This type of passengers must book online, before being accepted on board EgyptAir flights, for repeat Covid-19 PCR test on days 2 and 7 upon arriving Nigeria. <u>This requirement however doesn’t apply to passenger below 18 years of age</u> 4- All inbound passengers MUST register via the online Nigerian International Travel Portal https://nitp.ncdc.gov.ng/ To get the QR code or the Permit to Travel which is Mandatory and MUST be presented at the check in counter before being accepted on board EgyptAir flight to LOS. Only the partially vaccinated and the non-vaccinated passengers will pay for the two post arrival PCR tests Online. 5- Airlines who will fail to comply with all the pre boarding requirements shall attract a penalty of 3500 USD per passenger. <p><u>A. PRE-DEPARTURE FROM COUNTRY OF EXIT:</u></p> <p><u>I. Pre-Boarding:</u></p> <ul style="list-style-type: none"> Travelers MUST perform a COVID-19 PCR test not more than 2 days (48 hours) before boarding/departure. PCR tests done more than 48 hours before departure are not valid and persons will not be allowed to board. Rapid antigen or antibody test are not acceptable; only PCR tests can be used for this purpose. Test validity commences from the time of sample collection. For Travelers with multiple connections before arrival in Nigeria, the PCR test must be valid within 48 hours of boarding from the first point of departure. Travelers must bring along an electronic or hard copy of their negative COVID- 19 PCR test for presentation at the departure airport and upon arrival in Nigeria. A record of their vaccination status will also be required on arrival in Nigeria. |
|---|---|

| | |
|--|--|
| | <ul style="list-style-type: none"> • All intending Travelers (including diplomats and children less than 10 years old) MUST register via an online national travel portal (Nigeria International Travel Portal – https://nitp.ncdc.gov.ng) and proceed to fill in the online Health Declaration/ Self-Reporting form located on the portal. They should ensure that the information/contact details provided on the form are correct and verifiable. Travelers must provide valid phone numbers, residential addresses, and functional e-mails where they can be contacted. Travelers must also inform Port Health officials on arrival of any change in their health status since completion of the Health Declaration/Self-Reporting Form. • After filling the online Health Declaration/Self-Reporting Form, Travelers will be directed to upload their negative COVID-19 PCR test on to the portal. Only children less than 10 years old are exempted from uploading a pre-arrival negative COVID-19 PCR test result. Once this is successfully done, Travelers will proceed to the payment section of the travel portal. Only Children less than 10 years are exempted from payment for the repeat test in Nigeria. Travelers are advised to still bring along an electronic or hard copy of their negative COVID-19 PCR test for presentation at the airport. <p>➤ <u>For partially vaccinated and unvaccinated Travelers:</u></p> <p>On reaching the payment section of the portal, Travelers will be requested to select their preferred Laboratory/Sample Collection Centre based on where they will be self-isolating for the period of 7-days in Nigeria. A list of accredited private laboratory providers/Sample Collection Centers across the country are available on the payment platform. The next stage is to choose a bank payment gateway and then proceed to pay for the Day 2 (arrival day + 1 day) and Day 7 (arrival day + 6 days) in-country COVID-19 PCR tests. Please note that Travelers paying in Naira should use cards issued by a Nigerian bank.</p> <p>➤ <u>For fully vaccinated Travelers:</u></p> <ul style="list-style-type: none"> • On reaching the payment section of the portal, Travelers will be requested to select their preferred Laboratory/Sample Collection Centre based on where they will be located 2 days after arrival in the country for the Day 2 test (arrival day + 1 day). A list of accredited private laboratory providers/Sample Collection Centers across the country are available on the payment platform. The next stage is to choose a bank payment gateway and then proceed to pay for the Day 2 in-country COVID-19 PCR test. A record of their vaccination status will also be required on arrival in Nigeria. • Following successful payment, Travelers should download the Permit to Travel Certificate/ QR Code using the “Get Permit to Travel” button visible at the top right corner of the portal, save and print the form for presentation at the point of boarding. The Permit to Travel Certificate/ QR code will have a “PAID” label if payment is successful and “UNPAID” label if payment had not gone through yet or is unsuccessful. Any passenger with an “UNPAID” label will not be allowed to travel. A copy of the Permit to Travel Certificate/QR Code will also be sent to the email address provided by the traveller. |
|--|--|

II. Boarding:

1. Prior to boarding for Nigeria, Travelers **MUST** present **TWO** documents at their point of departure to be allowed to board.
 - a. A **negative COVID-19 PCR** test done within 2 days (**48 hours**) of departure. Airlines have been directed not to board Travelers with non-PCR COVID-19 tests (such as antigen or antibody tests), a positive COVID-19 PCR test result, or tests performed beyond 48 hours of boarding; and
 - b. **Permit to Travel Certificate/QR Code** - generated from the Nigeria International Travel Portal on completion of a health questionnaire, uploading of a negative COVID-19 PCR result and schedule of PCR tests on Days 2 and 7 on arrival in Nigeria. Travelers failing to show a Permit to Travel Certificate/QR Code will not be allowed to board.
2. Airlines that board Travelers without any of the required documents (a negative COVID-19 PCR test done not more than 48 hours prior to boarding and a Permit to Travel Certificate/QR code, shall be sanctioned as follows:
 - a. Travelers, who are non-Nigerians, will be refused entry and returned to the point of embarkation at cost to the airline
 - b. Travelers who are Nigerians or holders of permanent resident permit will be allowed entry but subjected to the procedure outlined in Section D below. In addition, **Travelers arriving with forged (fake) COVID-19 PCR results will be escorted to a designated quarantine facility (government approved hotel) for a mandatory quarantine for a period of 7 days at expense to the traveler and will be prosecuted.**
 - c. Airlines shall be fined **USD 3,500** per traveler for failure to comply with any of the preboarding requirements.
 - d. Airlines who consistently fail to comply with the above requirements may be banned from coming to Nigeria.
3. At the time of boarding, Travelers will be required to undergo temperature screening and asked about COVID-19 symptoms. Travelers with temperature $>38^{\circ}\text{C}$ and other COVID-19 related signs and symptoms shall not be allowed to board the flight.

B. ON ARRIVAL IN NIGERIA

- All Travelers are required to strictly adhere to instructions given by Port Health Services at the arrival terminal. Travelers who fails to adhere to instructions will be sanctioned by relevant security personnel.

All Travelers arriving in Nigeria will be required to:

1. Go through the routine Port Health screening and present electronic or print-out evidence of **preboarding COVID-19 PCR test, Permit to Travel Certificate/ QR Code; and Vaccination Certificate (where applicable);** and
2. Present their international passports for clearance through the Nigerian Immigration Service System's Migrants Identification Data Analysis System (MIDAS).

For partially vaccinated and unvaccinated in-bound Travelers:

- Proceed on **mandatory** 7 days self-isolation/quarantine in their selected in-country destination address. Travelers are to avoid physical interaction with friends, family members, colleagues, and other members of the public during the period of self-isolation. Travelers should check their emails/text messages regularly for updates regarding the arrangement for their repeat COVID-19 PCR test from the laboratory of their choice. During this period the traveler may be contacted by the COVID-19 Response team to ascertain state of self-isolation, Days 2 & 7 testing appointment and health status.
- Show-up at the laboratory/sample collection centers on the **2nd and 7th day of arrival**. Samples will be taken, and a COVID-19 PCR test done. The selected private laboratory will send a reminder text message, email, or phone call to the traveler a day before the appointment date.
- Persons who test negative for COVID-19 after 7 days of self-isolation/quarantine will be allowed to exit self-isolation on receipt of their result.

For fully vaccinated in-bound Travelers:

Show-up at the laboratory/sample collection centers on the **2nd day of arrival**. Samples will be taken, and a COVID-19 PCR test done. The selected private laboratory will send a reminder text message, email, or phone call to the traveler a day before the appointment date.

C. NOTE:

- a. Travelers who fails to show up at the sample collection centers on Days - 2 and 7 of arrival (as applicable) will be sent text reminders and their details forwarded to the State Public Health Department teams and Nigeria Centre for Disease Control (NCDC) for active follow-up.
- b. Travelers who fails to show up for testing will have travel restrictions placed on their passports for at least 6 months and will not be able to travel abroad during this period. Non-Nigerian passport holders will have their visas revoked and will be deported from the country.
- c. Test results will be provided within 24 hours and the State Public Health Departments & NCDC will be informed; accordingly, if test result is not received after 24hrs, the traveller may contact the private Laboratory for his/her test result.
- d. Partially vaccinated or unvaccinated persons who test negative for COVID-19 after 7 days shall end self-isolation on receipt of a negative test result but must continue to self-monitor for symptoms until Day 14; and **MUST** continue to observe Non-Pharmaceutical Intervention measures (e.g., wearing face mask, maintaining social distance, regular washing of hands and use of alcohol-based hand sanitizers);
- e. Fully vaccinated persons who test negative for COVID-19 after the post-arrival Day 2 test **MUST** continue to observe Non-Pharmaceutical Intervention measures (e.g., wearing face mask, maintaining social distance, regular washing of hands and use of alcohol-based hand sanitizers);

| | | |
|---|-----------------------|--|
| | | <p>f. Travelers reporting or developing symptoms of COVID-19 on arrival in Nigeria, or during screening will not be allowed to self-isolate and will be placed in institutional quarantine; and</p> <p>g. Persons who test positive for COVID-19 after the post-arrival Days 2 and 7 test (as applicable) shall be managed based on national guidelines for COVID-19 treatment.</p> <p><u>D. PROCEDURE FOR TRAVELERS ARRIVING WITHOUT A VALID PCR RESULT:</u></p> <ul style="list-style-type: none"> Any traveler arriving in Nigeria without a valid COVID-19 PCR result (i.e., no COVID-19 PCR test result, a forged COVID-19 PCR test result or COVID-19 antigen or antibody test result) will be subjected to the following measures: <ol style="list-style-type: none"> If holding foreign passport and non-resident in Nigeria, the traveler will be denied entry into the country and returned to the point of embarkation at cost to the airline. For Nigerians and foreign passport holders with residency rights: <ol style="list-style-type: none"> Port Health Services will screen the traveler to include a temperature check and review of health questionnaire to establish infectivity risk; Traveler will be escorted by Port Health Services and security personnel to a designated quarantine facility (government approved hotel) for a mandatory quarantine for a period of 7 days at expense to the passenger; Traveler's passport will be collected by relevant authorities and will not be released to him/her until after successful completion of mandatory quarantine period; and A COVID-19 PCR test will be conducted by a designated private laboratory within 24 hours of arrival at the quarantine facility at expense to the passenger. If the test result is Positive for COVID-19, the passenger will be transferred to an isolation facility and managed according to National treatment guidelines. If test result is negative, passenger will CONTINUE with mandatory isolation at the quarantine facility until a satisfactory Day-7 COVID-19 PCR test is done. <p><u>II. GUIDELINES FOR OUTBOUND PASSENGERS</u></p> <p>All passengers travelling out of Nigeria are required to provide:</p> <ol style="list-style-type: none"> Evidence of full COVID-19 vaccination, or A negative COVID-19 PCR test done no longer than 48 hours before departure. |
| 7 | <u>TUNISIA</u> | <ul style="list-style-type: none"> <u>Effective from 26th February 2022:</u> <ol style="list-style-type: none"> <u>Fully Vaccinated foreigners</u> (over 18 years of age) travelling to Tunisia who are in possession of a vaccination certificate showing completion of vaccination against SARS-CoV-2 virus for a period not less than 28 days for JANSSEN vaccination and for a period of 7 days for the rest of the vaccinations are exempted from presenting the Negative PCR test certificate. <u>(Non-vaccinated / Not fully Vaccinated)</u> foreigners (over 18 years of age) travelling to Tunisia must be in possession of <u>(Negative PCR test certificate not exceeding 48h OR Rabid test not exceeding 24h)</u>, |

| | | |
|---|------------------------|---|
| | | <p>3- <u>Foreigners UNDER 18 years of age</u> travelling to Tunisia are exempted from PCR test certificate and vaccination certificate.</p> <ul style="list-style-type: none"> Those passengers may be subjected to random (Rapid test / PCR test) upon arrival. <p>4- Passengers are <u>NOT</u> obliged any more to complete the health form through the site https://app.e7mi.tn</p> |
| 8 | <u>ETHIOPIA</u> | <ol style="list-style-type: none"> Any international traveler above the age of twelve coming through international airports of the country shall bring a certificate of negative RT PCR test done up to 72 hours or three days before departure or Antigen- RDT negative test up to 24 hours before arriving to Ethiopia. The traveler shall enter the country if he/she has a certificate of recovery from COVID-19 within 90 days or if he/she has completed the COVID-19 vaccine in full and provides evidence. If transit passenger entering through international airports of the county don't enter the city or don't leave his/her hotel designated by the airline, sub article 1 and 2 does not apply on him/her. Whereas if he/she is to enter the city leaving the airport or hotel designated by the Airline, sub article 1 and 2 above shall apply or shall be tested negative with Antigen-RDT done at the airport or hotels designated by the airlines. If the traveler is a diplomat and fails to fulfill the requirements provided under sub-article 1 and 2 of this article, he/she shall be tested at the airport and enter the country. Whereas if the test result is positive or if he refuses for test, he/she shall self-isolate for 7 days. A returnee may enter the country by taking Antigen-RDT test at the airport if he does not fulfill the requirements provided under sub article 1 and 2 of this article. If the test result is positive, he/she shall be followed up in accordance with the relevant protocol. Any person who is coronavirus positive is prohibited from entering the country. <p><u>N.B:-</u></p> <ul style="list-style-type: none"> The COVID-19 RT-PCR test result certificate taken/issued in Ethiopia for travel from Ethiopia is not allowed to be used on the return flight. “Full vaccination” means 2 weeks after taking of the single dose of Johnson and Johnson, and 2 doses for Astra Zeneca, Sinopharm, Sinovac, Moderna, and Pfizer. “Recovery” refers to declaration of an individual free from COVID-19 which is decided according to the health professional on time based, symptom based and test based criterions. If a patient is asymptomatic, he will be declared recovered 7 days after the day of sample collection for RT PCR test which turned positive or the day of positive Antigen RDT test. If a patient is symptomatic, he will be declared recovered after minimum of 7 days from the date of start of symptoms and additional 3 days without symptoms. With immediate effective, passengers arriving and departing to and from Ethiopia are recommended to use the PanaBIOS electronic System to verify their negative COVID-19 certificate in line with the Africa CDC Trusted Travel electronic verification rules and guidelines available here: www.africacdc.org/trusted-travel |

| | | |
|---|------------------------------|---|
| | | <ul style="list-style-type: none"> • Passengers should use the same email address he/she gave to the lab in signing up for an account to use the PanaBIOS system at: trustedtravel.panabios.org • If passengers are departing from countries where a PanaBIOS registered lab (Trusted Lab) is not present, they can upload their Printed COVID 19 certificate by visiting www.globalhaven.org and signing up for an account. They can also do so at trustedtravel.panabios.org • The process of uploading passengers' certificate can be initiated by clicking the "check in" button on the dashboard after logging in at www.globalhaven.org or trustedtravel.panabios.org. passengers will then be able to generate a Trusted Travel Code(TT Code) that is automatically integrated with Panabios Electronic System. • Should passengers encounter any difficulties, they can reach out for support at: globalhaven@panabios.org |
| 9 | <u>GHANA</u> | <p>Effective 01st September 2022:</p> <ol style="list-style-type: none"> 1. <u>Pre- Arrival Processes</u> - Travelers intending to enter Ghana <ol style="list-style-type: none"> a. All international passengers including those from the ECOWAS region, intending to fly to Ghana, will be required to be fully vaccinated. b. All International passengers including those from the ECOWAS region must complete a Port Health Declaration Form at https://www.ghs-hdf.org/hdf/ before embarkation of flight to Ghana. 2. <u>Arriving Passengers</u> - Travellers Entering Ghana <p><u>Ghanaians and Foreign Residents</u></p> <ol style="list-style-type: none"> A. 18 years and above arriving in Ghana will be required to provide evidence of full vaccination for a COVID-19 vaccine at the point of embarkation and upon arrival at Kotoka International Airport (KIA). b. Fully vaccinated will be exempted from pre-departure COVID-19 PCR testing from point of embarkation. c. Fully vaccinated will be exempted from COVID-19 testing upon arrival at the KIA. d. Partially vaccinated or unvaccinated will be required to present a NEGATIVE 48hrs PCR test result to the airline before embarkation and upon arrival. e. Partially vaccinated or unvaccinated will undergo COVID-19 testing at the KIA upon arrival. f. Partially vaccinated or unvaccinated will be undergo COVID-19 vaccination at KIA upon arrival. <p><u>Ghanaians and Foreign Residents</u></p> <p><u>Non-Ghanaians:</u></p> |

- a. At the point of embarkation must provide evidence of full vaccination status to the Airline prior to embarkation. (Airlines that board non-Ghanaians without evidence of full vaccination will be considered to have violated the COVID-19 guidelines for Ghana and shall be fined \$3,500.00)
- b. Travelling to Kotoka International Airport with fake or forged vaccination certificates shall be quarantined and returned to the point of embarkation at their own cost.

All Arriving passengers will undergo temperature screening, Yellow Fever Card verification and COVID-19 vaccination certificate verification as required

There are exemptions to the entry ban, for example for people travelling from a safe country or people with proof of vaccination or proof of recovery. This proof of vaccination or recovery must meet certain requirements. From 23 March 2022 people travelling to the Netherlands no longer need to show a negative test result</p> <p><u>-EU entry ban exemption categories</u>A-No entry ban for travellers from safe countries</p> <p>List of safe countries and areas</p> <p>The following countries and areas outside the EU/Schengen area are designated safe:</p> <ul style="list-style-type: none"> • Bahrain • Chile • China, mainland (the EU entry ban will apply to China until China lifts entry restrictions on European travellers) • Colombia • Hong Kong SAR • Indonesia • Kuwait • Macau SAR • New Zealand • Peru • Qatar • Rwanda • Saudi Arabia • South Korea |

- Taiwan
- United Arab Emirates
- Uruguay

EU entry ban for countries and areas not on the safe list An EU entry ban applies to travellers from countries and areas outside the EU/Schengen area that are not on the safe list. If the purpose of your trip is on the list of exemption categories on this page, you can travel to the Netherlands. You can also travel to the Netherlands if you have valid proof of vaccination or proof of recovery. This proof of vaccination recovery must meet certain requirements **B-Recovered from coronavirus**

If you are a resident of [a country that is not on the list of safe countries](#) and you have recovered from COVID-19, you may be exempt from the EU entry ban. You can enter the Netherlands if:

- you recovered from COVID-19 at least 11 days ago; and you have proof of recovery: that is valid for a maximum of 180 days; and that was issued by a country taking part in the EU Digital COVID Certificate (DCC) scheme. [See the list of participating countries.](#)

Proof of recovery from other countries will not be accepted. This exemption does not apply to travellers from China for as long as China continue to impose travel restrictions on travellers from Europe.

Documents required for entry into the Netherlands If you meet the conditions for admission to the Netherlands after recovering from COVID 19, you must present the following documents at border control:

a [completed recovery declaration](#) (only for travellers aged 18 or over from non-Schengen countries);
[proof of recovery](#) recognised by the Netherlands;
 proof you have booked a return journey (a return airline, coach or train ticket);
 a visa (if required).

C-Fully vaccinated

If you are 12 years or older, a resident of a country that is not on the list of safe countries and fully vaccinated, you are exempted from the EU entry ban. You can enter the Netherlands if you have valid [proof of vaccination](#) showing that you have been fully vaccinated with a vaccine approved by the European Medicines Agency (EMA) or the World Health Organization (WHO). Children under 18 travelling with their fully vaccinated parent(s) or legal guardian(s) do not have to be vaccinated themselves.

This exemption does not apply to travellers from China until China lifts entry restrictions on European travellers.

Documents to be shown at the Dutch border

If you meet the conditions above and travel to the Netherlands, you will need to show the following documents to the Dutch border authorities:

- a [completed 'Vaccine Declaration COVID-19' form](#);
- [proof of vaccination accepted by the Netherlands](#);
- proof of your return journey (return ticket issued by airline, bus company or railway company);
- a visa (if you require a visa).

Travellers aged 12 and over from outside the Schengen area must complete a vaccination declaration. Children under the age of 18 travelling with their vaccinated parent(s) or legal guardian(s) are exempt from this requirement.

[D-Nationality and right of residence](#)

You are a national of an EU or Schengen area country. Your family members may also travel to the Netherlands if they are travelling with you or are joining you in the Netherlands. [Read the rules for family members](#). Please note: the United Kingdom (UK) is not part of the EU/Schengen area. **You are a national or resident of one of the following countries: Norway, Iceland, Switzerland, Liechtenstein, Monaco, Andorra, San Marino or Vatican City.** Your family members may also travel to the Netherlands if they are travelling with you or are joining you in the Netherlands. Read the rules for family members and [check whether they need a visa](#). **You are a national of a non-EU country and have a residence card or a residence permit in accordance with Directive 2003/109/EEC (concerning long-term residents).** Your family members may also travel to the Netherlands if they are travelling with you or are joining you in the Netherlands. Read the rules for family members and [check whether they need a visa](#). **You are a national of a non-EU country, and derive your right of residence from other EU directives or the national law of a Schengen area country.** Your family members may also travel to the Netherlands if they are travelling with you or are joining you in the Netherlands. Read the rules for family members and [check whether they need a visa](#).

You have a long-stay visa ([authorisation for temporary stay 'MVV'](#)).

You hold a letter of notification from the Immigration and Naturalisation Service for long-term stay.

You have a valid residence permit for the Netherlands. Your family members may also travel to the Netherlands if they are travelling with you or are joining you in the Netherlands. Read the rules for family members and [check whether they need a visa](#). **E-Study, knowledge and research**

You are a student and are coming to the Netherlands for a short stay of less than 3 months. And you need to have proof of enrolment at an educational institution which is recognised by the IND as a host organisation (referred to as a 'recognised sponsor' by the IND).

You are a highly skilled migrant, and are coming to the Netherlands for a short stay (less than 3 months).

You have a Dutch employment permit or proof of the work to be carried out.

You are a researcher or scientist who falls under the [exemptions to the entry ban for researchers](#).

F-For work

You are a key worker or have an essential role: care worker, doctor or nurse.

You are a cross-border commuter.

You are a seasonal worker.

You work in the transport sector:

- transport of goods
- container ships
- bulk carriers (e.g. transporting ore or coal)
- tankers (e.g. transporting fuels and chemicals)
- fishing boats.
- You work in the energy sector:
 - on an oil or gas platform
 - at an offshore wind farm
 - for an off-shore company that provides services to this sector.

You are a professional providing urgent technical assistance in a crucial sector and your specialist knowledge and physical presence are required

You are part of a flight crew.

You are a seafarer in possession of a seafarer's record book. This does not include seafarers on commercial yachts and pleasure crafts.

You are a seafarer on a commercial vessel with a length of 24 metres or more.

You are a diplomat.

You have a service passport and need to travel to carry out your duties.

You are a member of the armed forces and need to travel to carry out your duties.

You work for an international and/or humanitarian organisation.

You are a journalist as defined in the framework for applying the [exemption for journalists](#).

You are an elite athlete as defined in the framework for applying the [exemption for elite athletes and their support staff](#).

| | |
|--|--|
| | <p>You are a researcher as defined in the framework for applying the exemption for researchers.</p> <p>You are a business traveller as defined in the framework for applying the exemption for business travellers.</p> <p>You are a professional in the cultural and creative sector</p> <p>G-Compelling reasons to visit your family</p> <p>You have compelling reasons to visit your family. This is only possible in truly exceptional cases, such as: visiting a seriously ill or terminally ill family member or attending a funeral. You must be a family member in the first or second degree (as defined in Dutch law). You must fill in a Declaration of exemption from COVID-19 entry ban. coming to the Netherlands to be with your legal partner when they give birth. If you are not legally married, you must have acknowledged paternity or parentage of the unborn child. You must also be able to prove, with a letter from the gynaecologist or the obstetrician, that your partner is more than 34 weeks pregnant. visiting your grandchild or great-grandchild. From 00.01 on 16 September 2021 all grandparents and great-grandparents visiting grandchildren or great-grandchildren aged under 18 are exempt from the EU entry ban. This used to only be the case if you were visiting a newborn grandchild or great-grandchild. You must fill in a Declaration of exemption from COVID-19 entry ban for visiting a grandchild or great-grandchild.</p> <p>you are a divorced parent from a non-EU country and you want to visit your child who lives in the Netherlands. You must fill in a Declaration of exemption from COVID-19 entry ban for visiting your child as a divorced parent</p> <p>H-Transit, transfer</p> <p>You are travelling through the Netherlands to a non-EU/Schengen area country. You must prove that you have a connecting flight to a country outside the Schengen area. The connecting flight must depart within 48 hours of your arrival at the airport. You must not leave the airport's international transit zone in this period. Please note: the United Kingdom (UK) is not part of the EU/Schengen area.</p> <p>You are travelling to an EU country/Schengen area country via the Netherlands. You must be able to show you have permission to enter the EU country/Schengen country in question. You can do this with a note verbale from that country's embassy, for example, or another type of document that proves you can travel there. If you do not have such a document, the Dutch border authorities will determine whether you may travel via the Netherlands. Without a document showing you have permission to enter the EU country/Schengen country in question, you are advised to fly there directly and not via the Netherlands. If you will be making a short stop at a Dutch airport you may need an airport transit visa. This depends partly on your nationality. The Visa Advisor tool helps you determine whether you need an airport transit visa. Please note: the United Kingdom (UK) is not part of the EU/Schengen area.</p> |

4- FAR EAST & ASIA

| No. | Country | Instructions & Restrictions |
|-----|--------------|--|
| 1 | <u>CHINA</u> | <ul style="list-style-type: none"> • <u>Effective 12th July 2022, quarantine before traveling to China is cancelled.</u> all procedures and tests will be followed up by the airline and approvals for passenger to travel will be advised to the airline not the passenger • All transit passengers traveling through Cairo must carry a green code from their origin country and make sure its validity until the departure time. • All passengers traveling to China should strictly implement the testing requirements (Refers to Chinese Embassy announcement: https://mp.weixin.qq.com/s/vw2GPvG6mt8Agijys9XyJA), the first PCR test must be within 48 hours before boarding, and the sampling time of the second test must be within 24 hours before boarding. • On the base of a comprehensive evaluation of the capacity level and quality of the local PCR testing institutions, the airline has coordinated with three PCR testing institutions EGYPTAIR Hospital laboratory, Life vision Lab (LV Lab) and Sansure biology and al mokhtabar testing center. Provide the PCR testing services for the passengers to reach the time-limited requirements. <p>Updated of vaccination document ;</p> <ul style="list-style-type: none"> • PCR valid within 48 hrs ; • Hotel Quarantine of 7 days same as HKG Residents • Effective from 15th June 2022, persons who hold a vaccination record issued by relevant authorities of Bahrain, the Dominican Republic, Egypt or Mauritius in the prescribed format can board a flight for Hong Kong from overseas places. The vaccines administered for the relevant travellers have to be vaccines listed on the Government's List of COVID-19 Vaccines Recognized for Specified Purposes. <p><u>Effective April 1st 2022</u></p> <p>1) Passengers travelling from the nine <u>place –specific suspension mechanism countries</u>” Australia, Canada, France, India, Nepal, Pakistan, the Philippines, the United Kingdom and the United States of America”:-</p> <ul style="list-style-type: none"> • Government will lift the place-specific flight suspension mechanism for the aforementioned nine places from April 1. This is on the premise that the returning Hong Kong residents would still have to undergo compulsory quarantine in designated quarantine hotels (DQHs) under the measures guarding against the importation of cases, while the route-specific flight suspension mechanism would continue to be applicable with suitable adjustments. <p>2) Passengers travelling from overseas places:-</p> <ul style="list-style-type: none"> • <u>Hong Kong</u> |

- **Starting from 26 September 2022**
- the lifting of compulsory quarantine requirement for inbound persons from overseas places or Taiwan
- A declaration of the negative result of a self-arranged rapid antigen test (RAT) conducted within 24 hours prior to the scheduled time of departure should be made via the online Health & Quarantine Information Declaration of the Department of Health
- Boarding requirement of having completed vaccination for Hong Kong residents will be lifted. Non-Hong Kong residents aged 12 or above will still be required to be fully vaccinated or have obtained a medical exemption certificate before they are allowed to board a flight for Hong Kong
- Test-and-go" arrangement will be implemented at the Hong Kong International Airport, i.e. inbound persons will not be required to wait for the test result at the airport after undergoing specimen collection for the nucleic acid test. They can take public transport or self-arranged transport to return to their home or their hotel of choice.
- Quarantine arrangement upon arrival at Hong Kong will be changed to "0+3", i.e. no compulsory quarantine will be required. There will be three days of medical surveillance during which inbound persons are free to go out but are obliged to comply with Amber Code restrictions under the Vaccine Pass, followed by a four-day self-monitoring period, making it a 7-day observation period in total
- Nucleic acid tests at community testing centers, mobile testing stations or other recognized n bound persons will still be required to complete the online Health & Quarantine Information Declaration of the Department of Health (www.chp.gov.hk/hdf/) in advance, including declaration of vaccination records and the results of pre-departure RAT. They are also required to present the green health declaration QR code generated upon completion of declaration (which can be a downloadable version of the QR code, a screen shot or a printout) at check-in for verification by airlines for boarding. The health declaration QR code will still be valid for 96 hours, i.e. inbound persons can submit the declaration form as early as three days before their scheduled arrival time in Hong Kong (for instance, a person arriving at Hong Kong on Monday may submit declaration form starting from Friday). They can then save the time by further updating the declaration after obtaining the negative result of a RAT.
- institutions on Day 2, Day 4 and Day 6 (the day of arrival is Day 0) will be required upon arrival at Hong Kong, supplemented by daily RATs from Day 1 to Day 7.
- For inbound persons who are tested positive by nucleic acid tests or RATs, their Vaccine Pass will be converted to a Red Code. Their isolation arrangements will be aligned with that for local cases.

Testing arrangements

Inbound persons from overseas places or Taiwan are subject to multiple tests after arrival at Hong Kong

- Day 0: nucleic acid test at the airport;
- Day 2, Day 4 and Day 6: after obtaining a negative result of RAT on respective days, inbound persons should undergo nucleic acid test at a community testing center or a mobile specimen collection station, or arrange a self-paid test by professional swab sampling at a local medical testing institution recognized by the Government; and
- During medical surveillance and self-monitoring periods, inbound persons are subject to daily RAT until Day 7 of arrival at Hong Kong.

The handling arrangements for persons testing positive will be aligned with that for local cases, and their Vaccine Pass will be switched to Red Code. Relevant persons should provide information to the Centre for Health Protection through the online platforms (for [nucleic acid tests](#) or [RATs](#)). For further details, please refer to the [webpage on Points to Note for Persons who Tested Positive](#).

- Inbound persons from the **Mainland or Macao** will not be required to undergo home quarantine after arriving at Hong Kong. However, they will still need to undergo nucleic acid test on Day 2 and be subject to self-monitoring in the three days after arrival at Hong Kong. For persons who arrived at Hong Kong earlier and are undergoing home quarantine, they will no longer be required to undergo home quarantine.
- **Persons travelling from Hong Kong to the Mainland or Macao** are still subject to the special testing arrangement to undergo an additional free rapid nucleic acid test prior to their departure via land boundary control points or the airport. Only those who received a negative result can continue with their journeys.

- **Note:**

-For the purpose of inbound boarding requirements, fully vaccinated generally involves receiving two doses of the Sinovac COVID-19 vaccine (CoronaVac vaccine) or the Fosun Pharma/BioNTech COVID-19 vaccine (Comirnaty vaccine) at least 14 days before coming to Hong Kong. Persons previously infected with COVID-19 who have received one dose of COVID-19 vaccine can be considered fully vaccinated. As for persons aged between 12 and 17 on the scheduled day of departure for Hong Kong, they may be deemed to have completed the COVID-19 vaccination course on receiving one dose of the Comirnaty vaccine.

-For individuals who received COVID-19 vaccines in places outside of Hong Kong and have received the required dose(s) as stipulated in the List of COVID-19 Vaccines Recognized for Specified Purposes (listed vaccines) at least 14 days prior to arrival at Hong Kong; or for those who received a combination of doses of listed vaccines, receiving a combined number of doses of the listed vaccines equivalent to the recommended number of dose(s) of one of the listed vaccines received, whichever higher the number is applicable (except

| | | |
|---|------------------------------|---|
| | | <p>in the case that the recommended dosage of one of the listed vaccines received is "1"), they will also be regarded to have completed the vaccination course of the relevant COVID-19 vaccine.</p> <p>-For the purpose of boarding requirements, relevant persons who are fully vaccinated, as well as children under 12-year-old accompanied by them, can board for Hong Kong. In addition, persons who are unfit for vaccination due to health reasons with relevant proof from a medical practitioner; or have received one dose of recognized COVID-19 vaccine, if they were certified by a medical practitioner that they were unfit to receive the second dose of COVID-19 vaccine because of health reasons after receiving the first dose of vaccine are also allowed to board flights for Hong Kong. The relevant medical certificate must indicate the relevant health reasons in English or Chinese</p> |
| 2 | <u>JAPAN</u> | <ul style="list-style-type: none"> • <u>Effective 1st March 2022,</u> <ul style="list-style-type: none"> • Foreign passengers (Non-residents) who are travelling to Japan for non-tourism purposes (Students / Businessmen) are allowed to enter. • Quarantine period for passengers coming from countries affected by Omicron (Egypt is including) is 7 days and can be shortened to be 3 days if the passenger is in possession of (a valid vaccination certificate / Negative PCR test. • Japanese government announced (on 26th May 2022) that countries are divided into 3 categories (Red/ Yellow / Blue) Egypt is categorized in Yellow. <ul style="list-style-type: none"> • Passengers arriving from Egypt who are vaccinated 3 times or more are exempted from quarantine. • Passengers arriving from Egypt who are vaccinated less than 3 times will be home quarantined for 7days (passenger will undergo to a PCR in the third day to shorten the home quarantine if the PCR result is negative). • All passengers arriving to Japan are required to install the following applications on their smart phones (OSSMA / Skype / COVID-19 Contact Confirming Application). • <u>The airport quarantine will check your smartphone when you arrive in Japan. If you do not own a smartphone or if you own a smartphone that does not allow the installation of apps, please rent a smartphone at the airport at your expense upon arriving in Japan.</u> • All passengers must submit a copy of this “Written Pledge” to the airport quarantine office when entering Japan <ul style="list-style-type: none"> • Passengers who stayed in (the UK, South Africa, Ireland, Israel, Brazil, United Arab Emirates, Italy, Austria, Netherlands, Switzerland, Sweden, Slovakia, Denmark, Germany, Nigeria, France, |
