4	<u>ALGERIA</u>	<p><u>Effective 20th March 2022</u>, the following requirements will be applied for arriving passengers:</p> <ul style="list-style-type: none"> • <u>Vaccinated Passengers</u>: Should present Covid-19 vaccination certificate. (certificate less than 09 months) • <u>Unvaccinated Passengers</u>: present an approved negative PCR test result received within 72 hours. • <u>Exception</u>: All children under 12 years old are exempted
5	<u>ERITREA</u>	<p><u>Till further notice</u>, Asmara airport is closed for commercial airlines flights. (<u>EgyptAir is given permit to operate to and from Asmara starting 28th May2021</u>)</p> <p><u>PCR</u>:</p> <ul style="list-style-type: none"> • All passengers travelling to Eritrea Must provide a certified evidence of negative PCR test result for COVID-19 carried out and issued within 72 hours prior to their arrival to Asmara International Airport, <u>except for</u>:

		<p>1- Those who have valid COVID-19 vaccine certificates. 2- Children, under 6 years old and who are travelling with family members are exempted from the test if the family members tested are negative and fit to travel.</p> <ul style="list-style-type: none"> • Rapid Antigen Testing upon arrival at the airport (30 USD) for each passenger is already added to YQAC in the ticket and no need to collect it manually from the passenger at the airport. • Holding a negative PCR test certificate is mandatory for all passengers departing from ASM airport regardless of their vaccination status.
6	<u>NIGERIA</u>	<ul style="list-style-type: none"> • Turkey, Brazil and South Africa have been removed from the list of “restricted countries”; <u>Into effect from 5th December, 2021:</u> Fully vaccinated means: At least Two (2) weeks following 2 completed doses of either Astra Zeneca, Pfizer or Moderna vaccines; OR a single dose of Johnson and Johnson vaccine. Partially vaccinated means: 1 completed dose of the above. <u>PCR/ QUARANTINE:</u> <u>Effective 04th April 2022, the following new instructions are applied:</u> <u>In-bound Passengers:</u> <ol style="list-style-type: none"> 1- All Passengers who are fully vaccinated with the two dose of the approved vaccines for COVID-19 are not required to provide a pre departure Covid-19 PCR test result, also these passengers are not required to conduct repeat PCR test upon their arrival in Nigeria. 2- All passengers who are 18 years old and below will have the same privileges as persons who are fully vaccinated. 3- All passengers who are partially vaccinated or unvaccinated are required to be in possession of a negative Covid-19 PCR test result done within 48 hours calculated from the sample collection to the first point of acceptance. This type of passengers must book online, before being accepted on board EgyptAir flights, for repeat Covid-19 PCR test on days 2 and 7 upon arriving Nigeria. <u>This requirement however doesn’t apply to passenger below 18 years of age</u> 4- All inbound passengers MUST register via the online Nigerian International Travel Portal https://nitp.ncdc.gov.ng/ To get the QR code or the Permit to Travel which is Mandatory and MUST be presented at the check in counter before being accepted on board EgyptAir flight to LOS. Only the partially vaccinated and the non-vaccinated passengers will pay for the two post arrival PCR tests Online. 5- Airlines who will fail to comply with all the pre boarding requirements shall attract a penalty of 3500 USD per passenger. <u>A. PRE-DEPARTURE FROM COUNTRY OF EXIT:</u> <u>I. Pre-Boarding:</u>

- Travelers MUST perform a COVID-19 PCR test **not more than 2 days (48 hours)** before boarding/departure. PCR tests done more than 48 hours before departure are not valid and persons will not be allowed to board. Rapid antigen or antibody test are not acceptable; only PCR tests can be used for this purpose. Test validity commences from the time of sample collection. For Travelers with multiple connections before arrival in Nigeria, the PCR test must be valid within 48 hours of boarding from the first point of departure. Travelers must bring along an electronic or hard copy of their negative COVID- 19 PCR test for presentation at the departure airport and upon arrival in Nigeria. A record of their vaccination status will also be required on arrival in Nigeria.
- All intending Travelers (**including diplomats and children less than 10 years old**) MUST register via an online national travel portal (Nigeria International Travel Portal – <https://nitp.ncdc.gov.ng>) and proceed to fill in the online Health Declaration/ Self-Reporting form located on the portal. They should ensure that the information/contact details provided on the form are correct and verifiable. Travelers must provide valid phone numbers, residential addresses, and functional e-mails where they can be contacted. Travelers must also inform Port Health officials on arrival of any change in their health status since completion of the Health Declaration/Self-Reporting Form.
- After filling the online Health Declaration/Self-Reporting Form, Travelers will be directed to upload their negative COVID-19 PCR test on to the portal. **Only children less than 10 years old are exempted from uploading a pre-arrival negative COVID-19 PCR test result.** Once this is successfully done, Travelers will proceed to the payment section of the travel portal. **Only Children less than 10 years are exempted from payment for the repeat test in Nigeria.** Travelers are advised to still bring along an electronic or hard copy of their negative COVID-19 PCR test for presentation at the airport.

➤ **For partially vaccinated and unvaccinated Travelers:**

On reaching the payment section of the portal, Travelers will be requested to select their preferred Laboratory/Sample Collection Centre based on where they will be self-isolating for the period of 7-days in Nigeria. A list of accredited private laboratory providers/Sample Collection Centers across the country are available on the payment platform. The next stage is to choose a bank payment gateway and then proceed to pay for the **Day 2 (arrival day + 1 day)** and **Day 7 (arrival day + 6 days)** in-country COVID-19 PCR tests. Please **note** that Travelers paying in Naira should use cards issued by a Nigerian bank.

➤ **For fully vaccinated Travelers:**

- On reaching the payment section of the portal, Travelers will be requested to select their preferred Laboratory/Sample Collection Centre based on where they will be located 2 days after arrival in the country for the Day 2 test (arrival day + 1 day). A list of accredited private laboratory providers/Sample Collection Centers across the country are available on the payment platform. The next stage is to choose a bank payment gateway

and then proceed to pay for the **Day 2** in-country COVID-19 PCR test. A record of their vaccination status will also be required on arrival in Nigeria.

- Following successful payment, Travelers should download the **Permit to Travel Certificate/ QR Code** using the “Get Permit to Travel” button visible at the top right corner of the portal, save and print the form for presentation at the point of boarding. The Permit to Travel Certificate/ QR code will have a “PAID” label if payment is successful and “UNPAID” label if payment had not gone through yet or is unsuccessful. Any passenger with an “UNPAID” label will not be allowed to travel. A copy of the Permit to Travel Certificate/QR Code will also be sent to the email address provided by the traveller.

II. Boarding:

1. Prior to boarding for Nigeria, Travelers **MUST** present **TWO** documents at their point of departure to be allowed to board.
 - a. A **negative COVID-19 PCR** test done within 2 days (**48 hours**) of departure. Airlines have been directed not to board Travelers with non-PCR COVID-19 tests (such as antigen or antibody tests), a positive COVID-19 PCR test result, or tests performed beyond 48 hours of boarding; and
 - b. **Permit to Travel Certificate/QR Code** - generated from the Nigeria International Travel Portal on completion of a health questionnaire, uploading of a negative COVID-19 PCR result and schedule of PCR tests on Days 2 and 7 on arrival in Nigeria. Travelers failing to show a Permit to Travel Certificate/QR Code will not be allowed to board.
2. Airlines that board Travelers without any of the required documents (a negative COVID-19 PCR test done not more than 48 hours prior to boarding and a Permit to Travel Certificate/QR code, shall be sanctioned as follows:
 - a. Travelers, who are non-Nigerians, will be refused entry and returned to the point of embarkation at cost to the airline
 - b. Travelers who are Nigerians or holders of permanent resident permit will be allowed entry but subjected to the procedure outlined in Section D below. In addition, **Travelers arriving with forged (fake) COVID-19 PCR results will be escorted to a designated quarantine facility (government approved hotel) for a mandatory quarantine for a period of 7 days at expense to the traveler and will be prosecuted.**
 - c. Airlines shall be fined **USD 3,500** per traveler for failure to comply with any of the preboarding requirements.
 - d. Airlines who consistently fail to comply with the above requirements may be banned from coming to Nigeria.
3. At the time of boarding, Travelers will be required to undergo temperature screening and asked about COVID-19 symptoms. Travelers with temperature >38C and other COVID-19 related signs and symptoms shall not be allowed to board the flight.

B. ON ARRIVAL IN NIGERIA

- All Travelers are required to strictly adhere to instructions given by Port Health Services at the arrival terminal. Travelers who fails to adhere to instructions will be sanctioned by relevant security personnel.

All Travelers arriving in Nigeria will be required to:

1. Go through the routine Port Health screening and present electronic or print-out evidence of **preboarding COVID-19 PCR test, Permit to Travel Certificate/ QR Code;** and **Vaccination Certificate (where applicable);** and
2. Present their international passports for clearance through the Nigerian Immigration Service System's Migrants Identification Data Analysis System (MIDAS).

For partially vaccinated and unvaccinated in-bound Travelers:

- Proceed on **mandatory** 7 days self-isolation/quarantine in their selected in-country destination address. Travelers are to avoid physical interaction with friends, family members, colleagues, and other members of the public during the period of self-isolation. Travelers should check their emails/text messages regularly for updates regarding the arrangement for their repeat COVID-19 PCR test from the laboratory of their choice. During this period the traveler may be contacted by the COVID-19 Response team to ascertain state of self-isolation, Days 2 & 7 testing appointment and health status.
- Show-up at the laboratory/sample collection centers on the **2nd and 7th day of arrival.** Samples will be taken, and a COVID-19 PCR test done. The selected private laboratory will send a reminder text message, email, or phone call to the traveler a day before the appointment date.
- Persons who test negative for COVID-19 after 7 days of self-isolation/quarantine will be allowed to exit self-isolation on receipt of their result.

For fully vaccinated in-bound Travelers:

Show-up at the laboratory/sample collection centers on the **2nd day of arrival.** Samples will be taken, and a COVID-19 PCR test done. The selected private laboratory will send a reminder text message, email, or phone call to the traveler a day before the appointment date.

C. NOTE:

- a. Travelers who fails to show up at the sample collection centers on Days - 2 and 7 of arrival (as applicable) will be sent text reminders and their details forwarded to the State Public Health Department teams and Nigeria Centre for Disease Control (NCDC) for active follow-up.
- b. Travelers who fails to show up for testing will have travel restrictions placed on their passports for at least 6 months and will not be able to travel abroad during this period. Non-Nigerian passport holders will have their visas revoked and will be deported from the country.
- c. Test results will be provided within 24 hours and the State Public Health Departments & NCDC will be informed; accordingly, if test result is not received after 24hrs, the traveller may contact the private Laboratory for his/her test result.

- d. Partially vaccinated or unvaccinated persons who test negative for COVID-19 after 7 days shall end self-isolation on receipt of a negative test result but must continue to self-monitor for symptoms until Day 14; and MUST continue to observe Non-Pharmaceutical Intervention measures (e.g., wearing face mask, maintaining social distance, regular washing of hands and use of alcohol-based hand sanitizers);
- e. Fully vaccinated persons who test negative for COVID-19 after the post-arrival Day 2 test MUST continue to observe Non-Pharmaceutical Intervention measures (e.g., wearing face mask, maintaining social distance, regular washing of hands and use of alcohol-based hand sanitizers);
- f. Travelers reporting or developing symptoms of COVID-19 on arrival in Nigeria, or during screening will not be allowed to self-isolate and will be placed in institutional quarantine; and
- g. Persons who test positive for COVID-19 after the post-arrival Days 2 and 7 test (as applicable) shall be managed based on national guidelines for COVID-19 treatment.

D. PROCEDURE FOR TRAVELERS ARRIVING WITHOUT A VALID PCR RESULT:

- Any traveler arriving in Nigeria without a valid COVID-19 PCR result (i.e., no COVID-19 PCR test result, a forged COVID-19 PCR test result or COVID-19 antigen or antibody test result) will be subjected to the following measures:
 1. If holding foreign passport and non-resident in Nigeria, the traveler will be denied entry into the country and returned to the point of embarkation at cost to the airline.
 2. For Nigerians and foreign passport holders with residency rights:
 - a. Port Health Services will screen the traveler to include a temperature check and review of health questionnaire to establish infectivity risk;
 - b. Traveler will be escorted by Port Health Services and security personnel to a designated quarantine facility (government approved hotel) for a mandatory quarantine for a period of 7 days **at expense to the passenger**;
 - c. Traveler’s passport will be collected by relevant authorities and will not be released to him/her until after successful completion of mandatory quarantine period; and
 - d. A COVID-19 PCR test will be conducted by a designated private laboratory within 24 hours of arrival at the quarantine facility at expense to the passenger. If the test result is Positive for COVID-19, the passenger will be transferred to an isolation facility and managed according to National treatment guidelines. If test result is negative, passenger will CONTINUE with mandatory isolation at the quarantine facility until a satisfactory Day-7 COVID-19 PCR test is done.

II. GUIDELINES FOR OUTBOUND PASSENGERS

All passengers travelling out of Nigeria are required to provide:

- a. Evidence of full COVID-19 vaccination, or
- b. A negative COVID-19 PCR test done no longer than 48 hours before departure.

7

TUNISIA

- **Effective from 26th February 2022:**

		<ol style="list-style-type: none"> 1- Fully Vaccinated foreigners (over 18 years of age) travelling to Tunisia who are in possession of a vaccination certificate showing completion of vaccination against SARS-CoV-2 virus for a period not less than 28 days for JANSSEN vaccination and for a period of 7 days for the rest of the vaccinations are exempted from presenting the Negative PCR test certificate. 2- (Non-vaccinated / Not fully Vaccinated) foreigners (over 18 years of age) travelling to Tunisia must be in possession of (Negative PCR test certificate not exceeding 48h OR Rabid test not exceeding 24h), 3- Foreigners UNDER 18 years of age travelling to Tunisia are exempted from PCR test certificate and vaccination certificate. <ul style="list-style-type: none"> • Those passengers may be subjected to random (Rapid test / PCR test) upon arrival. 4- Passengers are NOT obliged any more to complete the health form through the site https://app.e7mi.tn
8	<u>ETHIOPIA</u>	<ol style="list-style-type: none"> 1. Any international traveler above the age of twelve coming through international airports of the country shall bring a certificate of negative RT PCR test done up to 72 hours or three days before departure or Antigen- RDT negative test up to 24 hours before arriving to Ethiopia. 2. The traveler shall enter the country if he/she has a certificate of recovery from COVID-19 within 90 days or if he/she has completed the COVID-19 vaccine in full and provides evidence. 3. If transit passenger entering through international airports of the county don't enter the city or don't leave his/her hotel designated by the airline, sub article 1 and 2 does not apply on him/her. Whereas if he/she is to enter the city leaving the airport or hotel designated by the Airline, sub article 1 and 2 above shall apply or shall be tested negative with Antigen-RDT done at the airport or hotels designated by the airlines. 4. If the traveler is a diplomat and fails to fulfill the requirements provided under sub-article 1 and 2 of this article, he/she shall be tested at the airport and enter the country. Whereas if the test result is positive or if he refuses for test, he/she shall self-isolate for 7 days. 5. A returnee may enter the country by taking Antigen-RDT test at the airport if he does not fulfill the requirements provided under sub article 1 and 2 of this article. If the test result is positive, he/she shall be followed up in accordance with the relevant protocol. 6. Any person who is coronavirus positive is prohibited from entering the country. <p><u>N.B:-</u></p> <ul style="list-style-type: none"> • The COVID-19 RT-PCR test result certificate taken/issued in Ethiopia for travel from Ethiopia is not allowed to be used on the return flight. • “Full vaccination” means 2 weeks after taking of the single dose of Johnson and Johnson, and 2 doses for Astra Zeneca, Sinopharm, Sinovac, Moderna, and Pfizer. • “Recovery” refers to declaration of an individual free from COVID-19 which is decided according to the health professional on time based, symptom based and test based criterions. If a patient is asymptomatic, he will be

		<p>declared recovered 7 days after the day of sample collection for RT PCR test which turned positive or the day of positive Antigen RDT test. If a patient is symptomatic, he will be declared recovered after minimum of 7 days from the date of start of symptoms and additional 3 days without symptoms.</p> <ul style="list-style-type: none"> • With immediate effective, passengers arriving and departing to and from Ethiopia are recommended to use the PanaBIOS electronic System to verify their negative COVID-19 certificate in line with the Africa CDC Trusted Travel electronic verification rules and guidelines available here: www.africacdc.org/trusted-travel • Passengers should use the same email address he/she gave to the lab in signing up for an account to use the PanaBIOS system at: trustedtravel.panabios.org • If passengers are departing from countries where a PanaBIOS registered lab (Trusted Lab) is not present, they can upload their Printed COVID 19 certificate by visiting www.globalhaven.org and signing up for an account. They can also do so at trustedtravel.panabios.org • The process of uploading passengers' certificate can be initiated by clicking the "check in" button on the dashboard after logging in at www.globalhaven.org or trustedtravel.panabios.org. passengers will then be able to generate a Trusted Travel Code(TT Code) that is automatically integrated with Panabios Electronic System. • Should passengers encounter any difficulties, they can reach out for support at: globalhaven@panabios.org
9	<u>GHANA</u>	<p>Effective 22nd April 2022:</p> <ol style="list-style-type: none"> 1. <u>Pre- Arrival Processes</u> - Travelers intending to enter Ghana <ol style="list-style-type: none"> a. All International passengers including those from the ECOWAS region must complete a Port Health Declaration Form at https://www.ghs-hdf.org/hdf/ before embarkation of flight to Ghana 2. <u>Arriving Passengers</u> - Travellers Entering Ghana <p><u>Ghanaians and Foreign Residents</u></p> <ol style="list-style-type: none"> A. 18 years and above arriving in Ghana will be required to provide evidence of full vaccination for a COVID-19 vaccine at the point of embarkation and upon arrival at Kotoka International Airport (KIA). b. Fully vaccinated will be exempted from pre-departure COVID-19 PCR testing from point of embarkation. c. Fully vaccinated will be exempted from COVID-19 testing upon arrival at the KIA. d. <u>No.</u>	<u>Country</u>	<u>Instructions & Restrictions</u>
------------	----------------	--

1

ITALY

- **Effective 01st June 2022:**
 - The presentation of an EU Digital COVID Certificate (EU DCC) (vaccination Certificate) or equivalent is **NO LONGER** required to enter the Italian territory
 - The EU DCC (GREEN PASS) **is no longer** required to enter Italy
- **Effective 1ST May 2022**
 - It is compulsory to wear the face mask FFP2 type respiratory protection devices in aircraft engaged in commercial passenger transport services.
 - The DPLF is no longer required.
- **The EMA currently recognizes the following vaccines:** (Comirnaty (Pfizer/BioNTech) / Spikevax (Moderna) / Vaxzevria (AstraZeneca) / Covishield / Janssen Pharmaceutica NV (Johnson&Johnson)
- In case Passengers do not have the COVID-19 Green Certificate recognized in EU, they will not be able to stay at the hotel.
- Passengers holding residence in the following countries (Algeria, Australia, Canada, Georgia, japan, Montenegro, morocco, New Zealand, Rwanda, Serbia, republic of Korea, Thailand, Tunisia, Uruguay) are allowed to enter Italy.
- For the purpose of containing the spread of the COVID-19 virus, to persons who intend to enter the national territory and who in the previous fourteen days have stayed or transited in (**Belgium, France, the Netherlands, United Kingdom of Great Britain and Northern Ireland , Czech Republic and Spain**) without prejudice to the provisions of the decree of the President of the Council of Ministers of 7 September 2020, as extended by the decree-law of 7 October 2020, n. 125, the following alternative preventive measures apply:
- **Entry and transit in Italy is forbidden** to people who have stayed or transited in the following countries in the previous 14 days: (Armenia, Bahrain, Bangladesh, Brazil, Bosnia Herzegovina, Chile, Kuwait, North Macedonia, Moldova, Oman, panama, Peru, Dominican Republic, Serbia, Montenegro, and Kosovo), also direct and indirect flights to/from countries referred are also suspended. Exception to this rule is for Italian citizens or nationals of EU and Schengen Member States, UK, Andorra, Monaco, San Marino or the Vatican City State and their close family members, provided that they were resident in Italy since before July 9, 2020.
 - f) EU , Schengen Agreement , Andorra , Principality of Monaco, San Marino and Vatican State citizenship
 - g) Relatives of the persons having citizenship in one of the Countries listed under f) above
 - h) Long-term residents or citizen of third Countries entitled to resident status
 - i) Relatives of the persons listed under h) above

- l) Entry into the national territory to reach the home, residence or dwellings of a person listed under f) and h) above, even if not a cohabitant, with whom there is a proven and stable relationship.
m) Athletes, coaches, referees, sport journalists and assistants for sport events of national interest

- **From these countries it is not possible to enter Italy for tourism reasons**
- **The police form must be handed over to the border police upon arrival**
- **The carrier's form must be kept by the carrier, available to the USMAF, Ministry of Health for any health checks.**
- Travel to/from the countries **in list E** (EGYPT) is only allowed for specific reasons, such as: (work / health reasons / study reasons / absolute urgency / return to one's domicile, home, or residence).
- Travelling for tourism is therefore not permitted.
- The re-entry/entry into Italy, in case of stay/transit in the previous 14 days from this group of countries, is always allowed to Italian/EU/Schengen citizens and their family members, as well as to holders of long-term resident status and their family members (Directive 2004/38/EC). It is also confirmed the possibility of entry into Italy, from List E countries, for persons who have a proven and stable emotional relationship (even if not cohabiting) with Italian/EU/Schengen citizens or natural persons who are legally resident in Italy (long-term residents), who need to reach their partner's home/domicile/residence (in Italy).
- Athletes, technicians, competition judges and officials, foreign press representatives and accompanying persons participating in competitive sports competitions, recognized to be of pre-eminent national interest with a provision of the Italian National Olympic Committee (CONI) and the Italian Paralympic Committee (CIP) and regulated by a specific safety protocol adopted by the sports organization responsible for the event.
- **Effective 29th April 2021 till 21st June 2021**; Ban on entry and transit in Italy of natural persons from (**India / Bangladesh / Sri Lanka**).
- The new order prohibits entry to Italy for people coming from India, Bangladesh and Sri Lanka or who have stayed in the countries in the preceding fourteen days. The entry ban does not apply to the following persons:
- Italian citizens registered as residents in Italy since before April 29, 2021 and who do not display any symptoms of COVID-19, and the persons referred to in Art. 51, paragraph, 7 letter n) of the Prime Ministerial Decree of 2 March 2021.
- Italian citizens registered on the Registry of Italians Resident Abroad (AIRE);
- **Only** Italian Citizens and persons in possession of a formal written authorization from the Ministry of Health can enter Italy.

- On the basis of the provisions of the Ordinance, the entry into Italy of natural persons coming from or who have stayed in the previous fourteen days in India, Bangladesh and Sri Lanka is prohibited, with the exception of Italian citizens who do not show symptoms of COVID 19 and of the subjects referred to in art. 51 paragraph 7 letter. n of the Prime Ministerial Decree of 2 March 2021 (n) to officials and agents, however named, of the European Union or of international organizations, diplomatic agents, administrative and technical staff of diplomatic missions, consular officers and employees, military personnel, including those returning from international missions, and of the Police Forces, to the personnel of the Information System for the security of the Republic and of the Fire Brigade in the exercise of their functions).
- Entry is conditioned, in addition to the declaration obligations already provided for by the Prime Minister's Decree of 2 March 2021 and the Ordinance of the Minister of Health April 16, 2021, by:
- Obligation to present the certification of having undergone a molecular or antigenic test carried out in the 72 antecedents and negative result;
- Obligation to undergo a molecular or antigen test upon arrival at the airport;
- Obligation to undergo, regardless of the negative result of the test, isolation at a COVID Hotel or other place indicated by the health authority or civil protection for a period of ten days;
- Obligation to undergo a further molecular or antigen test after the quarantine period.
- Passengers arriving in Italy who do not meet the required requirements will be rejected with transport costs for repatriation to be borne by the carrier.
- Instructions of countries in LIST (D):
- List D countries includes (Saudi Arabia, Australia, Bahrain, Canada, Chile, United Arab Emirates, Japan, Jordan, Kosovo, Israel, Kuwait, New Zealand, Qatar, Rwanda, United Kingdom of Great Britain and Northern Ireland (including Gibraltar, the Isle of Man, Channel Islands and British bases on the island of Cyprus and excluding territories not belonging to the European continent), Republic of Korea, Singapore, United States of America, Ukraine, Uruguay, Taiwan, Hong Kong and Macao Special Administrative Regions and the States.

5	<u>GREECE</u>	<ul style="list-style-type: none"> • All COVID restrictions have been lifted till 16th May22 at 03:00 for civil protection requirements (No PCR, RAPID or RECOVERY CERTIFICATE is required to travel to Athens).
6	<u>FRANCE</u>	<ul style="list-style-type: none"> • <u>Classification of countries according to the evolution of their epidemic situation (lists to be found in www.gouvernement.fr/ info-coronavirus).</u> • <u>PLF is required from all passengers travelling to France.</u> • Effective 13th March 2022, <ul style="list-style-type: none"> • 1- “Green” countries: These are the Member States of the European Unionas Wellas Andorra, Iceland, Liechtenstein, Monaco, Norway, San Marino, Switzerland and the Vatican. <ul style="list-style-type: none"> • The following countries are added: South Africa, Angola, Saudi Arabia, Argentina, The Bahamas, Bahrain, Bangladesh, Belize, Benin, Bhutan, Bolivia, Botswana, Burkina Faso, Burundi, Cambodia, Cameroon, Canada, Cap Green, Colombia, Comoros, Congo, South Korea, Ivory Coast, Cuba, Djibouti, United Arab Emirates, Egypt, Ecuador, Eswatini, United States of America, Ethiopia, Fiji, Gabon, Ghana, Guinea, Guinea Equatorial, Guinea Bissau, Honduras, Hong-Kong, Mauritius, India, Indonesia, Iraq, Jamaica, Japan, Kazakhstan, Kenya, Kuwait, Laos, Lesotho, Madagascar, Malawi, Morocco, Mauritania, Mozambique, Myanmar (ex-Burma) , Namibia, Nepal, Nicaragua, Niger, Nigeria, New Zealand, Oman, Uganda, Pakistan, Panama, Paraguay, Peru, The Philippines, Qatar, Democratic Republic of Congo, Dominican Republic, Rwanda, Saint Kitts and Nevis, El Salvador, Samoa, Senegal, Seychelles, Sudan, South Sudan, Sri Lanka, Taiwan, Tanzania, Chad, East Timor, Togo, Tunisia, Vanuatu, Venezuela, Vietnam, Zambia and Zimbabwe. • Travel From Green countries: <ul style="list-style-type: none"> • <u>Vaccinated:</u> <u>only</u> proof of vaccination complete is necessary, in addition to the documents usually required (example: passport, visa). • <u>Not Vaccinated:</u> the negative result of a <u>PCR</u> test less than <u>72 hours</u> or one <u>antigen</u> test less <u>48 hours</u> or a <u>certificate of recovery</u> is necessary, in addition to the documents usually required (example: passport, visa).

- **2- Orange Country:** These are all countries not included in the list of "green" countries.
- **Travel From Orange countries:**
- **Vaccinated:** only proof of vaccination complete is necessary, in addition to the documents usually required (example: passport, visa) as well as the declaration on your honor attesting that you do not have any symptoms of Covid-19 infection, and that you are not aware of having been in contact in the fourteen days preceding your trip.
 - **Not Vaccinated:** The negative result of a PCR test less than 72 hours old or an antigen test less than 48 hours old is necessary, in addition to the documents usually required (example: passport, visa) as well as the declaration on your honor attesting that you do not have any symptom of Covid-19 infection, and that you are not aware of having been in contact in the fourteen days preceding your trip, and that you agree to screening on arrival.
 - Passengers can be screened on arrival. If this test is positive, you will have to isolate yourself, in accordance with insurance recommendations disease.
- The vaccines accepted by France are those recognized by the European Agency of the drug (EMA): Pfizer, Moderna, AstraZeneca and Johnson & Johnson.
- Proof of vaccination should certify a complete vaccination plan, namely:
 - * 7 days after the second injection for double-injection vaccines (Pfizer, Moderna, AstraZeneca / Vaxzevria/Covishield)
 - * 4 weeks after injection for single-injection vaccines (Johnson & Johnson);
 - * 7 days after injection for vaccines in people with a history of Covid-19 (only 1 injection required).
- For persons who have received all the required doses of a WHO-licensed vaccine not approved by the European Medicines Agency, 7 days after receiving an additional dose of an EMA-approved mRNA vaccine.
- The measures applied to vaccinated adults are extended under the same conditions to their accompanying minors, whether vaccinated or not.
- **Effective from 30/01/2021;**
- Travel (entering and leaving the territory) between France and abroad, except member states of the (European union, Andorra, Iceland, Liechtenstein, Monaco, Norway, San Marino, Switzerland and Vatican), are only be authorized for an **imperative reasons of personal or family nature, a health reason relating to the emergency** or **a professional reason that cannot be deferred**. The list of acceptable reasons for travel is given in a derogatory travel form available on the internet (ministry of interior website).
- **Effective 3rd Feb 2022,**

		<ul style="list-style-type: none"> • In order for the vaccination schedule to remain recognized as complete, persons aged 18 years or older wishing to enter the Republic of France must have received an additional dose of complementary messenger RNA vaccines approved by European Medicines Agency (Pfizer, Johnson, Moderna, and Astrazeneca) no later than 9 months following the injection of the last required dose. • <u>Children under 12 years</u> are exempted from PCR • PCR test types are (RT-LAMP / QRT-PCR / LAMP / QPCR / PCR / RT-PCR Detection of RNA) • <u>QUARANTINE: Self isolation for 7 seven days is applied, then undergo another test</u> • <u>Passengers arriving from countries where test is not possible, a letter from the French consulate is required. Then will undergo a test at the airport of arrival, and will be quarantined in a concerned place of the government.</u>
7	<u>Germany</u>	<ul style="list-style-type: none"> • <u>Effective 1st June till 31 August 2022</u> • There are no longer any requirements for passengers entering Germany (proof of health/DEA/quarantine) and no longer any control obligations for the airlines (exception: areas of variants of concern). • <u>Effective 11 June 2022, 12pm/0.00h CET</u>, all COVID-19-related restrictions for entry into Germany will preliminarily be lifted. From that date, travel to Germany will be permitted for all travel purposes (including tourism and visits). Individuals resident in the People’s Republic of China, however, continue to require an important reason for travelling to Germany (reciprocity reservation). For entry into Germany no proof of vaccination, recovery or testing is required any longer. • Visas as required for entry into Germany may be applied for with the German embassies and consulates for all travel purposes. Due do the high demand delays may occur in the issuing of visas. <p><u>Area of variants of concern</u></p> <ul style="list-style-type: none"> • Pax including transit Pax who have stayed in an area of variants of concern (voc) during the last 10 days before entry must present proof of negative pcr test for sars-cov-2. a negative antigen-test or a proof of vaccination or a proof of recovery of sars-cov-2 alone will not be accepted. for transport staff further exemptions may apply. Please check against regulation. • PCR or POC-PCR test, the sample collection for the test must not be older than 48hrs before time of or planned time of departure. • Pax who intend to enter Germany and who have <u>stayed in a high-risk area or an area of voc</u> within the last 10 days prior to entry must register electronically. Use of digital online procedure is strongly

advised. Paper based registration is only accepted as a replacement if electronic registration is not possible, official substitute registration form must be used.

- Pax transiting via a German airport are exempt from entry registration. Further exemptions apply. Please check against regulation.
- **Temporary travel restrictions apply to all non-essential travel from third countries to the federal republic of germany.**
- The restrictions do not apply to German citizens.
- Exempted from these travel restrictions are pax who have resided and last stayed in the following countries and regions: hong kong, indonesia, macao, new zealand, south korea, taiwan.
- In addition, entry into the federal republic of Germany is permitted to all pax who have resided and last stayed in third countries, provided they are fully vaccinated against sars cov-2 coronavirus
- Persons under 12 years of age who have not yet been vaccinated may enter if accompanied by at least one fully vaccinated parent. Due to reciprocity reservations note 4 does not apply to pax who have resided and last stayed in the following states: china. This does not apply to pax from third countries who have an imperative need for travel (see note 6).

The vaccine must be listed on the website of the paul-ehrlich-institut or it must be mentioned by paragraph 2 no. 10 coronavirus entry regulations ('coronaviruse-inreiseverordnung'), which has not been approved by EMA (WHO Vaccines), but is considered as sufficient for the purpose of entry. pax must have received all the necessary vaccination doses required for a complete protective vaccination as listed on the website of the paul-ehrlich-institute. At least 14 days have elapsed since the last required vaccination, except for recovered persons. pax has not stayed in an area of virus variants of concern during the last 10 days.

- Areas of virus variants of concern: carriers are strongly advised to regularly review the designation list at www.rki.de/covid-19-risikogebiete
- **Entry into the federal republic of Germany is permitted to all pax from third countries who have an imperative need for travel:**

1. Eu citizens and third-country nationals with current right of residence in Germany,
2. Healthcare workers, health researchers and geriatric care workers
3. skilled and highly qualified foreign workers if their employment an economic perspective and the work cannot be postponed or performed abroad,)
4. Freight transport and other transport personnel,
5. Seasonal workers in agriculture,
6. Seafarers,

		<p>7. Foreign students, trainees, volunteers, 8. Persons immigrating into Germany for the purpose of joining their families and visits for urgent family reasons or short term visits of core family members (husband/wife, minor children, parents of minor children) or unmarried partners in a relationship with German nationals, Eu citizens and third-country nationals with current right of residence in Germany or joint short term visits of couples (third country national and german national/eu citizen) residing together in a third country for important reasons, 9. Persons in need of international protection or for other humanitarian reasons, 10. diplomats, staff of international organizations, military personnel and humanitarian aid workers in the exercise of their functions, 11. ethnic German resettles, 12. Passengers in transit.</p> <ul style="list-style-type: none"> • <u>ENTRY FROM THIRD COUNTRIES INTO THE FEDERAL REPUBLIC OF GERMANY FOR THE SOLE PURPOSE OF ONWARD TRAVEL TO ANOTHER EU-/SCHENGEN STATE IS PERMITTED. THIS APPLIES UNDER THE FOLLOWING CONDITIONS:</u> <p>1. The time spent in Germany is limited to the duration required for direct transit to the destination state, 2. The third-country national is permitted to enter the destination state in accordance annex i or annex ii of the council recommendation (eu) 2020/912 of 30 June 2020 or an individual confirmation of the granting of entry issued by the destination state.) Under these conditions, entry by air and onward travel to the country of destination by land is also permitted. it is the travelers responsibility to prove the right of entry into the country of destination and the route of travel in the event of General Information:https://b2b.frankfurt-airport.com/en/airlines-b2b/coronavirus.html</p>
8	<u>CYPRUS</u>	<u>Effective 1st June 2022 :-All travelers arriving in the Republic of Cyprus, regardless of their country of origin, will not be required to present a valid certificate of vaccination or recovery or a negative result from PCR or antigen rapid test</u>

NETHERLANDS

EU entry ban for travellers from non-EU countries An EU entry ban is in effect for people from countries outside the European Union/Schengen area. There are exemptions to the entry ban, for example for people travelling from a safe country or people with proof of vaccination or proof of recovery. This proof of vaccination or recovery must meet certain requirements. From 23 March 2022 people travelling to the Netherlands no longer need to show a negative test result

-EU entry ban exemption categories A-No entry ban for travellers from safe countries

List of safe countries and areas

The following countries and areas outside the EU/Schengen area are designated safe:

- Bahrain
- Chile
- China, mainland (the EU entry ban will apply to China until China lifts entry restrictions on European travellers)
- Colombia
- Hong Kong SAR
- Indonesia
- Kuwait
- Macau SAR
- New Zealand
- Peru
- Qatar
- Rwanda
- Saudi Arabia
- South Korea
- Taiwan
- United Arab Emirates
- Uruguay

EU entry ban for countries and areas not on the safe list An EU entry ban applies to travellers from countries and areas outside the EU/Schengen area that are not on the safe list. If the purpose of your trip is on the list of exemption categories on this page, you can travel to the Netherlands. You can also travel to the Netherlands if you have valid proof of vaccination or proof of recovery. This proof of vaccination recovery must meet certain requirements B-**Recovered from coronavirus**

If you are a resident of [a country that is not on the list of safe countries](#) and you have recovered from COVID-19, you may be exempt from the EU entry ban. You can enter the Netherlands if:

- you recovered from COVID-19 at least 11 days ago; and you have proof of recovery: that is valid for a maximum of 180 days; and that was issued by a country taking part in the EU Digital COVID Certificate (DCC) scheme. [See the list of participating countries.](#)

Proof of recovery from other countries will not be accepted. This exemption does not apply to travellers from China for as long as China continue to impose travel restrictions on travellers from Europe.

Documents required for entry into the Netherlands If you meet the conditions for admission to the Netherlands after recovering from COVID 19, you must present the following documents at border control:

[a completed recovery declaration](#) (only for travellers aged 18 or over from non-Schengen countries);

[proof of recovery](#) recognised by the Netherlands;

proof you have booked a return journey (a return airline, coach or train ticket);

a visa (if required).

[C-Fully vaccinated](#)

If you are 12 years or older, a resident of a country that is not on the list of safe countries and fully vaccinated, you are exempted from the EU entry ban. You can enter the Netherlands if you have valid [proof of vaccination](#) showing that you have been fully vaccinated with a vaccine approved by the European Medicines Agency (EMA) or the World Health Organization (WHO). Children under 18 travelling with their fully vaccinated parent(s) or legal guardian(s) do not have to be vaccinated themselves.

This exemption does not apply to travellers from China until China lifts entry restrictions on European travellers.

Documents to be shown at the Dutch border

If you meet the conditions above and travel to the Netherlands, you will need to show the following documents to the Dutch border authorities:

- a [completed 'Vaccine Declaration COVID-19' form](#);
- [proof of vaccination accepted by the Netherlands](#);
- proof of your return journey (return ticket issued by airline, bus company or railway company);
- a visa (if you require a visa).

Travellers aged 12 and over from outside the Schengen area must complete a vaccination declaration. Children under the age of 18 travelling with their vaccinated parent(s) or legal guardian(s) are exempt from this requirement.

D-Nationality and right of residence

You are a national of an EU or Schengen area country. Your family members may also travel to the Netherlands if they are travelling with you or are joining you in the Netherlands. [Read the rules for family members](#). Please note: the United Kingdom (UK) is not part of the EU/Schengen area. **You are a national or resident of one of the following countries: Norway, Iceland, Switzerland, Liechtenstein, Monaco, Andorra, San Marino or Vatican City.** Your family members may also travel to the Netherlands if they are travelling with you or are joining you in the Netherlands. Read the rules for family members and [check whether they need a visa](#). **You are a national of a non-EU country and have a residence card or a residence permit in accordance with Directive 2003/109/EEC (concerning long-term residents).** Your family members may also travel to the Netherlands if they are travelling with you or are joining you in the Netherlands. Read the rules for family members and [check whether they need a visa](#). **You are a national of a non-EU country, and derive your right of residence from other EU directives or the national law of a Schengen area country.** Your family members may also travel to the Netherlands if they are travelling with you or are joining you in the Netherlands. Read the rules for family members and [check whether they need a visa](#).

You have a long-stay visa ([authorisation for temporary stay 'MVV'](#)).

You hold a letter of notification from the Immigration and Naturalisation Service for long-term stay.

You have a valid residence permit for the Netherlands. Your family members may also travel to the Netherlands if they are travelling with you or are joining you in the Netherlands. Read the rules for family members and [check whether they need a visa](#). **E-Study, knowledge and research**

You are a student and are coming to the Netherlands for a short stay of less than 3 months. And you need to have proof of enrolment at an educational institution which is recognised by the IND as a host organisation (referred to as a 'recognised sponsor' by the IND).

You are a highly skilled migrant, and are coming to the Netherlands for a short stay (less than 3 months). You have a Dutch employment permit or proof of the work to be carried out.

You are a researcher or scientist who falls under the [exemptions to the entry ban for researchers](#).

F-For work

You are a key worker or have an essential role: care worker, doctor or nurse.

You are a cross-border commuter.

You are a seasonal worker.

You work in the transport sector:

- transport of goods
- container ships
- bulk carriers (e.g. transporting ore or coal)
- tankers (e.g. transporting fuels and chemicals)
- fishing boats.
- You work in the energy sector:
 - on an oil or gas platform
 - at an offshore wind farm
 - for an off-shore company that provides services to this sector.

You are a professional providing urgent technical assistance in a crucial sector and your specialist knowledge and physical presence are required

You are part of a flight crew.

You are a seafarer in possession of a seafarer's record book. This does not include seafarers on commercial yachts and pleasure crafts.

You are a seafarer on a commercial vessel with a length of 24 metres or more.

You are a diplomat.

You have a service passport and need to travel to carry out your duties.

You are a member of the armed forces and need to travel to carry out your duties.

You work for an international and/or humanitarian organisation.

You are a journalist as defined in the framework for applying the [exemption for journalists](#).

You are an elite athlete as defined in the framework for applying the [exemption for elite athletes and their support staff](#).

You are a researcher as defined in the framework for applying the [exemption for researchers](#).

You are a business traveller as defined in the framework for applying the [exemption for business travellers](#).

You are a [professional in the cultural and creative sector](#)

[G-Compelling reasons to visit your family](#)

You have compelling reasons to visit your family. This is only possible in truly exceptional cases, such as: visiting a seriously ill or terminally ill family member or attending a funeral. You must be a family member in the first or second degree (as defined in Dutch law). [You must fill in a Declaration of exemption from COVID-19 entry ban](#).coming to the Netherlands to be with your legal partner when they

give birth. If you are not legally married, you must have acknowledged paternity or parentage of the unborn child. You must also be able to prove, with a letter from the gynaecologist or the obstetrician, that your partner is more than 34 weeks pregnant. visiting your grandchild or great-grandchild. From 00.01 on 16 September 2021 all grandparents and great-grandparents visiting grandchildren or great-grandchildren aged under 18 are exempt from the EU entry ban. This used to only be the case if you were visiting a newborn grandchild or great-grandchild. You must fill in a [Declaration of exemption from COVID-19 entry ban for visiting a grandchild or great-grandchild](#).

you are a divorced parent from a non-EU country and you want to visit your child who lives in the Netherlands. You must fill in a [Declaration of exemption from COVID-19 entry ban for visiting your child as a divorced parent](#)

H-Transit, transfer

You are travelling through the Netherlands to a non-EU/Schengen area country. You must prove that you have a connecting flight to a country outside the Schengen area. The connecting flight must depart within 48 hours of your arrival at the airport. You must not leave the airport's international transit zone in this period. Please note: the United Kingdom (UK) is not part of the EU/Schengen area.

You are travelling to an EU country/Schengen area country via the Netherlands. You must be able to show you have permission to enter the EU country/Schengen country in question. You can do this with a note verbale from that country's embassy, for example, or another type of document that proves you can travel there. If you do not have such a document, the Dutch border authorities will determine whether you may travel via the Netherlands. Without a document showing you have permission to enter the EU country/Schengen country in question, you are advised to fly there directly and not via the Netherlands. If you will be making a short stop at a Dutch airport you may [need an airport transit visa](#). This depends partly on your nationality. The Visa Advisor tool helps you determine whether you need an airport transit visa. Please note: the United Kingdom (UK) is not part of the EU/Schengen area.

I-International protection and humanitarian reasons

You have been granted international protection.

You are being admitted to the Netherlands for humanitarian reasons.

-Long-distance relationship

You are a non-Dutch national who falls under the [arrangement for partners in a long-distance relationship](#).

2-Requirements for proof of vaccination

3-Family members who are exempt from the EU entry ban

4-Temporary arrangement for partners in long-distance relationships

		<p>5-Exemption to the entry ban for professional journalists</p> <p>6-Exemption to the entry ban for researchers</p> <p>7-Exemptions to the entry ban in the interests of the Dutch economy and society</p> <p>8-Exemptions to the entry ban for professionals in the cultural and creative sectors</p>
10	<u>AUSTRIA</u>	<ul style="list-style-type: none"> • COVID-19 entry restrictions is suspended to Austria. • No masks are needed any longer. • Effective 16th May2022 No need to be Vaccinated or tested also no need for previous registration to enter Austria expect for passengers coming from area with high epidemiological risk in last 10 days which it's not applicable at the moment due no state or area listed in this list as below remark. • At the same time 3G/TRV + registration + quarantine will become into force if been to a state or area of very high epidemiological risk within the last 10 days (no state or area listed for the moment)..
11 1	<u>SWITZERLAND</u>	<p>Effective 17th February 2022,</p> <ul style="list-style-type: none"> • Almost all restrictions are lifted and no Covid certificate needed anymore within Switzerland. • On the side of CH boarder entry sanitary restrictions, no more proof of vaccination, tests, recovery or medical certificate needed anymore. PLF/e-plf is abolished as well. The present health border measures will remain in place for countries or regions with a variant of the virus of concern (currently there are no countries on the list of the Federal Office of Public Health). • Please note below exception which is still in place: <u>Third-country nationals who wish to enter Switzerland from a risk state for a short stay of up to 90 days will be refused entry unless they have been fully vaccinated.</u> • For further information, please check website: https://www.sem.admin.ch/sem/de/home.html. And https://www.bag.admin.ch/bag/en/home/das-bag/aktuell/medienmitteilungen.msg-id-87216.html

		<p><u>1- Only the following categories are allowed to enter Switzerland:</u></p> <ul style="list-style-type: none"> - Passengers arriving from Schengen Member States; - Nationals or residents of Switzerland or Liechtenstein; - Nationals of EEA Member States; - British nationals; - Family members of nationals of EEA Member States. They must present proof of their relationship; - Family members of British nationals. They must present proof of their relationship; - Residents of Schengen Member States returning directly via Switzerland to their country of residence; - Passengers with a D visa issued by Switzerland; - Passengers with a Schengen C visa issued by Switzerland after 16 March 2020. <p><u>2- Passengers are not allowed to transit if arriving from a non-Schengen Member State to another Schengen Member State.</u></p> <ul style="list-style-type: none"> - <u>This does not apply to:</u> - Nationals of EEA Member States and Switzerland; - British nationals; - Family members of nationals of EEA Member States and Switzerland; - Family members of British nationals; - Residents of EEA Member States and Switzerland; - Passengers with a D visa issued by Switzerland; - Passengers with a Schengen C visa issued by Switzerland after 16 March 2020. <p><u>All passengers have to be advised to register via (https://swissplf.admin.ch/formular) and present QR Code on arrival.</u></p> <ul style="list-style-type: none"> • On entry, everyone must have completed the entry form with their contact details (Swiss PLF). This can be done online or on paper.
12	<u>BELGIUM</u>	<ul style="list-style-type: none"> • No travel restrictions for Belgium. “Persons must therefore no longer be in possession of a:” • Passenger Locator Form • a valid vaccination, recovery or test certificate • However, this does not apply to travelers coming from a VOC country (Variant of Concern). The current rules will continue to apply to them. • There are currently no VOC countries.
13	<u>DENMARK</u>	<p><u>Effective 29th of March 2022 There will be no of any COVID -19 entry restrictions.</u></p> <p><u>Effective 1st of March 2022, the following will apply:</u></p> <ul style="list-style-type: none"> • (Vaccinated / previously infected) passengers: There are no travel restrictions when entering Denmark.

		<ul style="list-style-type: none"> • <u>For passengers that are not vaccinated or previously infected:</u> <ul style="list-style-type: none"> • There are no travel restrictions when entering Denmark <u>from the EU or Schengen countries.</u> • Passengers entering from a country outside EU or Schengen, <u>must take a test free of charge from a test centre within 24 hours upon entry in Denmark.</u> • Vaccines approved by the European Medicines Agency (EMA) and vaccines approved for emergency by the World Health Organization (WHO) are accepted. • Vaccinated with the second or third dose no more than 270 days ago. Alternatively vaccinated with one does in a vaccination course that requires only a single dose no more than 284 days ago. • More details can be found on: https://en.coronasmitte.dk
14	<u>HUNGARY</u>	<p>Effective from 07/03/2022.</p> <ul style="list-style-type: none"> • All restrictions are cancelled regarding COVID-19.

4- FAR EAST & ASIA

<u>No.</u>	<u>Country</u>	<u>Instructions & Restrictions</u>
1	<u>CHINA</u>	<ul style="list-style-type: none"> Effective 12th July 2022, quarantine before traveling to China is cancelled. all procedures and tests will be followed up by the airline and approvals for passenger to travel will be advised to the airline not the passenger All transit passengers traveling through Cairo must carry a green code from their origin country and make sure its validity until the departure time.

- All passengers traveling to China should strictly implement the testing requirements (Refers to Chinese Embassy announcement: <https://mp.weixin.qq.com/s/vw2GPvG6mt8Agjys9XyJA>), the first PCR test must be within 48 hours before boarding, and the sampling time of the second test must be within 24 hours before boarding.

- On the base of a comprehensive evaluation of the capacity level and quality of the local PCR testing institutions, the airline has coordinated with three PCR testing institutions EGYPTAIR Hospital laboratory, Life vision Lab (LV Lab) and Sansure biology and al mokhtabar testing center. Provide the PCR testing services for the passengers to reach the time-limited requirements.

Updated of vaccination document ;

- PCR valid within 48 hrs ;
- Hotel Quarantine of 7 days same as HKG Residents
- **Effective from 15th June 2022**, persons who hold a vaccination record issued by relevant authorities of Bahrain, the Dominican Republic, Egypt or Mauritius in the prescribed format can board a flight for Hong Kong from overseas places. The vaccines administered for the relevant travellers have to be vaccines listed on the Government's List of COVID-19 Vaccines Recognized for Specified Purposes.

Effective April 1st 2022

1) **Passengers travelling from the nine place –specific suspension mechanism countries” Australia, Canada, France, India, Nepal, Pakistan, the Philippines, the United Kingdom and the United States of America”:-**

- Government will lift the place-specific flight suspension mechanism for the aforementioned nine places from April 1. **This is on the premise that the returning Hong Kong residents would still have to undergo compulsory quarantine in designated quarantine hotels (DQHs) under the measures guarding against the importation of cases, while the route-specific flight suspension mechanism would continue to be applicable with suitable adjustments.**

2) **Passengers travelling from overseas places:-**

- **Hong Kong residents** who have stayed in any overseas places in the previous 14 days can only board a flight for Hong Kong if they comply with the following conditions. Meanwhile,

Effective May 1st 2022: non-Hong Kong residents will be allowed to board flights for Hong Kong from any overseas places and be subject to the same boarding, quarantine and testing arrangements as HKRs.

(i) Fully vaccinated (**Note 1**) and hold a recognized vaccination record;

- **Fully vaccinated generally involves receiving two doses** of the Sinovac COVID-19 vaccine (CoronaVac vaccine) or the Fosun Pharma/BioNTech COVID-19 vaccine (Comirnaty vaccine)

14 days before coming to Hong Kong. Persons previously infected with COVID-19 who have received one dose of COVID-19 vaccine can be considered fully vaccinated. As for persons aged between 12 and 17 on the scheduled day of arrival at Hong Kong, they may be deemed to have completed the COVID-19 vaccination course on receiving one dose of the Comirnaty vaccine. For individuals who received COVID-19 vaccines in places outside of Hong Kong and have received the required dose(s) as stipulated in the [List of COVID-19 Vaccines Recognised for Specified Purposes](#) and the relevant guidelines, they will also be regarded to have completed the vaccination course of the relevant COVID-19 vaccine.

- (ii) Hold a negative result proof of a polymerase chain reaction (PCR)-based nucleic acid test for COVID-19 conducted with specimen collected within 48 hours before the scheduled time of departure of the aircraft, and
- (iii) Hold a confirmation of room reservation in a DQH for seven or 14 nights from the day of arrival at Hong Kong (depending on whether they could meet the relevant conditions and choose early discharge from compulsory quarantine as per local isolation and quarantine arrangements) (Note 2).

PCR

- The relevant persons will be subject to the "test-and-hold" arrangement upon arrival at the Hong Kong International Airport. Upon tested negative with a PCR-based nucleic acid test, they will be taken to DQHs by designated transport to undergo compulsory quarantine.
- As the relevant persons **have been fully vaccinated** (Note 1), under the isolation and quarantine arrangements of local cases (Note 2), if the results of the PCR-based nucleic acid test conducted on the fifth day and the RATs conducted on the sixth and seventh days are all negative, they can be discharged from compulsory quarantine earlier. However, they will be required to undergo self-monitoring for seven days, and undergo a compulsory PCR-based nucleic acid test on the 12th day of arrival at Hong Kong at a community testing center (CTC) or a mobile testing station (MTS), or arrange a self-paid test by professional swab sampling at a local medical institution recognized by the Government.
- **Children of Hong Kong residents aged under 12** are yet to be vaccinated can also board flights for Hong Kong if they are accompanied by Hong Kong residents who comply with the above boarding requirements. These children must also hold a negative result proof of a PCR-based nucleic acid test for COVID-19 conducted with specimen collected within 48 hours as stated above, and confirmation of room reservation in a DQH. The children must undergo compulsory quarantine together with the accompanying persons. If the results of the PCR-based nucleic acid test conducted on the fifth day and the RATs conducted on the sixth and seventh days are all negative, the children can also be discharged from quarantine earlier with the accompanying persons. Just as the accompanying persons, these children must undergo self-

monitoring for seven days, and compulsory testing on the 12th day of arrival at Hong Kong as per the requirements above.

- **If any result is positive from the "test-and-hold" PCR-based nucleic acid test**, the PCR-based nucleic acid tests conducted on the fifth day or the 12th day, or the daily RATs, the relevant inbound traveler will be arranged to undergo suitable isolation and treatment under the multi-tiered triage and treatment strategy as with local positive cases. Inbound travelers tested positive after arrival and have no obvious symptoms and no need for medical support will be transferred to a community isolation facility hotel and be issued an isolation order. Their isolation and discharge arrangements will be the same as those for local positive cases under isolation, **i.e. for those who are fully vaccinated**, they can be considered to have completed isolation upon receiving negative results from the RATs conducted on the sixth day and the seventh day after being tested positive

Quarantine

- The basic quarantine requirement for the relevant persons is to undergo compulsory quarantine for 14 days in a DQH, and they will be issued a 14-day quarantine order. They are subject to daily rapid antigen tests (RATs), as well as PCR-based nucleic acid tests on the fifth and 12th days of arrival at Hong Kong.
- The basic quarantine period for local close contacts is 14 days, and the basic isolation period is 14 days **for local positive cases who have no obvious symptoms and no need for medical support**. In view of factors such as community risk assessment and easing pressure on local human resources, the Government announced earlier that persons under isolation or quarantine, if they have received at least two doses of COVID-19 vaccines, may leave isolation or quarantine earlier on the seventh day if the results of their RATs on the sixth day and the seventh day are negative. The relevant arrangements will be adjusted as appropriate taking into account the developments of the local epidemic situation and community risk assessments
- To better utilize limited DQH rooms, inbound travelers should decide when making their DQH booking whether or not they will choose to be discharged from compulsory quarantine earlier upon fulfilling the relevant conditions in accordance with the above arrangements, and correspondingly reserve their DQH rooms for **seven or 14 nights**.

A) inbound travelers who hold a confirmation of a seven-night room reservation in a DQH, the quarantine order issued to them will indicate that upon fulfilling the above criteria for early discharge from compulsory quarantine, they will be considered to have completed their compulsory quarantine, and they must then depart the DQH.

B) Inbound travelers choose to complete the whole 14-day compulsory quarantine period in the DQH, they must at boarding hold a confirmation of a 14-night room reservation in a DQH. Persons who hold a confirmation of a 14-night room reservation in a DQH will not be arranged for early discharge from

		<p>compulsory quarantine, and must stay in the DQH room for completing the 14-day compulsory quarantine. They can only leave the DQH upon confirmation of negative results of the PCR-based nucleic acid test conducted on the 12th day and the RAT conducted on the 14th day.</p> <p><u>N.B</u></p> <ul style="list-style-type: none"> • The days of a person's arrival at Hong Kong is counted with the day of arrival at Hong Kong as the first day. For example, for a person who arrives at Hong Kong on April 1, he or she shall undergo the 12th-day test on April 12. • Persons who (i) are unfit for vaccination due to health reasons with relevant proof from a medical practitioner; or (ii) have received one dose of recognized COVID-19 vaccine and hold a recognized vaccination record, if they were certified by a medical practitioner that they were unfit to receive the second dose of COVID-19 vaccine because of health reasons after receiving the first dose of vaccine, while they are not considered to be fully vaccinated, they are exceptionally allowed to board flights for Hong Kong. The relevant medical certificate must indicate the relevant health reasons in English or Chinese.
2	<u>JAPAN</u>	<ul style="list-style-type: none"> • <u>Effective 1st March 2022.</u> <ul style="list-style-type: none"> • Foreign passengers (Non-residents) who are travelling to Japan for non-tourism purposes (Students / Businessmen) are allowed to enter. • Quarantine period for passengers coming from countries affected by Omicron (Egypt is including) is 7 days and can be shortened to be 3 days if the passenger is in possession of (a valid vaccination certificate / Negative PCR test. • Japanese government announced (on 26th May 2022) that countries are divided into 3 categories (Red/ Yellow / Blue) Egypt is categorized in Yellow. <ul style="list-style-type: none"> • Passengers arriving from Egypt who are vaccinated 3 times or more are exempted from quarantine. • Passengers arriving from Egypt who are vaccinated less than 3 times will be home quarantined for 7days (passenger will undergo to a PCR in the third day to shorten the home quarantine if the PCR result is negative). • All passengers arriving to Japan are required to install the following applications on their smart phones (OSSMA / Skype / COVID-19 Contact Confirming Application). • <u>The airport quarantine will check your smartphone when you arrive in Japan. Starting 01 February 2022

1. Test and Go Entry Scheme

- **Effective from 1 February 2022, the Test and Go entry protocol will resume registration through the Thailand Pass system, and passengers are able to enter Thailand through this entry scheme accordingly;**
- **Travelers departing from ALL COUNTRIES are now permitted to enter through the Test and Go scheme;**
- **Please note that the requirements for registration under the Test and Go scheme are the same as previously announced with the addition that passengers are required to reserve 2 RT-PCR lab test in conjunction with two-night accommodation (Day 1 and Day 5).**

. Applicants who have registered, but have not received their QR Code must wait for their Thailand Pass to be considered / approved. Once approved, they can enter Thailand under the scheme they have registered.

. Passengers who will arrive in Thailand under Test and Go and Sandbox Programme must undergo their 2nd COVID-19 test using the RT-PCR technique (not ATK self-test) at government-designated facilities (no additional cost).

- Travelers who have been previously approved to enter Thailand under AQ scheme but wish to change to another scheme must re-register on Thailand pass.

2. Sandbox Programme

- Effective from 1 February 2022, Sandbox area will include Phuket, Krabi, Phan-Nga, Surat Thani (Koh Samui, Koh Tao and Koh Phangan), Chonburi (Pattaya and some districts) and Trat (Koh Chang);

- Requirements for Sandbox programme remains the same as previously announced.

Effective 01st October 2021 (1700 UTC):

- Visa on Arrival (VOA) is no longer suspended from 1 October 2021 onwards.
- Passengers on visa exemption scheme are permitted to stay in Thailand for 30 days.
- Cambodia and Myanmar passport holders can enter Thailand without visa and permitted to stay in Thailand for 14 days.
- All passengers willing to enter Thailand need to present (individual) COE and other required documents to Thai authorities upon arrival. If they failed to present the required documents, their entry would be denied.

Thailand's entry measures for Thais and non-Thais effective from 1 November 2021 (as of 31 October 2021) as follows:

1. Exemption from Quarantine (EQ) or Test and Go

- On 30 October 2021, the Ministry of Foreign Affairs announces updated list of countries and territories that eligible to enter Thailand on this scheme. The announcement is attached herewith for your information.
- 17 additional eligible countries/territories for EQ are Croatia, India, Indonesia, Kuwait, Laos, Luxembourg, Maldives, Mongolia, Myanmar, Nepal, Oman, Philippines, Romania, Slovakia, Sri Lanka, Taiwan, and Vietnam (Currently, there are 63 eligible countries/territories).

2. Sandbox Program

- Unvaccinated Children under 18 year-old will be eligible to enter Sandbox Program if they travel with fully vaccinated parents or guardians.
- The second test during the stay in Sandbox Program has changed to ATK test on day 6th - 7th.

3. Insurance

- Thai nationals are not required to have medical insurance to enter Thailand.

- Non-Thais must obtain Insurance with minimum coverage of 50,000 USD during the period of stay in Thailand. Expats living and working in Thailand can provide a valid social security card or certified letter from their employer as equivalent document. This also apply to travellers who will travel to Thailand for international transit/transfer.

4. COVID-19 RT-PCR Test issued within 72 hours before departure

- All travelers entering Thailand, regardless of age and nationality must present the RT-PCR test result.
- This doesn't apply to Thai nationals entering Thailand on AQ scheme.

5. Thailand Pass QR code

- Travelers obtain either COE or Thailand Pass QR code are eligible to enter Thailand.
- The sample of Thailand Pass QR code is attached herewith for your information. You can scan the QR code by using your mobile phone to see the validity of the QR code.

- On 26 November 2021, the world health organization (who) announced new variant of concern (VOC) of Sars cov-2 or omicron among African countries including (Botswana, Eswatini, Lesotho Malawi, Mozambique, Namibia, South Africa and Zimbabwe).
 - The department of disease control ordered the passengers departing from 8 countries mentioned above and arriving at port of entry in Thailand from 28 November 2021 (00.01 am) onward must be quarantined for 14 days in alternative quarantine (aq) regardless of vaccination status. The passenger from the said countries who has already got Thailand pass as sandbox will be changed to quarantine (aq) 14 days by port health officers.
 - The travel ban of passengers from these 8 affected countries will be enforced on 1 December 2021. The airline shall not accept the passenger from these countries to depart for Thailand and arrive on 1 December 2021 (00.01am) onward. it must be noted that Thailand pass issued to the passengers from these countries will automatically void on 1 December 2021
 - Thailand pass registration is no longer available for register from today, 27 November 2021 in these countries.
 - The passenger from 8 affected countries who have Thailand pass may arrive at port of entry in Thailand until 30 November 2021 and must comply with quarantine 14 days protocol regardless of vaccine status
 - For all remaining African passengers (Africa-north/central/south), except these 8 affected countries, who have Thailand pass as sandbox will be valid thru 14 December 2021. from 15 December 2021, all African passenger (except 8 countries with travel ban) will be eligible for alternative quarantine 14 Days regardless of vaccine status.
- For more inquiries about Thai visa, please visit <https://thaiveisa.go.th> or <http://coethailand.mfa.go.th/>
- **PCR:**
- **Effective from 1 April 2021**, for travelers arrived in from 00.01 hrs. Thailand's time onward,
- Thai nationals are not required to present either fit to fly health certificate or medical certificate with a laboratory result indicating that covid-19 is not detected, using RT-PCR method. In case the airlines require passenger to present a COVID-free certificate as an airline policy, all passengers, including Thai nationals shall comply with the airlines policy, otherwise the passengers shall be denied to board with the flight.

		<ul style="list-style-type: none"> • The Ministry of Public Health has agreed to disregard the list of covid-19 risk countries and the list of countries with variant strains, therefore CCSA has agreed to allow passengers from all countries/territories to enter the Sandbox Programme effective from 1 October 2021. • Non-Thais are no longer required to present a Fit to Fly certificate to enter Thailand. They only need to present a Medical Certificate with a laboratory result indicating that COVID-19 is not detected, using <u>RT-PCR method issued within 72 hours before departure from their port of origin</u> (in addition to COE, insurance and ASQ/ALQ or other quarantine facility confirmation) <p><u>QUARANTINE:</u></p> <ul style="list-style-type: none"> • <u>Effective from 01st October 2021,</u> <ul style="list-style-type: none"> • Quarantine period is reduced from <u>14 days to 7 or 10</u> days for all air passengers. This applies to all passengers, regardless of their port of origin. • Fully vaccinated passengers are eligible to 7-day quarantine. The passengers must complete their vaccination at least 14 days before departure from their port of origin. • <u>Unvaccinated</u> or in-completed vaccination passengers are eligible for <u>10-day quarantine</u>. This doesn't apply to unvaccinated/uncompleted vaccination children under 18-year old traveling with parents or guardian. • In case the passengers has obtained COE issued <u>before 1 October 2021</u> which identifying their period of quarantine for no less than 14 days, passengers shall prepare their original copy (or a print out of digital version) of <u>Certificate of Vaccination</u> to present upon arrival for Health Control officer consideration to reduce quarantine period.
4	<u>INDIA</u>	<ul style="list-style-type: none"> • <u>Effective 2nd May 2022,</u> resuming international schedule flights to/ from India. <p>All travellers should</p> <ol style="list-style-type: none"> Submit complete and factual information in self-declaration form on the online AirSuvidha portal (https://www.newdelhiairport.in/airsuvidha/apho-registration) Before the scheduled travel, including last 14 days travel details. Upload a negative COVID-19 RT-PCR report* (The test should have been conducted within 72 hrs. prior to undertaking the journey) or Certificate of completing full primary vaccination schedule of COVID-19 vaccination**. Each passenger shall also submit a declaration with respect to authenticity of the report and will be liable for criminal prosecution, if found otherwise.:They should also give an undertaking on the portal or otherwise to Ministry of Civil Aviation, Government of India, through concerned airlines before they are allowed to undertake the journey that they would abide by the decision of the appropriate government authority anypost arrival requirement to undergo home/institutional quarantine/ self-health monitoring,

as warranted.

. Before Boarding

iii. Do's and Don'ts shall be provided along with ticket to the travellers by the airlines/agencies concerned.

iv. Airlines to allow boarding by only those passengers who have filled in all the information in the Self Declaration Form on the Air Suvidha portal and uploaded the negative RT-PCR test report or Covid -19 vaccination certificate of having completed the primary vaccination schedule**.

v. At the time of boarding the flight, only asymptomatic travellers will be allowed to board after thermal screening.

vi. All passengers shall be advised to download Aarogya Setu app on their mobile devices On arrival

xi. De-boarding should be done ensuring physical distancing.

xii. Thermal screening would be carried out in respect of all the passengers by the health officials present at the airport. The self-declaration form filled online shall be shown to the airport health staff.

xiii. The passengers found to be symptomatic during screening shall be immediately isolated and taken to medical facility as per health protocol. If tested positive, their contacts shall be identified and managed as per laid down protocol#.

xiv. **The following protocol post arrival shall also be followed**

a. A sub-section (2% of the total passengers in the flight) shall undergo random post arrival testing at the airport on arrival.

b. Such travelers in each flight shall be identified by the concerned airlines (preferably from different countries). They will submit the samples and shall be allowed to leave the airport.

c. If such travellers are tested positive, their samples should be further sent for genomic testing at INSACOG laboratory network.

d. They shall be treated/isolated as per laid down standard protocol.

xv. All travellers will self-monitor their health for next 14 days of arrival.

xvi. If travellers under self-health monitoring, develop signs and symptoms suggestive of COVID-19, they will immediately self-isolate and report to their nearest health facility or call National helpline number (1075)/ State Helpline Number.

* **Children under 5 years** of age are exempted from both pre- and post-arrival testing. However, if found symptomatic for COVID-19 on arrival or during the period of self-monitoring period, they shall undergo testing and treated as per laid down protocol.

		<p>List of Countries which have agreement with India on mutual recognition of vaccination certificates of Nationally recognized or WHO recognized vaccines. Similarly, there are Countries which presently do not have such an agreement with India, but they exempt Indian citizens fully vaccinated with Nationally recognized or WHO recognized vaccines. On the basis of reciprocity, the travelers from only such Countries which provide quarantine-free entry to Indians will be allowed for relaxation under Certificate of completing full primary vaccination schedule of COVID-19 vaccination.
