinopharm • <u>Exemption passengers from the test requirements as follows:-</u> <ul style="list-style-type: none"> • Children below 15 years of age • Persons earlier infected with Covid-19, documented by a positive PCR-test a minimum of 14 days old and maximum 180 days prior to entry • Persons residing in Denmark • Crew are exempted • Persons that will depart Denmark again no less than 24 hours after entry. • Danish citizens are always permitted entry into Denmark. • <u>All nationalities include EU nationalities are NOT allowed to enter Denmark except for a worthy purpose as mentioned before or for returning to their country of residence</u> <u>Worthy purposes include, but are not limited to:</u> • Persons residing or working in Denmark, including self-employed entrepreneurs performing work in Denmark.

- Persons with a valid work permit, including persons who have not yet utilized their work permit and whose entry is for the purpose of working in Denmark.
- Persons commissioned to deliver goods or services to/in Denmark or to transport goods out of Denmark.
- Persons who enter for the purpose of exercising visitation rights with minors in Denmark.
- Persons who serve as the primary caregiver for minors residing in Denmark (e.g. foster parents).
- Visiting seriously ill or dying family members in Denmark.
- Participation in an ongoing course of treatment administered by the Danish health authorities.
- Attending a funeral in Denmark.
- Participation in court proceedings in Denmark.
- Students enrolled in a Danish educational institution, to the extent that the educational institution is not closed (and no remote learning options are offered).
- Seamen disembarking or embarking in Denmark in connection with a crew change.
- Diplomats, offshore workers or other groups of persons mentioned in the Schengen Borders.
- Persons wishing to enter Denmark can – according to the specific circumstances – be asked at the Danish border control to present documentation for the worthy purpose.
- Further information is available at www.coronasmitte.dk
- Danish Ministry of Transport has lifted the ban on passenger flights from the United Arab Emirates (UAE) to Denmark with effect from 7 February 2021 at 00.00 hs. At the same time the ban on accepting tests taken in the United Arab Emirates (UAE) has been lifted, i.e. tests taken in the UAE can be accepted from 7 February 2021.

PCR:

- All arriving passengers to Copenhagen must have a negative Covid-19 test prior to boarding the aircraft to Denmark (PCR Test within 72 Hrs or Antigen Test within 48 Hrs)
- Persons residing in Denmark can either take the test before entering Denmark, or take a test within 24 hours after entry.
- Exemption passengers from the test requirements as follows:-
 - Children below 15 years of age
 - Persons earlier infected with Covid-19, documented by a positive PCR-test a minimum of 14 days old and maximum 180 days prior to entry
 - Persons that will depart Denmark again no less than 24 hours after entry.

		<ul style="list-style-type: none"> • A negative Covid-19 test required within 48 hours from passengers arriving from the following countries: (Botswana, Eswatini, Lesotho, Mozambique, Namibia, South Africa, Zimbabwe, Angola, Malawi and Zambia) only.
13	<u>HUNGARY</u>	<p>Effective from 20/01/2021 till 30th December 2021.</p> <ul style="list-style-type: none"> • Entry at Hungarian airports is allowed for : <ul style="list-style-type: none"> • Hungarian citizens and citizens with permanent residence permit in Hungary and their family members, citizens with any residence permit issued by the Hungarian immigration authority with a longer validity than 90 days, citizens providing satisfactory proof that they have undergone covid-19 infection within six months prior to entry. • Persons with covid-19 immunity certificates issued by Hungary, Serbia, Montenegro, Slovenia, Bahrain, Croatia, Turkey, North Macedonia, Czechia, Mongolia, Georgia, Romania, Moldova, Slovakia, Cyprus, Albania, Morocco, Ukraine, Kazakhstan, San Marino, Switzerland, Uzbekistan, Russia, Andorra, Faroe Islands, Israel, Monaco, Panama, Vatican City, India, Kyrgyzstan, Egypt, Maldives, Armenia, El Salvador, Iceland, Liechtenstein, New Zeland, Norway, Singapore, Togo, United Kingdom, Cabo Verde, Lebanon, United Arab Emirates, Seychelles, Tunisia, Iran and to minors under 18 years in their company. <ul style="list-style-type: none"> • Persons with EU digital Covid certificate vaccinated at least once within less than one year, or that they have one negative sars-covid2 PCR test within 72 hours before entry. • Persons with negative sars-covid2 PCR test In Hungarian or English conducted in any EU member, EU candidate, OECD or NATO State, Russia, China, United Arab Emirates, Bahrain, Azerbaijan, Kazakhstan, Kyrgyzstan, Turkey, Or Uzbekistan. • Passengers in transit are allowed to enter if they can certify the purpose and destination of their travel and their entry into a neighboring country of Hungary on their way to their destination is ensured. (Allowed to travel on any ground mean of transportations.) • Passengers arriving for cultural or sport events in Hungary are allowed to enter with a ticket of the event if they have one negative sars-cov2 PCR test results within 3 days before entry certified by a document in Hungarian or English. • citizens of EU, EEA, EU candidate states, Great Britain, northern Ireland, United States of America, Bahrain, United Arab Emirates, India, Indonesia, State of Israel, Japan, China, Russia, Singapore, Turkey, Ukraine, Korea, Azerbaijan, Kazakhstan, Kyrgyzstan, Uzbekistan and citizens with residence permit in these countries with longer validity than 90 days are allowed to enter doing business or economic activities in Hungary and this can be proved at entry.

		<ul style="list-style-type: none"> • Passengers arriving for business or economic activities are <u>exempted</u> from health screening and quarantine. • Special quarantine measures apply for passengers for cultural or sport events. • Any other individual exemption (such as visa type C) requires prior permission from Hungary police department website: (https://ugyintezes.police.hu/ugyinditas-ellenorzes) prior the flights. (Police permission is not required from passengers with resident/work permit with validity longer than 90 days) • <u>Starting from 28 November</u>: All foreign citizens arriving from (<u>the republic of Botswana, Kingdom of Eswatini, Kingdom of Lesotho, Republic of Mozambique, Republic of Namibia, Republic of South Africa, or the Republic of Zimbabwe</u>) or having stayed in these countries in the last 14 days before entering Hungary <u>are not allowed to enter except with individual prior permission</u>. The entry restriction does not apply to passenger with official passport or arriving for official activities. Citizens with permanent residence permit in Hungary and their family members, citizens with any residence permit issued by the Hungarian immigration authority with a longer validity than 90 days are considered as Hungarian citizens. Hungarian citizens arriving from these countries or having stayed in these countries in the last 14 day may undergo health screening at entry and are obliged to quarantine. • A health form should be filled by passengers travelling Hungary via: https://www.bud.hu/file/documents/3/3585/quarantine_form_eng.pdf and to hand it over to authority personnel when checked at the border. <p><u>PCR / QUARANTINE</u></p> <ul style="list-style-type: none"> • Hungary accept <u>covid-19 immunity certificates</u> issued by Hungary, Serbia, Montenegro, Slovenia, Bahrain, Croatia, Turkey, North Macedonia, Czechia, Mongolia, Georgia, Romania, Moldova, Slovakia, Cyprus, Albania, Morocco, Ukraine, Kazakhstan, San Marino, Switzerland, Uzbekistan, Russia, Andorra, fare islands, Israel, Monaco, Panama, Vatican city, India, Kyrgyzstan, <u>Egypt</u> and to minors under 18 years in their company. • PCR conducted in Egypt is NOT acceptable, however passengers can travel without PCR and special quarantine applied.

- Citizens of Russia arriving from the (republic Botswana, south African republic, kingdom of Lesotho, republic Namibia, republic of Zimbabwe, republic of Mozambique, republic Madagascar, Eswatini kingdom, on the united republic of Tanzania, Hong Kong special administrative district, Chinese people republic, state of Israel, united kingdom UK and northern Ireland and foreign citizens coming from the people's republic of china, the state of Israel, united kingdom of great Britain and northern Ireland) are subject express testing for new corona virus infection at the airport arrival in the territory of the Russian federation.)

PCR:

		<ul style="list-style-type: none"> • Effective from 8th December 2021, foreign passengers entering or transiting the Russian Fed must have a negative COVID-19 PCR test taken at most 48 hours before arrival. Russian citizens still can enter Russia country without Negative PCR test and can do it within 48 Hours after arriving Russia country and to upload the result of the test to Gosuslugi (internal website related to Russian health care department) <p>QUARANTINE: Passengers could be subjected to self-isolation for 14 days.</p> <ul style="list-style-type: none"> • The Russian quarantine form must be presented with each passenger and should be filled out by the passenger before his arrival in Moscow.
15	<u>SPAIN</u>	<ul style="list-style-type: none"> • The Spanish Government has extended the temporary restriction on non-essential travel from third countries to The European Union and Schengen till midnight on 31st of MARCH 2021. Effective from 23 November 2020, • The airlines will check prior to boarding that travelers to Spain MUST have the QR code generated through the website www.spth.gob.es , or the Spain Travel Health –SpTH application. For the generation of the QR code, it is necessary for the passenger to indicate that they meet the requirement of negative PCR. • All passengers originating from any airport located outside Spanish territory must complete a public health form called “Sanitary control form”, the passenger will obtain a QR code associated with their trip, which must be presented upon arrival in Spain. • Spanish nationalities or residents, cross border workers, health professionals, others accrediting by documents causes of force majeure are accepted to enter Spain from Egypt • More information can be found via Spanish Health authorities Official Info page: https://www.mscbs.gob.es/en/profesionales/saludPublica/ccayes/alertasActual/nCov/spth.htm <p>PCR:</p> <ul style="list-style-type: none"> • Effective from 1st February 2022, • Certificates of diagnostic test of active infection of COVID-19 with negative result belonging to any of the following types will be accepted as valid: <ol style="list-style-type: none"> 1- Molecular nucleic acid amplification tests (NAAT), whose sample has been obtained within 72 hours prior to arrival in Spain. 2- Antigen detection tests included in the common list of rapid antigen detection tests for COVID-19, published by the European Commission on the basis of Council Recommendation 2021/C 24/01, whose sample has been obtained within 24 hours prior to arrival in Spain. • The diagnostic test certificate must include (Name and surname of the holder / Date of sample collection/ Type of test performed / Issuing country)

		<ul style="list-style-type: none"> • <u>Effective from 1st March 2021</u>, all travelers from ALL third countries, except those included in the list of the Order. INT 62/2021: (Australia; New Zealand; Rwanda; Singapore; South Core; Thailand; China and the Special Administrative Regions of the People's Republic of China: Hong Kong SAR and Macao SAR) are required to have <u>PCR (RT-PCR of COVID-19) max. 48 hours prior to the scheduled time of your arrival in Spain. (PCR is required from Egyptians) OR Vaccination Certificate showing that they were fully vaccinated with AstraZeneca, Janssen, Moderna, Pfizer, Serum Institute of India, Sinopharm or Sinovac at least 14 days before arrival.</u> • <u>Children under 12 years are exempted from presenting any COVID19 tests. BUT MUST PRESENT THE SPANISH QR CODE AS FOR ALL PAX –SPTH APP.</u> • <u>Fully vaccinated means that in some cases (previous COVID illness for example) ONLY 1 DOSE is accepted – in the certificate it will appear as 1/1.</u> • <u>TMA tests are also valid.</u> • TRANSIT passengers via CAI. For example, a passenger commences her/his travel in Jordan and transits CAI for final destination BCN * the passenger must present PCR negative test upon arrival. • Negative PCR must be presented either in paper or electronic form (written in Spanish or English). • PCR /TMA tests are valid in the following languages: Spanish, English, French & German. • <u>QUARANTINE: No quarantine is required upon arrival.</u>
16	<u>UKRAINE</u>	<ul style="list-style-type: none"> • <u>Till 28th September 2020</u>, all foreigners are prohibited to enter Ukraine, <u>except</u> for the following categories: <ol style="list-style-type: none"> 1- Spouses or children of Ukrainian citizens 2- Foreigners with Ukrainian temporary or permanent residency permits 3- Patients who come to Ukraine for medical treatment 4- Transit passengers who can confirm that they will leave the country in under two days 5- Members of diplomatic missions and international organizations accredited in Ukraine 6- Foreigners with work permits 7- Airline and freight crew • Countries divided to green and red zones “Egypt is green”. • Restrictions for those coming from red zone 14 days isolation with special app, from green only insurance covering COVID is needed. • To avoid 14 days isolation passenger may do test (at own cost) is a specific way that will authorize it in app. • <u>For the updated (red/ green) countries, please check link: https://visitukraine.today/</u>

		<ul style="list-style-type: none"> • Foreigners and stateless passengers are required to obtain <u>medical insurance</u> issued from one of the registered insurance companies in Ukraine or foreign insurance companies that have offices in Ukraine or has partnership contracts with Ukrainian insurance companies, and the insurance document should cover the COVID-19 treatment expenses, to be valid during the whole stay in Ukraine. <p>PCR:</p> <ul style="list-style-type: none"> • Besides, foreigners or stateless passengers are required to submit either: <ul style="list-style-type: none"> - Negative PCR or rapid test result which are not to exceed 72 hours from the certificate issuance. - Vaccine certificate stating that the passenger is fully vaccinated with one of the vaccines approved by the world health organization.
17	<u>Czech Republic</u>	<p>Rules for entry and return to the Czech Republic (as of September 30th, 2021)</p> <ul style="list-style-type: none"> • Citizens of Czechia and foreign nationals with residence permit issued by Czechia. • Citizens of EU+ and foreign nationals with long-term or permanent residence permit issued by EU+ • 3rd-country nationals who do not have any residence permit issued by Czechia or long-term or permanent residence permit issued by other EU+ country • 3rd-country nationals who have a short-term visa issued by Czechia before 11th May 2020 or short-term or long-term visa issued by other EU+ country <p><u>The current rules of return to the Czech Republic for CZ, EU citizens:</u></p> <ul style="list-style-type: none"> • All persons returning from abroad to the Czech Republic, with the exception of children under the age of 12, are required to fill in an arrival form. • People who have been fully vaccinated, people who have had a COVID-19 and children under the age of 12 do not need to take tests. • All other persons are required to pass PCR tests to determine the presence of SARS-CoV-2. <p><u>With a high risk of infection COVID-19 (red color) or with a very high risk of infection (dark red color)</u></p> <ul style="list-style-type: none"> • Before traveling to the Czech Republic, passengers from these countries must notify their arrival to the regional hygienic station competent according to the place of residence, by filling in the arrival form, and submit a confirmation of its completion to the border control upon request. • Before starting a trip to the Czech Republic by public transport (especially by plane), passengers must have a written confirmation from the health service provider or an appropriate certificate of negative the result of the RT-PCR test (max. 72 hours from collection) from an accredited laboratory. Carriers will not allow transport by passengers who do not submit the test / test certificate and arrival form. • After entering the territory of the Czech Republic, first undergo an RT-PCR test on day 5, but no later than day 7, to determine the presence of SARS-CoV-2 virus, unless the public health authority has exceptionally decided otherwise.

Exceptions for:

I) Vaccinated persons:

- 1) persons who prove themselves by a national certificate of vaccination against COVID-19 issued in accordance with the EU Regulation on the EU digital certificate COVID, provided that vaccination has elapsed at least 14 days after completion of the vaccination schedule and who do not show any symptoms of COVID-19.
- 2) a national certificate of completed vaccination, ie a written certificate issued at least in English by an authorized body operating in a third country, or a certificate of completed vaccination issued by an authorized body operating in a third country for which an implementing act has been adopted under the EU Digital Certificate Regulation that the person has been vaccinated with an EMA registered medicinal product or a WHO approved medicinal product for emergency use (the list of products is published on the website) The written confirmation must contain the relevant data and it must be possible to verify by remote access directly from the written confirmation.

Vaccinated persons according to the above definition have an exception from the tests, the obligation of the arrival form remains!

II) *Persons with a history of Covid-19 disease, ie a person in whom at least 11 days, but not more than 180 days, has elapsed since the first positive result of the RT-PCR test for the presence of SARSCoV-2 virus, which is demonstrated:

- a) the COVID-19 disease certificate issued in accordance with the EU regulation on the digital COVID certificate remains the obligation to fill in the arrival form.
- b) Pax with a diplomatic note attesting to the isolated isolation due to the Covid -19 disease in the country of departure, with the obligation to fill in an arrival form.

III) Children under the age of 12 do not need to complete an arrival form or undergo an RT-PCR test to determine the presence of SARS-CoV-2 virus.

OTHER EXCEPTIONS FROM TESTS AND ARRIVAL FORM FOR:

- persons who are authorized to enter the territory of the Czech Republic; who transit within 12 hours via the Czech Republic by land.
- Before entering the Czech Republic by public transport (especially by plane, train, bus), passengers must have a written confirmation from the health service provider about a negative result of the RT-PCR test (max. 72 hours from collection). In the case of citizens of the Czech Republic and their accompanying family members with a temporary residence permit issued in the Czech Republic, European Union citizens with a issued certificate of temporary residence in the Czech Republic, or foreigners with a permanent residence permit in the Czech Republic issued by the Czech Republic

before entering the territory of the Czech Republic by public transport may also have a negative result of the antigen test (max. 48 hours from collection). EgyptAir will not allow carriage for passengers who do not submit a SARS-CoV-2 test and arrival form.

- All passengers travelling to the Czech Republic is now subject to the Passenger Locator Form submission on departure from the source country.
- The division of countries is as follows:
 - 1- **“Green group”**: Albania, Australia, Austria, Belgium, Bulgaria, Croatia, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Israel, Italy, Japan, Lebanon, Lichtenstein, Lithuania, Luxembourg, Macau, Malta, New Zealand, North Macedonia, Norway, Poland, Romania, San Marino, Serbia, Singapore, Slovakia, Slovenia, South Korea, Sweden, Switzerland, Thailand, Taiwan, the USA, the Vatican City and Madeira;
 - 2- **“Orange group”**: Andorra, Cyprus, Ireland, Latvia, Monaco, the Netherlands, Portugal (including the Azores) and the Balearic Islands;
 - 3- **“Red group”**: Spain (including the Canary Islands);
 - 4- **“Dark red group” including EGYPT**: countries not mentioned above or below;
 - 5- **“Black group”**: Botswana, Brazil, Colombia, India, Lesotho, Malawi, Mozambique, Namibia, Nepal, Paraguay, Peru, Russia, South Africa, Swaziland, Tanzania (including Zanzibar and Pemba Islands), Tunisia, Zambia and Zimbabwe.
- The division of countries into “traffic light” groups is updated on a weekly basis according to the current situation. The up-to-date division, including a map, can be found on the website of the Ministry of Health of the Czech Republic.

PCR:

- All passengers who have completed the vaccination cycle with the EMA approved vaccine in EU+ countries not less than 14 days before their journey to the Czech Republic and those who recovered from COVID-19 in the last 180 days are no longer subject to either a negative test result or a mandatory self-isolation upon their arrival to the Czech Republic with the exception of non-EU+ residents travelling from extreme risk countries (“black group”), who are not allowed to enter the Czech Republic.
- In general, everyone travelling to the Czech Republic should have:
 - a travel document (an ID or a passport);
 - An EU Digital COVID Certificate (a vaccination certificate, a negative test result or a confirmation of a COVID-19 recovery) and a Passenger Locator Form.

4- FAR EAST & ASIA

5- CANADA & AMERICA

No.	Country	Instructions & Restrictions
1	<u>CANADA</u>	<ul style="list-style-type: none"> Effective 15th January 2022, certain groups of passengers, who are currently exempt from entry requirements, will only be allowed to enter the country if they are fully vaccinated with one of the vaccines approved for entry into Canada. <u>These groups include</u>: <ul style="list-style-type: none"> individuals travelling to reunite with family (unvaccinated children under 18 years of age will retain exemption if travelling to reunite with an immediate or extended family member who is a Canadian, permanent resident, or person registered under the Indian Act); international students who are 18 years old and older; professional and amateur athletes; individuals with a valid work permit, including temporary foreign workers (outside of those in agriculture and food processing); and Essential service providers, including truck drivers. After 15th January 2022, <u>unvaccinated or partially vaccinated</u> foreign nationals will only be allowed to enter Canada if they meet the criteria for limited exceptions, which apply to certain groups such as agricultural and food processing workers, marine crew members, those entering on compassionate grounds, new permanent residents, resettling refugees and some children under the age of 18. Exempt unvaccinated passengers will continue to be subject to testing, quarantine, and other entry requirements. Non-exempt unvaccinated or partially vaccinated foreign nationals will be prohibited entry into Canada. <u>Useful links: Government of Canada announces adjustments to Canada's border measures - Canada.ca</u> <u>Passengers requirements for travel to and within Canada can be found here: https://travel.gc.ca/travel-covid</u> Effective 30th October 2021, <ul style="list-style-type: none"> Air Passengers: All travelers 12 years of age and older, boarding any flight from a Canadian airport, flying on a commercial passenger aircraft are required to be fully vaccinated. There will be a transition period until 30 November 2021 for travelers who are in the process of being vaccinated, and who will be able to travel if they can show a valid COVID-19 molecular test within 72 hours of travel.

- Non-Passengers Working in Airport Restricted Areas: All non-passengers will be prohibited from entering the restricted area of a specified airport unless they are fully vaccinated.
- Mandatory Vaccination Policy / Compliance Reporting for Regulated Entities: Air carriers would be required to implement a company-wide mandatory vaccination policy no later than 30 October 2021, for all its employees and non-passengers.

Effective October 30, 2021,

- All air travelers who are 12 years and 4 months of age or older flying on a domestic, transborder or international flight departing from a specified Canadian airport will need to be fully vaccinated. In recognition that travelers will need time to get vaccinated, travelers will be able to board with a valid COVID-19 molecular test (taken within 72 hours of travel) until November 29. On November 30, all travelers must be fully vaccinated with very few exceptions.
- Non-passengers will also need to be fully vaccinated, unless exempt, no later than November 15, 2021.
- Unvaccinated Canadians or permanent residents will be allowed to continue on with their domestic connection to their final destination if they can demonstrate a continuous journey from their last point of departure or direct flight to Canada. In practice, an unvaccinated Canadian or permanent resident will be allowed to board their domestic connection after entering Canada as long as no more than 24 hours has elapsed since they boarded their flight to Canada.
- Unvaccinated foreign nationals will be allowed to continue on with their domestic connection to their final destination if they can demonstrate a continuous journey from their last point of departure or direct flight to Canada. In practice, an unvaccinated foreign national will be allowed to board their domestic connection after entering Canada as long as no more than 24 hours has elapsed since they boarded their flight to Canada. Unvaccinated foreign nationals will require a pre-departure molecular test if they plan to leave Canada between October 30 and November 29, 2021.
- Starting November 30 there will be limited exceptions to being fully vaccinated in order to board an aircraft departing from the specified Canadian airports. Limited exceptions will include unvaccinated foreign nationals who don't reside in Canada and who were allowed to enter Canada under the Government of Canada's Emergency Orders-in-Council, made pursuant to the Quarantine Act. These foreign nationals will be allowed to depart Canada with a valid COVID-19 molecular test result.
- Unvaccinated temporary foreign workers or international students will be allowed to continue on with their domestic connection to their final destination if they can demonstrate a continuous journey from their last point of departure or direct flight to Canada. In practice, an unvaccinated foreign national will be allowed to board their domestic connection after entering Canada as long as no more than 24 hours

has elapsed since they boarded their flight to Canada. Unvaccinated foreign nationals will require a pre-departure molecular test if they plan to leave Canada between October 30 and November 29, 2021.

- Starting November 30 there will be limited exceptions to being fully vaccinated in order to board an aircraft departing from the specified Canadian airports. Limited exceptions will include unvaccinated foreign nationals who don't reside in Canada and who were allowed to enter Canada under the Government of Canada's Emergency Orders-in-Council, made pursuant to the Quarantine Act. These foreign nationals will be allowed to depart Canada with a valid COVID-19 molecular test result.
- **Effective 07th September 2021**, the Government of Canada is allowing **fully vaccinated** foreign nationals travelling to Canada for discretionary reasons (i.e. tourism, recreation or entertainment) to enter the country as long as they have entered all of the required information in ArriveCAN before boarding their flight to Canada. EgyptAir is responsible for verifying that the information has been entered in ArriveCAN, by checking that travellers have an ArriveCAN receipt indicating that all of the requirements have been met. If the Passenger does not have an ArriveCAN receipt, and is claiming to be fully vaccinated and travelling for discretionary purposes, the air operator can advise the passenger that they will need to download the app on the spot and enter all the required information in order to obtain an ArriveCAN receipt. If the passenger does not have an ArriveCAN receipt, and does not meet the exceptions noted below, the passenger is to be denied boarding. Please refer to Annex J for a decision-making tool to assist air operators with this process.
- Accordingly foreign nationals travelling to Canada for discretionary reasons (i.e. tourism, recreation or entertainment) will the following:
 - Proper documents to enter Canada (e.g. valid visa)
 - Proof of fully vaccination with one of the approved Vaccines in Canada (Jonson /AstraZeneca / Moderna / Pfizer / Sinopharm (also referred to as Covilo) / Sinovac (also referred to as Coronavac) / COVAXIN). At least 14 days prior arrival. The certificate must be in English or French or translated via an accredited translation office.
 - PCR 72 hours from collection till departure of last direct flight to Canada
 - ArriveCan (Mandatory) the receipt will show "I" or "V".
 - **Effective 20th May 2021**, international commercial air flights from India and Pakistan are prohibited.
 - Passenger has originated in India or Pakistan and (has / hasn't) a negative COVID-19 pre-departure molecular test performed in their country of origin (India or Pakistan) or from a third country are NOT allowed to board aircraft.
 - Negative PCRs issued in India are not acceptable for travelling to Canada.

- The Government of Canada has exempted the Government of Canada employee who is currently posted or on temporary assignment in India and their spouse/dependents, embarking on a flight to one of the following airports in Canada and allows them to travel with PCR issued in India: (Toronto Pearson International Airport / Montreal-Trudeau International Airport / Calgary International Airport / Vancouver International Airport)
- For passengers who have a temporary exemption due to medical inability to be vaccinated, In addition to any other accommodation measures that could be required by the carrier/operator, passengers with an approved temporary exemption will also need to present to the carrier/operator results of COVID-19 molecular test taken:
 - Within 72 hours of the passenger's scheduled departure time, where the result is negative, or
 - At least 14 days before but not more than 180 days prior to the traveler's scheduled departure time (traveler eligible to travel on day 15), where the result is positive.
- A foreign national is prohibited from entering Canada if within a period of 14 days before the day on which they seek to enter Canada, they were in a country where as determined by the Chief Public Officer,
 - a- There is an outbreak of the Omicron variant; or
 - b- There is a risk of an outbreak of that variant.
 - The following countries to be countries where there is an outbreak of, or a risk of an outbreak of, the Omicron variant: (Botswana / Eswatini / Lesotho / Mozambique / Namibia / South Africa /Zimbabwe).
- **Effective 05th July 2021 at 11:59 p.m. EDT, fully vaccinated** travellers who are permitted to enter Canada will NOT be subject to the federal requirement to quarantine or take a COVID-19 test on day8.

- To be considered fully vaccinated, a traveller must have received the full series of a vaccine — or combination of vaccines — accepted by the Government of Canada at least 14 days prior to entering Canada. Currently, those vaccines are manufactured by Pfizer, Moderna, AstraZeneca/COVISHIELD, and Janssen (Johnson & Johnson). Travellers can receive their vaccine in any country, and must provide documentation supporting their vaccination in English, French or with a certified translation.
- **Fully vaccinated** they still need to be in possession of a valid PCR prior to departure to Canada.
- All passengers must provide evidence of their vaccination status and related information, through ArriveCAN, before or when entering Canada, unless exempt. Passengers who are required to provide this information, and fail to comply, may face a fine. Note: passengers are not to be denied boarding if they have not provided their vaccination status; this will be managed upon arrival in Canada.
- For more information please visit: <https://travel.gc.ca/travel-covid/travel-restrictions/covid-vaccinated-travellers-entering-canada#determine-fully>
- Pursuant to exemption No. C2021-100 (Government of Canada Staff and their spouse/dependents on a flight from Morocco to a destination in Canada), the individual(s) identified below is/are exempted from section 13 of Transport Canada's Interim Order Respecting Certain Requirements for Civil Aviation due to COVID-19 and authorized to board a flight from Morocco to a scheduled destination in Canada with evidence of a COVID-19 molecular test. This exemption was granted by an authorized official of Transport Canada pursuant to the Aeronautics Act.
- The exemption allows the Government of Canada Staff and their spouse/dependents to obtain a negative molecular PCR test result performed on a specimen collected no more than 18 hours before boarding the aircraft from Morocco towards the third country and valid for no more than 36 hours before the aircraft's initial scheduled departure time from the third country to Canada; or a positive molecular PCR test result which was performed on a specimen collected at least 14 days and no more than 180 days before the aircraft's initial scheduled departure time from the third country to Canada. Evidence of test results must be presented to a Government of Canada official upon arrival in Canada and at any time upon their request.
- Individuals entering Canada need to follow testing and quarantine requirements to keep Canadians safe, particularly given the new COVID-19 variants in Canada and around the world.
- **Effective January 7, 2021, at 12:01 a.m. EST, All passengers five years of age or older will be required to present evidence of an acceptable negative molecular COVID-19 test result, (which includes a PCR or RT-LAMP test) within 72 hours prior to the traveler's scheduled departure to**

Canada (72 hours from Collection till the Schedule departure of the last direct departing flight to Canada).

- A negative laboratory test result must be presented before boarding (paper or electronic proof of result).
- The test result must indicate; (passenger's name and date of birth / name and address of the lab/facility that administered the test / the date on which the test was conducted / the method of test conducted, and that it is a PCR test /as negative) as The name on the result matches the name on the passenger's identification.
- Acceptable COVID-19 Molecular tests

The following test methods are considered acceptable molecular tests: (Polymerase chain reaction (PCR) / Real time PCR (RT-PCR) / Quantitative PCR (Q-PCR) / CT (cycle threshold) / Droplet digital PCR or digital droplet PCR (DD-PCR) / Isothermal amplification / Reverse transcription loop-mediated isothermal amplification (RT-LAMP) / CRISPR / Next generational sequencing (NGS) or whole genome sequencing (WGS) / Sequencing, Sanger Sequencing / RNA (Ribonucleic acid) / Nucleic acid technology or test (NAT) / Nucleic acid amplification / Multiplex / Assignment CID 2 / Gene / Corman assay / N gene / Orf1a/b / S gene / E gene).

- The following Passengers are exempt from the requirement to provide a negative COVID-19 molecular test:
- A person who is less than five years of age
- A person or any member of a class of persons who, as determined by the Chief Public Health Officer, will provide an essential service, if the person complies with any conditions imposed on them by the Chief Public Health Officer to minimize the risk of introduction or spread of COVID-19
- A person who is permitted to work in Canada as a provider of emergency services under paragraph 186(t) of the Immigration and Refugee Protection Regulations and who enters Canada for the purpose of providing those services
- An emergency service provider, including a firefighter, peace officer or paramedic, who returns to Canada after providing emergency services in a foreign country and who is required to provide their services within the 14-day period that begins on the day on which they enter Canada

- An official of the Government of Canada or a foreign government, including a border services officer, immigration enforcement officer, law enforcement officer or correctional officer, who is escorting an individual entering or leaving Canada pursuant to a legal process such as an international transfer of an offender or deportation or extradition of a person
- An official of the Government of Canada, the government of a province or a foreign government, including a border services officer, immigration enforcement officer, law enforcement officer or correctional officer, who enters Canada for the purposes of border, immigration or law enforcement, or national security activities, that support active investigations, ensure the continuity of enforcement operations or activities, or enable the transfer of information or evidence pursuant to or in support of a legal process
- A person or any member of a class of persons whose presence in Canada, as determined by the Minister of Health, is in the national interest, if the person complies with any conditions imposed on them by the Minister to minimize the risk of introduction or spread of COVID-19
- A member of the Canadian Forces, who enters Canada for the purpose of performing their duties as a member of those forces
- A member of an air crew of a visiting force, as defined in section 2 of the Visiting Forces Act, who enters Canada for the purpose of performing mission essential duties as a member of that force
- A person who returns to Canada after suffering hardship in a foreign country, as determined by the Minister of Foreign Affairs, if the person complies with any conditions imposed on them by the Minister of Foreign Affairs and developed in consultation with the Minister of Health to minimize the risk of introduction or spread of COVID-19
- A Canadian citizen, permanent resident, temporary resident, protected person or person registered as an Indian under the Indian Act who resides in Canada and who received essential medical services or treatments in a foreign country, if the person has
 - (a) written evidence from a licensed health care practitioner in Canada who indicated that the medical services or treatments outside Canada are essential, unless the services or treatments are for primary or emergency medical services under an agreement with another jurisdiction; and
 - (b) written evidence from a licensed health care practitioner in the foreign country who indicated that the services or treatments were provided in that country

- A person who will, as determined by the Minister of Transport, respond to, investigate or prevent significant disruptions to the effective continued operation of the national transportation system, transportation undertakings or infrastructure, if the person complies with any conditions imposed on them by the Minister of Transport and developed in consultation with the Minister of Health to minimize the risk of introduction or spread of COVID-19
 - A person who, as determined by the Minister of Public Safety and Emergency Preparedness, will respond to, investigate or prevent events related to national security, if the person complies with any conditions imposed on them by the Minister of Public Safety and Emergency Preparedness and developed in consultation with the Minister of Health to minimize the risk of introduction or spread of COVID-19
 - A person who enters Canada by aircraft and who is not required under the Aeronautics Act to provide the evidence referred to in subsection 2.2(1)
 - Any person who boarded a medical evacuation flight for medical purposes, if the urgency of the medical situation does not permit a COVID-19 molecular test to be administered to the person before boarding the aircraft for the flight to Canada
 - A Canadian citizen, permanent resident, temporary resident, protected person or person registered as an Indian under the Indian Act who resides in Canada, who has been denied entry in a foreign country and who must board a flight destined to Canada
 - A person referred to in subsection 5(1) or (2) of the Minimizing the Risk of Exposure to COVID-19 in Canada Order (Prohibition of Entry into Canada from the United States) who made a claim for refugee protection when entering Canada from the United States
 - A person who plans to arrive at a Canadian airport aboard an aircraft in order to transit to a country other than Canada and to remain in a sterile transit area, as defined in section 2 of the Immigration and Refugee Protection Regulations, until they leave Canada
 - A person who enters Canada regularly to go to their normal place of employment or returns from their normal place of employment in another country and who, **if they are not a fully vaccinated**, does not directly care for persons 65 years of age or older within the 14-day period that begins on the day on which the person enters Canada
- Passengers on direct flights from India to Canada will be required to take a pre-departure COVID-19 PCR molecular test from a PHAC-designated laboratory in India (Genestrings) within 18 hours of their scheduled departure to Canada. Air operators will verify electronically through QR scanning that the

passenger has received a negative test result prior to allowing the individual to board their flight (Till 21st November, 2021).

- Boarding accredited and incoming foreign representatives from the Government of India and their dependents to a destination in Canada – Without a pre-arrival COVID 19 Molecular Test
- **Effective 9 August 2021:**
 - **Fully vaccinated** foreign nationals travelling to Canada for discretionary reasons (i.e. tourism, recreation or entertainment) to enter the country as long as they have entered all of the required information in ArriveCAN before boarding their flight to Canada. Air operators are responsible for verifying that the information has been entered in ArriveCAN, by checking that passengers have an ArriveCAN receipt (see Annex K for a sample ArriveCAN receipt) indicating that all of the requirements have been met. If the passenger does not have an ArriveCAN receipt, and is claiming to be fully vaccinated and travelling for discretionary purposes, the air operator can advise the passenger that they will need to download the app on the spot and enter all the required information in order to obtain an ArriveCAN receipt. If the passenger does not have an ArriveCAN receipt, and does not meet the exceptions noted below, the passenger is to be denied boarding. Please refer to Annex J for a decision-making tool to assist air operators with this process.
 - Exceptions to this requirement:
 - In the following situations, paper copies of a passenger’s proof of vaccination will be accepted:
 - **During the transition period only (September 7-8-9, 2021): if the passenger is unable to download the new version of ArriveCAN in order to obtain a receipt.**
 - **There has been a natural disaster, service disruption or inadequate infrastructure which has rendered it impossible for a willing passenger to submit their information.**
 - **Fully vaccinated** citizens and permanent residents of the U.S., currently residing in the U.S., will be permitted to enter Canada for discretionary (non-essential) travel.(all of the required information in ArriveCAN must be done before boarding their flight to Canada)
 - To be considered **fully vaccinated**, passengers must:
 - **have received the full series of an accepted COVID-19 vaccine or a combination of accepted vaccines accepted by the Government of Canada**
 - **have received their last dose at least 14 days prior to the day they enter Canada**
 - Other key new measures:

- Allowing individuals who have recovered from COVID-19, but who continue to test positive, to present a positive COVID-19 molecular test result on a specimen taken 14 to 180 days prior to arrival in Canada as part of the pre-entry test requirements.
- Upon arrival in Canada unvaccinated or partially vaccinated All passengers are required to undergo a molecular COVID-19 test (e.g., a PCR or RT-LAMP test) on day-1 and day-8 following their arrival. For a list of tests that are considered molecular tests, please consult the “Accepted Types of Tests” section that can be found on the following webpage: <https://travel.gc.ca/travel-covid/travel-restrictions/flying/covid-19-testing-travellers-coming-into-canada>. Those who are fully vaccinated will be subject to mandatory random arrival testing, meaning only those passengers who were randomly selected will be subject to an arrival test on day 1.
- Once the test has been administered, all passengers are free to leave the airport but unvaccinated or partially vaccinated passengers are required to quarantine for 14 days. Fully vaccinated passengers are not required to quarantine.
- Foreign nationals who are considered not fully vaccinated, must demonstrate a non-discretionary purpose of travel. Entering Canada for the purpose of studying at a designated learning institution is considered a non-discretionary purpose of travel so long as studying is the primary purpose for seeking entry to Canada. This means that the time between a student’s entry to Canada and the start date of their studies exceeds what would be considered a reasonable amount of time. For example, this could include the timeframe for that student to complete their 14-day quarantine (if applicable); as well as prepare themselves for beginning their studies (for example, move in to a residence or get vaccinated). If the timeframe is not deemed reasonable, the primary purpose of travel may no longer be considered for study purposes and would therefore be deemed discretionary in nature.
- So, Effective November 3, 2021, unvaccinated students who are seeking to travel to Canada to study at a designated learning institution for the winter (January) 2022 semester, will be permitted to enter Canada, so long as they meet all other requirements under the Orders in Council and the Immigration and Refugee Protection Act.
- **Until 31st January 31, 2022**, For all passengers who have been in the Southern Africa region — including (South Africa, Eswatini, Lesotho, Botswana, Zimbabwe, Mozambique, and Namibia) within the last 14 days before arriving in Canada, the following will be applied:
 - Foreign nationals who have travelled in any of these countries within the previous 14 days will **NOT** be permitted entry into Canada.

		<ul style="list-style-type: none"> • Canadian citizens, permanent residents and people with status under the Indian Act, regardless of their vaccination status or having had a previous history of testing positive for COVID-19, who have been in these countries in the previous 14 days will be subject to enhanced testing, screening, and quarantine measures. • These individuals will be required to obtain, within 72 hours of departure, a valid negative COVID-19 molecular test in a third country before continuing their journey to Canada. Upon arrival to Canada, regardless of their vaccination status or having had a previous history of testing positive for COVID-19, they will subject to immediate arrival testing. All travellers will also be required to complete a test on day 8 after arrival and quarantine for 14 days • Any PCR performed in (Botswana / Eswatini / India / Lesotho / Morocco / Mozambique / Namibia / South Africa / Zimbabwe), will not be accepted for travelling to Canada. • Those travelling from India via a third country will be required to have a valid negative COVID-19 pre-departure molecular test from a third country before continuing their journey to Canada. COVID-19 molecular tests from India are not accepted, In other words, negative tests from India are not valid. Prior positive COVID-19 molecular tests from India remain acceptable provided they are performed on a specimen collected between 14 - 90 days before the aircraft’s initial scheduled departure time to Canada • Deny boarding if a passenger originated in India and is not in possession of a valid negative COVID-19 molecular test from a third country before continuing their journey to Canada. <p>More details concerning country entry restrictions can be found via: https://www.canada.ca/en.html</p> <p>Or https://www.canada.ca/en/public-health/services/diseases/2019-novel-coronavirus-infection/latest-travel-health-advice/mandatory-hotel-stay-air-travellers/list-government-authorized-hotels-booking.html Or https://travel.gc.ca/travel-covid</p>
2	<u>USA</u>	<p><u>1- US citizens, US nationals, lawful permanent residents will need to provide:</u></p> <ul style="list-style-type: none"> • A negative viral test no more than 1 day before travelling to USA. • Complete and sign attestation. <p><u>2- Immigrants (purpose of trip is to immigrate to the US):</u></p> <ul style="list-style-type: none"> • If passenger has been in any of the countries listed in the presidential proclamation restricting entry into the US during the 14-day period before the flight, he/she will not be allowed to travel.

- If passenger has not been in any of the countries listed in the presidential proclamation restricting entry into the us during the 14-day period before the flight, he/she will do the following:
 - A negative viral test no more than 1 day before travelling to USA
 - Complete and signed attestation.

3- Non- US citizens non US immigrants:

- If passenger has been in any of the countries listed in the presidential proclamation restricting entry into the US during the 14-day period before the flight, he/she will not be allowed to travel.
- If passenger has not been in any of the countries listed in the presidential proclamation restricting entry into the us during the 14-day period before the flight and is fully vaccinated with an accepted COVID 19 vaccine, he/she will need the following:
 - Acceptable proof of vaccination.
 - A negative viral test no more than 1 day before boarding a flight to US
 - Complete and signed attestation.
- If passenger has not been in any of the countries listed in the presidential proclamation restricting entry into the us during the 14-day period before the flight and is not fully vaccinated, and meet the criteria for an exception, he/she will do the following:
 - Documentation as applicable confirming eligibility for the exception.
 - A negative viral test no more than 1 day before travelling to USA.
 - Complete and signed attestation.
- If passenger has not been in any of the countries listed in the presidential proclamation restricting entry into the us during the 14-day period before the flight and is not fully vaccinated, and doesn't meet the criteria for an exception, will not be allowed to travel.
- Effective 31st December 2021 (12:01 a.m) EST, restricting travel for individuals who had been physically present within South Africa, Botswana, Eswatini, Lesotho, Malawi, Mozambique, Namibia, and Zimbabwe, is revoked.
- **Temporary Suspension of Dogs Entering the United States from Egypt** Dogs from Egypt may be imported only with CDC's advance written approval, including dogs imported from a third-party country if they lived in the other country for less than 6 months. For more information: CDCanimalimports@cdc.gov

PCR:

- All passengers (regardless of vaccination status or citizenship) 2 years or older will need to get a COVID-19 viral test **no more than 1 day** before traveling into the United States. Or documentation of having recovered from COVID-19 in the past 90 days.

		<p><u>QUARANTINE: No quarantine is required.</u></p> <ul style="list-style-type: none"> For more details kindly check the link below (copy and paste): https://www.cdc.gov/coronavirus/2019-ncov/travelers/pdf/requirements-travel-to-us-by-air-quick-reference-p.pdf
3	<u>Brazil</u>	<ul style="list-style-type: none"> All international passengers must fill in a Traveler’s Health Declaration via; http://formulario.anvisa.gov.br <p><u>PCR:</u> <u>Effective 30th December 2020,</u></p> <ul style="list-style-type: none"> All passengers travelling to Brazil must have a negative RT-PCR certificate within <u>72 Hours</u> from an authorized lab.(in Portuguese, Spanish or English) Children under 12 years old are exempted. <u>Unaccompanied</u> children above 2 and under 12 years old <u>must</u> have a negative RT-PCR certificate within <u>72 Hours</u> from an authorized lab.

6- AUSTRALIA & NEW ZEALAND

<u>No.</u>	<u>Country</u>	<u>Instructions & Restrictions</u>
1	<u>AUSTRALIA</u>	<ul style="list-style-type: none"> Effective 21 Feb 2022:- All international tourists’ flights will resume. Inbound travelers must be double vaccinated and that state- based caps and quarantine arrangements would still continue as state and territory leaders see fit. All travelers are prohibited to enter the country; exception is made for the following: (Australian citizen / permanent resident of Australia / immediate family member of an Australian citizen or permanent resident / New Zealand citizen). <u>QUARANTINE:</u> mandatory quarantine for 14 days from arrival (passenger may be tested for COVID-19 in the first 48 hours and then between days 10 to 12 of quarantine. No quarantine required for travellers from New Zealand More information can be found via: https://covid19.homeaffairs.gov.au/leaving-australia
2	<u>NEW ZEALAND</u>	<ul style="list-style-type: none"> Borders remain closed to all nationalities, except for (NZ citizen / PR and diplomat). Other travellers must get a prior approval from NZ authorities. <u>PCR/ QUARANTINE:</u> Travellers to New Zealand from all countries are tested for COVID-19 and a 14-day managed quarantine or isolation is mandatory.
