"Those passengers will be isolated in

		their hotels till the PCR test result is received and "In case the PCR is positive, passenger will be self-isolated in his / her room at the hotel and to coordinate with the Egyptian Ministry of health". • **PCR test certificate EXPIRES as soon as the passenger used it to travel outside Egypt (as it can't be used again to return back)** • In the event of violating the above-mentioned procedures, the necessary legal measures will be taken against EgyptAir. **QUARANTINE:** • Passengers coming to Egypt will be followed up for 14 days by The Quarantine Authorities and Ministry of Health Offices
2	**Qatar**	**Effective from 15th February till 30th April 2021 (23:59EST),** • **Inbound flights are suspended due to COVID-19 infection prevention; this restriction doesn't affect for the following flights; (flights with transfer passengers / flights with Qatari nationals / flights with Qatari residency permit holders)** • **Effective from 18th January 2021, Flights between Cairo and Doha will be resumed.** • All passengers arriving to Qatar must install "EHTERAZ" application on their cell phones. **First: Countries in "the Green List**: (Oman / Brunei Darussalam / Thailand / China / Vietnam / Malaysia / South Korea / Singapore / Japan / Myanmar / Maldives / Australia / New Zealand / Mexico / Cuba / Mauritius / Iceland / Ireland): • Passengers arriving from "Green Countries" countries are accepted on board flights heading to Hamad International Airport, and must be informed about the following: 1- Passengers will be required to do **a PCR test upon arrival to airport**. 2- Sign a commitment for **one-week self-quarantine (Home Quarantine).** 3- Passenger will proceed to one of the accredited health centers on the 6th day of his arrival to do the PCR test, and according to the test result, passengers will then follow the rest of procedures published on the Ministry of Public Health website. • Passenger will be exempted from doing the PCR test upon arrival to the Airport in case he is carrying a (COVID-19) Disease-Free certificate from an accredited medical Center from the country of his departure, provided that the date of this certificate do not exceed 48 hours prior to the travel time, then rest of above mentioned procedures to be followed **Second: Other Countries:** Which are other countries not included in the "Green list" and do not have accredited medical centers for COVID-19 test • Passengers arriving from such countries are accepted on board flights heading to Hamad International

Airport, and must be informed about the following:

1- To book a **quarantine Hotel** for **one week** through "**Discover Qatar**" website, before arriving to the state of Qatar.

2- Passenger will do a PCR test on day six of the Hotel Quarantine, and according to the test result, passengers will then follow the rest of procedures published on the Ministry of Public Health website.

- **For Qatari Nationals, their spouses, their husbands, their children, and companions' holders of permanent residency holders: -**

1- They can freely travel and return at any time, provided they are following the above-mentioned instructions according to the country they are coming from.

2- Passengers subject to the above-mentioned condition of Hotel-quarantine will be exempted from bearing the cost of the Hotel, in case they are having overseas medical treatment at state expenses, same as their registered companions, as well as officials on duty travels, since their sponsors will duly bear the hotel cost.

- **With reference to Residents**

1- They will be allowed to return to state of Qatar effective the 1st of August 2020, by getting a Return Permit through "Qatar Portal".

- **With reference to passengers requiring self-quarantine (Home Quarantine): -**

➢ Ministry of public health had identified categories of passengers that are requiring self-quarantine, regardless of the country of arrival, these categories are published through the Ministry of Public Health website.

Citizens, their Spouses and Children, Permanent Residency Holders, and GCC Citizens:

- Citizens, their spouses and children, permanent residency holders, and GCC citizens can return to the State of Qatar at any time, provided they adhere to the travel and return policy.
- Citizens, their spouses and children, permanent residency holders, and GCC citizens shall bear the cost of the hotel quarantine for a week, provided that the booking is made through "Discover Qatar."
- If the hotel quarantine conditions apply, the government will cover the costs for the hotel quarantine for patients receiving treatment abroad at the expense of the State, along with their escorts. The same applies to the employees who are on official missions.

Residents:

- Residents abroad may return to the State of Qatar, as of 1st August, by applying for an "Exceptional Entry Permit" through the "Qatar Portal" website.
- The employer should submit an "Exceptional Entry Permit" application for the company or institute's

employees electronically via the "Qatar Portal" website. A similar process applies to domestic workers.

- Residents who are currently in the State of Qatar and wish to travel and return will automatically receive an "Exceptional Entry Permit" upon departure. The resident or their employer will be able to printout the permit from the Ministry of Interior's website at any point after their departure. Requests will no longer need to be submitted through the "Qatar Portal" website. The permit will be available automatically upon registration of the resident's departure from Qatar. This service is not available for residents who are currently outside the State of Qatar. They are still required to get the "Exceptional Return Permit" via the "Qatar Portal" website if they wish to return to the State of Qatar.
- **Non-Qatari passengers** are exempted from the exceptional entry permit if they are sponsored by a Qatari Company and the owner of the company (Qatari) is travelling with them to Doha on the same flight

Important Notes:

First: Categories of passengers who can enter Qatar **without** "Exceptional Entry Permit":

1- Qatari Nationals, their spouses, their husbands, their children using their passports only, and their companions of domestic workers (on their personal sponsor or accompanied by one of their first-degree relatives).
2- GCC citizens (using their passports only), and any of their escorts either domestic workers or their first-degree relatives and GCC residents.
3- Holders of permanent residency.
4- Holders of diplomatic and administrative cards issued by ministry of foreign affairs. (protocol department).
5- US forces, NATO forces and their families who have accredited military cards and moving instructions. Military IDs and Movement orders.

Second: Categories of passengers that are required to **get** a prior "Exceptional Entry Permit":

1- Qatar residents, holders of Qatari documents, and visitors who have Exceptional Entry Permit issued by the supreme committee for crisis management.
2- Immediate Visa will be granted to new-born arrivals born outside the country till the age of 6 months, and must be accompanied at least with one of his parents who is resident in Qatar, provided that one of them is sponsored by the other, or both of them have a valid residency permits in state of Qatar, sponsored by

an enterprise, and have a prior exceptional entry permit.

3- Above mentioned visa will not be granted if the mother is sponsored by her father, or one of them is not a resident in the country.

Third: special conditions:

1- If the sponsor (head of the family) has an exceptional entry permit, then it includes his sponsored family members accompanying him, and domestic workers under his sponsorship as well.

2- If the resident is sponsored by an enterprise and is arriving accompanying the owner of the enterprise, then he can enter without a prior exceptional entry permit (must show the enterprise registry ID).

3- Only medical reports issued by governmental hospitals in the state of Qatar for identified diseases, or private hospitals are accepted since its accredited by the ministry of public health in Qatar.

4- All passengers arriving from/or through -transit- the UK, The Netherlands, South Africa & Denmark, they are all subjected to Hotel quarantine without any exemptions, **except the members of the foreign diplomatic missions and those who have diplomatic or administrative residences and IDs issued by the MOFA.**

5- Passengers arriving from green countries must stay at least 7 days in the green country, so they can be exempted from the Hotel Quarantine and subjected to Home quarantine.

6- The reasons for exempting the passenger from the hotel quarantine must be taken into consideration and make sure of their clarity when exempting the passenger. (**for example**: granting the passenger an exemption from the hotel quarantine due to the presence of children accompanied by him during the application, but it happens is that he travels alone, so a hotel quarantine procedure is applied.

7- To ensure that the hotel reservation statement booked via "Discover Qatar" website is authentic, by visiting the website, or to contact them, or show receipts for payment.

8- Residents of the state of Qatar: when changing the travel document, (the previous document must be in the traveller's possession) and the previous travel document must be expired, and in case of none of that happened the passenger must obtain a permit of passport loss through the competent authorities in the state of Qatar.

9- Domestic workers accompanying GCC citizens must be accompanied by the sponsor or by one of the first-degree sponsor's relatives and their residency is valid for a period of no less than 6 months in the country of residence. Their profession must be shown domestic worker or their equivalent and the travel document must be valid for a period not less than that of the residency permit.

- **Vaccinated Passengers:**
  - For (Qataris / Residents); Traveling family consisting of a couple one of them received the full vaccination and completed the required 14 days after the second dose while the other either did not receive

		the vaccine or received only one dose of the vaccine with a child below 2 years of age or pregnant (The one who received the full vaccination will be tested upon arrival at the airport and will be exempted from quarantine if result of test is negative, the other person will have to complete 7 day of HOME quarantine with the child) • For (Qataris / Residents); Traveling family consisting of a relative who has received the full vaccination and completed the required 14 days after the second dose and a mother who did not receive the vaccine or received only one dose of the vaccine with a child below 2 year of age or pregnant (The relative who received the full vaccination will be tested upon arrival at the airport and will be exempted from quarantine if result of test is negative, the mother will have to complete 7 day of HOME quarantine with the child. The mother MUST be living in the same address as the relative who is exempted from quarantine). • For (Qataris / Residents); Traveling family consisting of a father who received the full vaccination and completed the required 14 days after the second dose while the mother either did not receive the vaccine or received only one dose of the vaccine who is pregnant and/or with a child below 2 years of age and other children below 18 years of age (The father who received the full vaccination will be tested upon arrival at the airport and will be exempted from quarantine if result of test is negative, the mother will have to complete 7 day of HOME quarantine with the children) • For (Qataris / Residents); Traveling family consisting of a father who received the full vaccination and completed the required 14 days after the second dose while the mother either did not receive the vaccine or received only one dose of the vaccine who is pregnant and/or with a child below 2 years of age and other children below 18 years of age and children above 18 years of age with house maid (The father who received the full vaccination will be tested upon arrival at the airport and will be exempted from quarantine if result of test is negative, the mother will have to complete 7 day of HOME quarantine with the children (below 18 years) Children 18 and above will be required HOTEL quarantine with the house maid) • For (Qataris / Residents); Children below 18 years of age traveling with their relatives (grandparents, brothers or sisters, uncles or aunts) who received the full vaccination and completed the required 14 days after the second dose (The relatives who received the full vaccination will be tested upon arrival at the airport and will be exempted from quarantine if result of test is negative, the children below 18 years of age will have to do 7 day HOME quarantine). (Same procedure is applicable if the children are traveling with fully vaccinated parents) • For (Qataris / Residents); Children below 18 years of age traveling alone - If both parents have received full vaccination - Children will be required to do 7 day HOME quarantine. • For (Qataris / Residents / Visitors); Children below 18 years of age traveling alone - If both parents did not receive the vaccine OR one of the parents have received full vaccination while the other either did not

receive the vaccine or just one dose of the vaccine - Children will be required to do 7 day HOTEL quarantine accompanied by one of their parents.

- For (Qataris / Residents / Visitors); Family companions (such as grandparents, house maid, children over 18 years of age,...) - If they did not receive the vaccination - They will be required to do 7 day HOTEL quarantine.
- For (Qataris / Residents); Travelers who are 75 years of age and older, they will be required to do 7 day HOME quarantine with one escort who live in the same address.
- For (Qataris / Residents); Traveling patients returning from abroad through MOPH with one escort and based on their health condition (Escort must be living in the same address as the patient) They will be required to do 7 day HOME quarantine with one escort who live in the same address after evaluating their health condition by the doctor and in coordination with quarantine cell.
- IMPORTANT NOTES:
- The PCR test from approved centers abroad must be taken at most 72 hours prior to departure.
- Home or Hotel quarantine is for 7 days.
- Passenger is required to submit all necessary documents (e.g. Vaccination Certificate, national address for home quarantine, PCR test...) and if documents were not available, passenger must arrange hotel booking for quarantine prior to travel.
- Do not accept to board children under 18 years of age traveling alone with HOTEL quarantine if they do not have HOTEL booking with one escort to be with them.

➢ **All travel information and inquiries can be found via (https://covid19.moph.gov.qa/EN/Pages/default.aspx)**

PCR:

- **If** there are MOPH approved COVID-19 testing centers at the country of travel, a COVID-19-free certificate should be obtained from one of these centers to be exempted from testing at the Airport.
- **The Certificate should not exceed 48 hours before travel**, noting that the list of COVID-19 testing centers is updated regularly on the Ministry of Public Health's website.

QUARANTINE:

- **Effective from 14th February 021 at 00:01LT and till further notice**, all passengers traveling from a high, or ultra-high risk country will require a Discover Qatar quarantine hotel voucher (There will be NO exceptions)
- The validity of the **vaccine** in regard to the quarantine exemption period has been extended from the previously approved three months to six months, starting 14 days after the second dose.

		• **Non-vaccinated** children below 16 years of age are permitted to undergo home quarantine, rather than hotel quarantine, when returning with fully vaccinated parents from non-green list countries.
		• **The following categories (Travelers arriving from Non-Green country) are exempted from hotel quarantine:**
		  • Non-vaccinated children below 18 years of age returning to Qatar alone OR accompanied by their parents who received both doses of the COVID-19 vaccine. This exception is not applicable if one of the traveling parents has not yet received both doses of the vaccine, in this case hotel quarantine procedures will apply to the parent and children below 18 years, while other parent who has received both doses of the vaccine will be exempted from the hotel quarantine as per earlier instructions, if they wish to do so.
		  • Travelers who are vaccinated with the 2nd dose of COVID-19 vaccine, either from Qatar or abroad (provided that the vaccine is recognized in the State of Qatar - through prior approval from the representative of the Ministry of Public Health in the quarantine cell). If they arrived before completing the 14-days period from the date of their 2nd dose, they will be allowed to quarantine at home for a period of (7) days or the remaining number of days until completing the required 14-days period, whichever is shorter.
		  • Travelers who are 75 years and above plus one (1) escort only (living in the same house).
		  • Pregnant women and breastfeeding mothers with an infant up to 2 years old and accompanied by a fully vaccinated husband OR immediate relative (living in the same house).
		  • Depending on their medical status, returning patients through Ministry of Public Health plus one (1) escort only (living in the same house), with a prior approval from the representative of the Ministry of Public Health in the quarantine cell.
		• Passengers from all above mentioned categories MUST have negative PCR test 72 hours prior to arrival from approved medical center in the country where he/she came from, OR upon arrival in Qatar. If the test result is positive, the applicable health isolation procedures will be implemented as per government of Qatar health policy.
		• For more info. visit www.moph.gov.qa , https://covid19.moph.gov.qa/EN/Pages/Qatar-Travel-Policyy.aspx or call 16000.

		• Statement for passengers to certify that he/she do not have any symptoms of COVID-19 is now required (must be filled by the passenger before travel) • **QUARANTINE**: **Self isolation for 7 seven days is applied, then undergo another test** • **Passengers arriving from countries where test is not possible, a letter from the French consulate is required. Then will undergo a test at the airport of arrival, and will be quarantined in a concerned place of the government.**
6	**Germany**	• Effective from 29th March 2021, and until 12th May 2021, Passengers who intend to enter Germany and who have stayed in an international risk area including a high-incidence area or an area of **virus variant of concern (VOC)** within the last 10 days prior to entry are subject to mandatory entry registration and sars-cov-2. • Designation of international risk areas, high-incidence areas or areas of VOC: carriers are strongly advised to regularly review the designation list at www.rki.de/covid-19-risikogebiete., https://www.rki.de/DE/Content/InfAZ/N/Neuartiges_Coronavirus/Risikogebiete_neu.html Or https://smex-ctp.trendmicro.com:443/wis/clicktime/v1/query?url=https%3a%2f%2fwww.rki.de%2fDE%2fContent%2fInfAZ%2fN%2fNeuartiges%5fCoronavirus%2fRisikogebiete%5fneu.html&umid=219d042d-c9a7-40b6-b5c1-628bd8966723&auth=26ab1b3a94865b210b4e1a79f8328cfdf0a5cc8c-a2b30e9e3825e1bb0724598484ae9a8ba3e7958a Designations are subject to change at short notice. • Passengers who intend to enter Germany and who have stayed in an international risk area including a high-incidence area or an area of VOC within the last 10 days prior to entry must register electronically. Use of online procedure is strongly advised. paper-based registration is only accepted as a replacement if electronic registration is out of order or Passenger do not have access to electronic registration. Official substitute registration form must be used. • A proof of successful entry registration or substitute registration form must be kept by Passenger at all times and presented on request to the carrier or the competent authority. • Passengers receipt of successful entry registration or substitute registration form must be checked by carriers against ID card or equivalent prior boarding. • Carriers must only transport passenger who have presented proof of successful registration or substitute registration form. • On flights from Schengen countries to Germany substitute registration form must be collected by the aircraft crew and handed over to the competent authority at the destination airport in Germany. On flights from non-Schengen countries to Germany substitute registration must be kept by passengers and handed over to the federal police / competent authority at the destination airport in

		Germany during border control checks. • Flights from non-Schengen countries to Germany: registration receipt and substitute registration is subject to additional checks by the federal police / competent authority at destination airport in Germany. • Passengers entering Germany and who have stayed in an international risk area but not in a high-incidence area or an area of VOC within the last 10 days prior to entry must provide proof of a test for sars-cov-2 no later than 48 hours after entry to the competent authority. • For passengers who intend to enter Germany and who have stayed at a high-incidence area or an area of VOC within the last 10 days prior to entry, preflight testing is mandatory. The sample collection for the test must not be older than 48hr before entry. • Passengers who have only passed through a high-incidence area and have not had a stopover there or who enter Germany only for transit purposes and leave Germany again by the quickest route are exempted from presenting a proof of negative testing. The list of exceptions is not exhaustive. Further exemptions may apply. Please check against regulation. • EgyptAir is prohibited to transport passengers from an area of virus variant of concern to Germany. this restriction applies to all direct and indirect travel of passengers originating from an area of voc. **exemptions**: the transport ban does not apply to: - Passengers having German nationality and their accompanying close family members, - Passengers residing and with right of residence in Germany. - Passengers transiting a German airport, - Transportation of personnel in the interest of public health, - Ambulance flights and flights transporting transplant organs and necessary accompanying personnel, - Flights for urgent humanitarian reasons, - Flights on behalf of the Euratom safeguards, the international atomic energy agency, the united nations and its agencies - Members of a foreign diplomatic mission or consular office and their accompanying close family members whose appointment and arrival has been notified to the federal foreign office. Three days in advance carriers must notify to the federal police flights from an area of VOC to the federal republic of Germany for transport of passengers residing and with right of residence in Germany and for passengers having German nationality and their accompanying close family members. • The temporary travel restriction applies to all non-essential travel from third countries to the federal republic of Germany.

		• This does not include flight restrictions. • **The restrictions do not apply to German citizens**. • Exempted from these travel restrictions: • Are travelers who have resided and last stayed in the following countries: (Australia , New Zealand, Singapore, South Korea and Thailand) • Extended entry possibilities will be given to travelers from all third countries who have an important reason for travel as follows: 1. EU citizens and third-country nationals with current right of residence in Germany, 2. healthcare workers, health researchers and Geriatric care workers, 3. skilled and highly qualified foreign workers if their employment is necessary from an economic perspective and the work cannot be postponed or performed abroad, 4. freight transport and other transport personnel, 5. seasonal workers in agriculture, 6. Seafarers, 7. Foreign students, trainees, volunteers, 8. persons immigrating into Germany for the purpose of joining their families and visits for urgent family reasons or short term visits of core family members (husband/wife, minor children, parents of minor children) or unmarried partners in a relationship with German nationals, EU citizens and third-country nationals with current right of residence in Germany or joint short term visits of couples (third country national and German national/EU citizen) residing together in a third country for important reasons, 9. Persons in need of international protection or for other humanitarian reasons, 10. diplomats, staff of international organizations, military personnel and humanitarian aid workers in the exercise of their functions, 10. Ethnic German resettles, 11. Passengers in transit. For further information: WWW.BMI.BUND.DE/EN/ • **Effective from 30/01/2021**: • Egyptair must provide information of the German Federal ministry of health to all passengers. • passengers who intend to enter Germany and who have stayed in an international risk area (including high-incidence area or an area of virus variant of concern) within the last 10 days prior to entry are subject to mandatory entry registration (electronically) and sars-cov-2 testing • Proof of successful entry registration or substitute registration form must be kept by pax at all

		times and presented on request to the carrier or the competent authority. • Passengers receipt of successful entry registration or substitute registration form **must** be checked by EgyptAir against ID card or equivalent prior boarding or the passenger will not board the aircraft. • The above instructions including transit and transfer passengers originating from a high-incidence area or area of virus variant of concern. • Passengers who have only passed through a high-incidence area and have not had a stopover there or who enter the federal republic of Germany only for transit purposes and leave the federal republic of Germany again by the quickest route are exempted from presenting a proof of negative testing. The list of exceptions is not exhaustive. Further exemptions may apply. • EgyptAir has to declare the flight details (e.g. flight number, estimated number of passengers, day of operation, arrival time etc.) three days in advance of the planned immigration (day of arrival). Please send the information to bpolp@polizei.bund.de (To be done by the concerned in the headquarter in CAI) • EgyptAir are prohibited to transport passenger from an area of virus variant of concern to Germany. the transport ban does not apply to passenger having German nationality and their accompanying close family members, passenger residing and with right of residence in Germany, passenger transiting a German airport, exclusively cargo or postal or ferry flights, repatriation of aircrafts and crews, transportation of personnel in the interest of public health, ambulance flights and flights transporting transplant organs and necessary accompanying personnel, flights for urgent humanitarian reasons, flights on behalf of the international atomic energy agency, the united nations and its agencies or members of a foreign diplomatic mission or consular office and their accompanying close family members whose appointment and arrival has been notified to the federal foreign office. Three days in advance carriers must notify to the federal police flights from an area of VOC to the federal republic of Germany for transport of pax residing and with right of residence in Germany and for passenger having German nationality and their accompanying close family members. • Passengers, who have only passed through a high-incidence area and have not had a stopover there or who enter Germany only for transit purposes and leave Germany again by the quickest route are exempted from presenting a proof of negative testing. The list of exceptions is not exhaustive. Further exemptions may apply. • The obligation to fill out a PLF and the local quarantine regulation when returning from a risk area, high risk area or an area of VOC are still valid.

		• More information can be found via; https://b2b.frankfurt-airport.com/en/airlines-b2b/coronavirus.html
		• **Effective from 07/01/2021 till 20/01/2021**, all passengers out of the United Kingdom of Great Britain and Northern Ireland or the Republic of South Africa with a destination in Germany **are prohibited** to be transported to the Federal Republic of Germany.
		• **Exempt from the ban on carriage** are passengers who can present a negative Corona test (antigen or PCR) not older than **48 hours** and who belong to one of the following groups of persons:
		  • German nationals,
		  • EU nationals entitled to freedom of movement as well as their family members with permanent residence in Germany
		  • third-country nationals with permanent residence in Germany who hold a residence title or a visa for long-term residence for Germany, and
		  • Persons who do not enter Germany and are staying exclusively in airport transit and who meet the necessary requirements for this purpose.
		• Passengers entering Germany from the United Kingdom of Great Britain and Northern Ireland or The Republic of South Africa; (sars-cov-2) testing is **mandatory**.
		• **PCR/ QUARANTINE**:
		• **Effective from 30 March 2021 until 12 May 2021, All** passengers - including transit passengers - entering Germany are obliged to show proof of a negative COVID test before boarding the flight (no matter if the country of origin belongs to any risk area of the RKI). The airline is **NOT** allowed to carry passengers without a negative COVID test.
		• The passengers have to carry the proof of the negative test when entering Germany as the Federal Police will do checks upon arrival.
		• **Effective from 24th January 2021**, Passengers from high incidence areas (EU/Schengen States / Czech Republic / Spain and **Egypt** is considered high incidence areas) are obliged to carry a proof of (PCR / antigen rapid test) negative testing not more than **48 hours prior to entry (this doesn't apply for children under 6 years old)**. (including transit and transfer passengers)
		• The test can be PCR or Antigen.
		• **Effective from 8th of November** new quarantine regulations will be in force for inbound passengers returning from or staying in the last 10 days in risk areas. **Egypt is still categorized as a risk country.)**
		• **In addition to the mentioned quarantine, passengers are required to undergo testing (SARS-**

		COV2) virus no more than 48 hours before or immediately after entry.
		• Those travelers are obliged to go directly to their home or other suitable accommodation immediately after their return and to stay there permanently for a period of 10 days.
		• When returning from VOC, the quarantine obligation **will be extended from 10 to 14 days**. In addition it is not possible to shorten the quarantine with a negative test after 5 days. This new regulation will be valid for Hesse as of 8 March 2021.
		• In order to shorten the **10 days quarantine**, a **PCR-Covid-19 test** can be done from the fifth day after entry onwards. After receiving a negative test result the quarantine ends.
		• updated risk areas can be found under https://www.rki.de/covid-19-risikogebiete
		• It is not mandatory to quarantine for the following: Traveling through, border traffic, professional activity / training / study, border commuters, private visits and special professional groups. You can find more details about this at:Further information on exemptions from quarantine regulations can be found at: https://soziales.hessen.de/gesundheit/corona-hessen/quarantaene-bestimmungen-und-coronatests-fuer-einreisende/neue-regelungen-ab-08112020/ausnahmen-zu-quarantaenebestimmungen-und-coronatests-fuer-einreisende
		• Online registration form (PLC - passenger locator card) planned from November 8, 2020
		• There is the obligation to inform the health office immediately after arriving from risk countries. Those travelers have to register online at www.einreiseanmeldung.de
		• Use of online procedure and registration is strongly advised, paper-based (PLF) is only accepted as a replacement if electronic registration is out of order or passengers does not have access to electronic registration.
		• You can find a sample PLC here in different languages: https://www.rki.de/DE/Content/Infekt/IGV/Aussteigerkarte_Tab.html
		• If digital registration is not possible or until the new online registration form is released by the authorities, passengers will still have to fill out the PLC. The current procedures for the PLCs are still valid.
		  • Paper-based PLC is only accepted as a replacement if electronic registration is out of order or passenger does not have access to electronic registration. On flights from Schengen countries to Germany paper-based PLF must be collected by the aircraft crew and handed over to the competent / health authority at the destination airport in Germany. On flights from non-Schengen countries to Germany paper-based PLF must be kept by passenger and handed over to the federal police / competent authority at the destination airport in Germany during border control checks.
		  • EgyptAir must name a single point of contact (SPC) for information requests from the health

authorities. The contact details of the SPC must be communicated to OEGD-KONTAKT(AT)RKI.DE BY 30.11.2020 at the latest.

- Air carriers must keep the electronically stored booking data of passenger for flights to the federal republic of German available for
- 30 days after the arrival and provide them to the health authorities on request. this applies, in particular, to electronically stored data for identification and contact details of travelers as well as to seating plans
- **The air carrier is obliged to inform the passengers about the new digital entry registration, and to check before the flight if the passengers have registered online. If, in exceptional cases, passenger are not able to fill out the digital registration they have to fill out a replacement registration in paper form. The carrier has to collect this paper form and has to hand it over to the Health Authorities at the first point of arrival in Germany**.

- All passengers will receive an informative flyer with all regulations and their obligation at the passport control immigration.
- Until 12th May 2021, there is an exemptions from the testing requirements and the obligation to provide proof for travelers from Myanmar to Germany.

Transfer passengers;

- Pre-departure testing obligation for transfer passengers from non-Schengen via DE to Schengen
- Pre-departure testing obligation for transfer passengers from Schengen via DE to Schengen
- Pre-departure testing obligation for transfer passengers from Schengen via DE to non-Schengen
- The previous specifications for virus variant areas remain unchanged (pre-departure testing obligation for non-Schengen after non-Schengen transfers via DE)
- Testing obligation applies to all transfer passengers from non-Schengen to non-Schengen as well (thus, for all transfer passengers via DE). The Federal Police will be informed accordingly. Tests of transfer passengers may still be maximum 48 hours old at entry/arrival in DE, all previous test methods are still allowed.

Berlin:

SXF has no transit area – all passengers arriving are subject to German immigration restrictions.
Arrival procedure:
For arrivals at SXF we will have to comply with regulations of both federal states Berlin & Brandenburg which is mostly similar.

- All Passengers have to fill-in a health declaration form (1 form per family) which will be collected upon arrival and forwarded to regional health authority - data protection is ensured.

For more information :about Family members of a national of a *European Union (EU) country*
For more information on lawful residence on regular grounds and lawful residence on asylum grounds, see *the IND's website*.

Please note: even if you are permitted to travel to the Netherlands because you fall into an exemption category, you may also be required to *self-quarantine for 10 days on arrival*. **This depends on the country you are travelling from**

PCR:

Effective from 16th March 2021, the required mandatory rapid test is **24 hours** before boarding and it is required from all passengers except the transfer passengers.

- All travelers on flights to the Netherlands from a high-risk country outside the EU or Schengen area and to which the flight ban does not apply and/or who are exempted from the EU-entry ban, are required to meet the following conditions:
  1. a valid negative NAAT-test (either MPOCT, NAAT, PCR, RT PCR, LAMP or TMA), no older **than 72 hours** before expected arrival in the Netherlands,
  2. A valid negative NAAT-test declaration (only for travelers from outside the EU/Schengen area),
  3. A negative antigen rapid test, **no older than 24 hours** before boarding the aircraft heading to the Netherlands.
  4. A health declaration for all passengers aged 13 years or older travelling to and from the Netherlands.
- Before boarding, airlines shall verify if passengers meet these conditions. If passengers fail to meet these conditions, they shall be refused on the flight and boarding the aircraft.
- The following categories of travelers are exempted from being in possession of:
  1) A valid negative NAAT-TEST **no older than 72 hours** before expected arrival in the Netherlands,
  2) A valid negative NAAT-test declaration (only for travelers from outside the EU/Schengen area),
  3) A negative antigen rapid test, no older than 24 hours before boarding the aircraft heading to the Netherlands.

Exceptions:

		• Passengers under the age of 13 years, • Persons who are travelling on behalf of the minister or state secretary of justice and security. this applies in particular to flights where kmar personnel are accompany a person to or from the Netherlands. • Travelers with a statement from the ministry of health, welfare and sport in the context of urgent medical transport. • Travelers who have been tested positive for covid-19 previously, who no longer have covid-19-associated symptoms, are no longer contagious, who continue to test positive for a longer period of time and therefore cannot show a negative covid-19 test result. the following applies to these travelers: a. travelers who have been infected with covid-19 and are therefore unable to submit a negative NAAT test result may still travel if they can show the following documents: i. positive NAAT-test result from a minimum of 2 to a maximum of 8 weeks old; ii. positive NAAT-test result of maximum 72 hours old upon arrival in the Netherlands; iii. Negative rapid test result of maximum 24 hours old before boarding. b. in case of a permanently positive rapid test result, travelling to the Netherlands is allowed if they can show the following documents: i. positive NAAT-test result from a minimum of 2 and a maximum of 8 weeks old; ii. positive NAAT-test result test result of **maximum 72** hours old upon arrival in the Netherlands; iii. Signed doctor's statement of a maximum of **72 hours before** boarding that shows that this traveler is no longer covid-19 contagious. • Cross-border commuters (including students and school children), • (Incoming) staff of diplomatic and consular representations or international organizations in the Netherlands - including the members of their official household - and as such (to be) registered with the ministry of foreign affairs, • Holders of non-Dutch diplomatic passports, • Holders of Dutch diplomatic passports, if they are travelling in the exercise of their work or whose physical presence is required for work, • heads of state and members of foreign governments, • passengers on a direct flight from a non-risk country (who have resided there 10 days previous to the trip) to the Netherlands, • Passengers on flights from a non-risk country (who have resided there 10 days previous to the

trip) which do have a Dutch airport as their destination, who are transferring in a high-risk country and who do not leave the airport during transfer are exempted.

- A. passengers who do leave the airport during transfer, are not exempt from both the NAAT-test as well as the rapid antigen test. The rapid antigen test should at least be taken at the point of departure airport.
- passengers on flights which do not have a Dutch airport as their destination, but are diverted to a Dutch airport due to unforeseen circumstances,
- passengers with a NATO travel order or a nato-2 visum,
- aircrew (crew members or personnel operating passenger or cargo flights or travelling as passengers to or from their departure base), who do not leave the aircraft position (except for safety inspections) during turnaround and continue flying (back) immediately afterwards,
- Individuals who work on oil and gas platforms, offshore wind farms and offshore companies that provide services to the energy sector. This only includes passengers who are flying directly to the Netherlands from an (offshore) platform/wind farm.

THE FOLLOWING CATEGORIES OF TRAVELLERS ARE ONLY EXEMPTED FROM BEING IN POSSESION OF:

1) a valid negative NAAT-test (either MPOCT, NAAT, PCR, RT PCR, lamp or TMA), no older than 72 hours before expected arrival in the Netherlands,
2) a valid negative NAAT-test declaration (only for travelers from outside the EU/Schengen area),

- Seafarers (including cruise ship and ferry crew members), that possess a seamen record book if they are travelling in the exercise of their work or whose physical presence is required for work. The exemption does not apply to seafarers on commercial yachts and pleasure craft.
- Individuals who work in the goods transport sector, and other essential transport personnel, including lorry drivers and crew members on container ships, bulk carriers (e.g. ore and coal), tankers (fuel and chemicals), fishing vessels and individuals who work in the energy sector if they are travelling in the performance of their duties or if they travel to or from their work.
- For more information, please refer to: https://www.government.nl/topics/coronavirus-covid-19/visiting-the-netherlands-from-abroad/negative-test-result-and-declaration.

Test report should include Date and time of test: must be maximum 72 hours before arrival in the Netherlands

Health declaration

The Health Declaration form also remains mandatory for all passengers arriving, departing and transiting

		in The Netherlands, in addition to the covid-19 test declaration.

11	**BELGIUM**	Effective from 01/07/2020 till further notice, Temporary travel restrictions are applied to all non-essential travel from third countries to the EU+ area • Thus this implies the refusal of embarkation of 3rd country nationals holding C visa and visa-exempted nationals travelling as tourists. Except for nationals of all EU Member States and Schengen Associated States. This exemption must apply to:

		• All EU citizens and citizens of the Schengen Associated States, and their family members; • Third-country nationals who are long-term residents under the Long-term Residence Directive and persons deriving their right to reside from other EU Directives or national law or who hold national long-term visas. • Diplomats, staff of international organizations, military personnel and humanitarian aid workers in the exercise of their functions. • Travelling is no longer prohibited to / from (Australia / Canada / Japan / Rwanda / South Korea / New Zealand / Uruguay / Thailand / Singapore) and still prohibited to / from (Georgia / Tunisia). • **Outgoing passengers:** • Egyptians holding passports only • Any other documents need ratified letter from Egyptian Embassy in Dutch, French or English language to be readable for the Belgium Immigration authorities e.g. birth and marriage certificate, Egyptian IDs…etc. • Double Nationalities other than Egyptian should be holding a valid residence in EGYPT. • All EU Member States and Schengen Associated States should hold a letter for the essential travel need reason from the entity concerned with their travel. • **Incoming passengers:** 1- EU / Schengen travel ban will be abandoned, valid as from April 19th 2- non-essential travel to Belgium is prohibited for persons who do not have the nationality of a country of the EU or of the Schengen zone and have their main residence in a 3rd country. 3- a certificate for essential travel is needed for non-essential travel to Belgium. • The temporary travel restriction will exempt nationals of all EU Member States and Schengen Associated States. This exemption must apply to: • all EU citizens and citizens of the Schengen Associated States, and their family members; • third-country nationals who are long-term residents under the Long-term Residence Directive and persons deriving their right to reside from other EU Directives or national law or who hold national long-term visas. • Diplomats, staff of international organizations, military personnel and humanitarian aid workers in the exercise of their functions; • All passengers have to correctly wear a face mask. • **Effective 21st December 2020**, The passenger is obligated to carry the proof of submission of the completed **Electronic** Passenger Locator Form (E-PLF) during the entire journey to the final

		destination in Belgium and the 48 hours following arrival into BRU. If it is impossible to obtain this particular proof, the traveler must carry a copy of the completed the Electronic Passenger Locator Form (E-PLF) during the entire journey to the final destination in Belgium and the following 48 hours. • All Passengers are obliged to (complete / Sign) The **Electronic** Passenger Locator form (PLF) before departure via https://travel.info-coronavirus.be/, **(PAPER VERSION IS NOT ALLOWED)** • Passenger will be denied boarding in case of not completing The Public Health Locator form. • The new E-PLF form is applicable. It can be found via https://smex-ctp.trendmicro.com:443/wis/clicktime/v1/query?url=https%3a%2f%2ftravel.info%2dcoronavirus.be%2fpublic%2dhealth%2dpassenger%2dlocator%2dform&umid=11de0703-4710-4106-b97e-5a5249c273fb&auth=e0ea8d76fb0a69b0ed7fc71e0a03902ca1384677-fe22359fe05208cdf191e5813e5574f389bbe781 • Every passenger, regardless of the nationality, who takes an Extra-Schengen flight to Belgium is obliged to complete this form before departure. The passenger must sign and date the "Public Health Passenger Locator Form". • If a passenger did not complete the "Public Health Passenger Locator Form" and boarded the plane, the Belgian authorities can refuse the access on the Belgian territory. • Passenger travelling from an extra-Schengen airport to Belgium must be in possession of (a valid travel document / a valid visa or a valid residence permit) passenger who are in possession of a valid visa type D or a valid residence permit, are allowed to travel to Belgium. • **Travelling with a visa type C is allowed** If a passenger is in possession of a visa type C – issued after 18 March 2020 by the Belgian embassy - the passenger can travel to Belgium. I remind you that a passenger can still be refused to enter the territory, if he/she doesn't fulfill the entry conditions according to Article 3 of the law of 15 December 1980 on access to the territory, the sojourn, the establishment and the removal of foreigners. • Passengers holding E-Visa will be refused entry, and therefor airline should deny boarding Them • **Passenger who is in possession of "Passport of a third country" + a "Residence Permit of Greece – section Remarks: Refugee" traveling to Brussels will not be accepted This measures will be applied at least until 15 October 2020.** • A third country national, who intends a short stay, is in possession of a valid document entitling the holder to cross the border satisfying the following criteria:

		▪ Its validity shall extend at least three months after the intended date of departure from the territory of the Member States. ▪ It shall have been issued within the previous ten years; • Passengers who are in possession of a document that is supposedly virtual renewed, are not accepted to enter the Belgian territory. • If a passenger is not in possession of a valid travel document (expired passport, expired identity card, expired visa, expired residence permit …), the airline is requested to deny boarding. • Passengers will be fined (**up to 250EUR**) if they arrive at Brussels Airport without QR-code (e-PLF) or filled in paper PLF form (back-up). The Local Police Inspectors will perform active checks to ensure that passengers comply with the new regulation. • For essential travel; passengers with a main residence in a third country who travel to our country "For travel authorized in accordance with the first paragraph (essential travel), the traveler is required to be in possession of an essential traveler's certificate. This attestation could be issued by the Belgian diplomatic mission or consular post and demonstrates that the journey is essential. • EgyptAir is required to check that the travelers are in possession of this attestation before boarding. In the absence of such a certificate the carrier is required to refuse boarding. Upon arrival on Belgian territory, the air carrier will check again that the passenger is in possession of this attestation or certificate. • In deviation, an attestation is not required if the essential nature of the journey is apparent from official documents in the possession of the traveler." • Sea men are not required to have an essential journey certificate or specific certificate as a seaman's book is sufficient. • The passenger is obliged to fill in and sign the digital or paper version of the "Sworn Statement". The passenger can find the "Sworn Statement" on the website https://www.info-coronavirus.be/en/travels/. The "Sworn Statement" is linked to the PLF. • The "Sworn Statement" must be supported by the necessary supporting documents. If a passenger has not completed the "Sworn Statement", EgyptAir is demanded to deny boarding. • Effective 22nd December 2020, Travel from/to **Belgium-UK** is forbidden for persons with Belgian nationality and persons with primary/main residence in Belgium and in case of essential non-deferrable travel as mentioned here below; 1- journeys to Belgium from the United Kingdom by persons with Belgian nationality and persons who have their main residence in Belgium; 2- the following strictly necessary non-extendable journeys to Belgium from the United Kingdom by

persons other than those referred to in the provision under 1°, if necessary on presentation of a certificate issued by the employer:

a) the professional journeys of health professionals, health researchers, and professionals in the care of the elderly;

b) the professional movements of transport staff;

c) the movement of diplomats, staff of international organisations and persons invited by international organisations whose physical presence is necessary for the proper functioning of those organisations, professional movements of military and law enforcement personnel, civil protection personnel and humanitarian workers in the performance of their duties;

d) the professional movements of journalists;

e) movements for the following compelling family reasons:

- journeys justified by family reunification;
- visits to a legal spouse or partner, when both do not live together for professional or personal reasons;
- journeys undertaken in the framework of co-parenting;
- journeys in the context of funerals or cremations in the case of a first and second degree relationship;

3- Transit in Belgium in the case of air travel from the United Kingdom, provided that the final destination is outside the European Union".

- **PCR**:
- **Effective 20th March 2021 till 18th April 2021**; all non-residents in Belgium, from the age of **6 years**, arriving on Belgian territory, coming from a red zone must have a negative PCR-test result based on a test carried out at the earliest **72 hours prior to departure**.
- All persons, coming from **a green or orange zone** **must not** present a negative PCR test result dating back less than 72 hours before their departure to Belgium. On arrival in Belgium a quarantine and test is not mandatory. (countries color zones can be found via: https://www.info-coronavirus.be/en/colour-codes-by-country/)
- The document can be in paper format or in electronic format but must be consultable immediately.
- The document must be in English, German, French or Dutch.
- As passenger passes the Belgian border control, he needs to have a negative PCR test.
- Travelers who only transit by air and who remain exclusively in the transit zone without entering Belgian territory as far as the travelers are not required to have a negative PCR test result to continue their journey.

		• **QUARANTINE: 7 days quarantine is obliged in Belgium.** • On arrival in Belgium from a red zone, a quarantine and a test on day 1 and on day 7 of this quarantine are mandatory **for residents** in Belgium. • Visitors who are staying in Belgium for less than 48 hours or who have been in a red zone abroad for less than 48 hours will not be asked to have themselves tested or to go into quarantine. • On arrival in Belgium from a red zone, a quarantine and a test on day 7 of this quarantine are mandatory **for non-residents** in Belgium. Passengers will receive a text message on their arrival, allowing them to get a test at a test center.
12	**DENMARK**	• Danish citizens are always permitted entry into Denmark. • All nationalities include EU nationalities are **NOT** allowed to enter Denmark except for a worthy purpose as mentioned before or for returning to their country of residence Worthy purposes include, but are not limited to: • Persons residing or working in Denmark, including self-employed entrepreneurs performing work in Denmark. • Persons with a valid work permit, including persons who have not yet utilized their work permit and whose entry is for the purpose of working in Denmark. • Persons commissioned to deliver goods or services to/in Denmark or to transport goods out of Denmark. • Persons who enter for the purpose of exercising visitation rights with minors in Denmark. • Persons who serve as the primary caregiver for minors residing in Den-mark (e.g. foster parents). • Visiting seriously ill or dying family members in Denmark. • Participation in an ongoing course of treatment administered by the Danish health authorities. • Attending a funeral in Denmark. • Participation in court proceedings in Denmark. • Students enrolled in a Danish educational institution, to the extent that the educational institution is not closed (and no remote learning options are offered). • Seamen disembarking or embarking in Denmark in connection with a crew change. • Diplomats, offshore workers or other groups of persons mentioned in the Schengen Borders. • Persons wishing to enter Denmark can – according to the specific circumstances – be asked at the Danish border control to present documentation for the worthy purpose. • Further information is available at www.coronasmitte.dk • Danish Ministry of Transport has lifted the ban on passenger flights from the United Arab Emirates

		(UAE) to Denmark with effect from 7 February 2021 at 00.00 hs. At the same time the ban on accepting tests taken in the United Arab Emirates (UAE) has been lifted, i.e. tests taken in the UAE can be accepted from 7 February 2021. • **PCR**: • Effective from 09th January,2021 till **20th April**, 2021; all passengers - even Denmark and Swedish Nationalities - (**including transit passengers**) must have a negative **PCR** test or **Antigen test**, and the validity **within 24 Hours** **boarding**. (**Children under 12 years are exempted**) (so tests taken in the United Arab Emirates (UAE) cannot be accepted until and including 9 February 2021) • Till **20th April** 2021, for all passengers coming to Denmark, Covid-19 test is mandatory upon arrival. • Passengers in transit with an onward journey by air who can show proof of onwards journey from CPH (boarding pass) are exempted from this rule. • *The 24 hour time constraint, is counted from when the passenger is boarding the aircraft to Denmark. If the passenger is transferring on the way into Denmark, for example with an itinerary SYD-SIN-CPH, the test will have to be presented upon boarding in SIN, and at that point it must not be more than maximum 24 hours old* • EgyptAir to ensure that no passengers without a negative Covid19 test board aircrafts to Denmark; A fine of DKK 12,000 (EUR 1,600) to airlines per carried passengers not in compliance, will be implemented. • **Covid-19 test validity for passengers transiting on their way to Denmark**: If the passenger travels to Denmark on a continuous journey via stopovers at one or more airports, the test can be taken up to 24 hours before boarding at the first airport. The test must be presented in connection with the last flight that has a destination in Denmark. The airline flying the last flight must ask the passenger to provide proof that the test was taken within 24 hours of boarding the first leg/part of the journey. This documentation may be in the form of a boarding pass or other proof showing the time of start of the continuous journey. As an alternative to this, the passenger can take a test during the continuous journey, but prior to the flight with destination in Denmark. • Effective on arrivals from 9 January at 17:00. • The ban does not apply to transport of passengers who can document a positive COVID-19 test that is at least 14 days and maximum of 8 weeks old. It is the assessment of the health authorities that the passenger is this situation is no longer contagious and that a positive test result is due to inactive virus RNA • Please be informed that**, Sweden boarders** is **closed** effective from 21 December 2020, The border closing will be effective for all persons except: (Swedish citizens / Persons with residence permit in

		Sweden / Persons with permanent residence (home) in Sweden) • Kindly be aware that you may have passengers on board your aircraft to CPH, that will transfer onwards to Sweden via another flight, car or train, so please inform all passengers travelling to Denmark of this closing of borders to Sweden. **QUARANTINE**: 10 days upon entry into Denmark (10 days home quarantine)
13	**HUNGARY**	Effective from 20/01/2021 till 17th March 2021, • Hungarian citizens are allowed to enter Hungary**, however 10 days quarantine is mandatory, which can be released after two negative PCR test 48 hours apart**, which needs to be taken within the territory of Hungary. 		the United Kingdom, Spain, Italy, and Saudi Arabia.
8	**SINGAPORE**	• Short-term visitors are not allowed entry into Singapore, except those coming in under the travel bubble arrangements. • Transit through Singapore Changi Airport is temporary not allowed until further notice • More information can be found via: https://safetravel.ica.gov.sg/ **PCR**: / **QUARANTINE**: • Residents from New Zealand Brunei, Vietnam and Australia (excluding Victoria) will not have to serve quarantine on arrival to Singapore. • All other incoming travelers are required to serve a 14-day Stay-Home-Notice and pay all costs associated with it.
9	**SOUTHKOREA:**	**PCR**: / **QUARANTINE**: • Travelers are required to take a PCR test within 3 days of entering Korea and self-quarantine for 14 days. Transit passenger must also have negative COVID-19 test results from the clinics designated by the KR embassy issued within 48 hours before departure. • All travelers are required to complete a health condition questionnaire and special quarantine declaration, undergo a temperature screening at quarantine/immigration, submit address and phone number (mobile device) in Korea, and install a self-diagnosis app.

5- CANADA & AMERICA

No.	Country	Instructions & Restrictions
1	**CANADA**	Inbound flights to Canada for the transport of passengers from the United Kingdom is restricted effective at 05:00Z (00:00EST) on Monday, December 21, 2020. **A foreign national is prohibited from entering Canada if they arrive from a foreign country other than the United States, however this does not apply to the following people:** • an immediate family member of a Canadian citizen or of a permanent resident; • an extended family member of a Canadian citizen or permanent resident who holds a statutory declaration attesting to their relationship with the Canadian citizen or permanent resident and is authorized in writing by an officer designated under subsection 6(1) of the Immigration and Refugee Protection Act to enter Canada. • a person authorized in writing by an officer designated under subsection 6(1) of the Immigration and Refugee Protection Act, to enter Canada for the purpose of reuniting with immediate family members; • a person who is exempt from the requirements to obtain a temporary resident visa under paragraph 190

		(2)(a) of the Immigration and Refugee Protection Regulations, and the immediate family members of that person; • a person who seeks to enter Canada at the invitation of the Minister of Health for the purpose of assisting in the COVID-19 response; • A person who arrives by any means of conveyance operated by Canadian Forces or the Department of National Defence; • a member of the Canadian Forces or a visiting force, as defined in section 2 of the Visiting Forces Act, and the immediate family members of that member; • a French citizen who resides in Saint-Pierre-et-Miquelon who has been only in Saint-Pierre-et-Miquelon, the United States or Canada during the period of 14 days before the day on which they arrived in Canada; • a person or any person in a class of persons who, as determined by the Chief Public Health Officer, appointed under subsection 6 (1) of the Public Health Agency of Canada Act, does not pose a risk of significant harm to public health or who will provide an essential service while in Canada; • a person or any person in a class of persons whose presence in Canada, as determined by the Minister of Foreign Affairs, the Minister of Citizenship and Immigration or the Minister of Public Safety and Emergency Preparedness, is in the national interest; • The holder of a valid work permit or study permit, as defined under section 2 of the Immigration and Refugee Protection Regulations; • A person whose application for a work permit referred to in paragraph (l) was approved under the Immigration and Refugee Protection Act and who has received written notice of the approval, but who has not yet been issued the permit; • a person who seeks to enter Canada for the purpose of attending a listed institution, and the immediate family members of that person other than a dependent child of a dependent child of the person, if the person hold a valid student permit as defined in section 2 of the Immigration and Refugee Protection Regulations, if the person may apply for a study permit when entering Canada under section 214 of the Immigration and Refugee Protection Regulations, or if the person's application for a study permit was approved under the Immigration and Refugee Protection Act and they received written notice of the approval but have not yet been issued the permit; • person permitted to work in Canada as a student in a health field under paragraph 186(p) of the Immigration and Refugee Protection Regulations; • A person permitted to work in Canada as a provider of emergency services under paragraph186(t) of the Immigration and Refugee Protection Regulations;

		• a licensed health care professional with proof of employment in Canada; • a person who seeks to enter Canada for the purpose of delivering, maintaining, or repairing medically-necessary equipment or devices; • a person who seeks to enter Canada for the purpose of donating or making medical deliveries of stem cells, blood and blood products, tissues, organs or other body parts, that are required for patient care in Canada during the validity of the Order or within a reasonable period of time after the expiry of the Order; • a person whose application for permanent residence was approved under the Immigration and Refugee Protection Act, and who received written notice of the approval before noon, Eastern Daylight Time on March 18, 2020, but who has not yet become a permanent resident under that Act; • a worker in the marine transportation sector who is essential for the movement of goods by vessel, as defined in section 2 of the Canada Shipping Act, 2001 and who seeks to enter Canada for the purpose of performing their duties in that sector; • a person who seeks to enter Canada to take up post as a diplomat, consular officer, representative or official of a country other than Canada, of the United Nations or any of its agencies or of any intergovernmental organization of which Canada is a member, and the immediate family members of that person; • a person who arrives at a Canadian airport aboard a commercial passenger conveyance and who is transiting to a country other than Canada and remains in a sterile transit area within the meaning of section 2 of the Immigration and Refugee Protection Regulations; • a person who seeks to enter Canada on board a vessel, as defined in section 2 of the Canada Shipping Act, 2001, that is engaged in research and that is operated by or under the authority of the Government of Canada or at its request or operated by a provincial government, a local authority or a government, council or other entity authorized to act on behalf of an Indigenous group. • Final decision of accepting passengers onboard is subjected to the approval of the Canadian Boarder Service Agency. • All passengers travelling to Canada are required to download (Arrive CAN) application to provide specific information upon entry into Canada, including providing an appropriate 14 day quarantine plan, contact information, and updates on symptoms through self-assessment.(within 48 hours before arriving in Canada) • **Traveler responsibilities:** • www.canada.ca/en/public-health/services/diseases/2019-novel-coronavirus-infection/latest-travel-health-advice/mandatory-hotel-stay-air-travellers/traveller-expectations-hotel-stay.html

- www.canada.ca/fr/sante-publique/services/maladies/2019-nouveau-coronavirus/derniers-conseils-sante-voyageurs/sejour-hotel-obligatoire-voyageurs-avion/attentes-voyageurs-sejour-hotel.html
- Currently, only individuals whose application for permanent residence in Canada was approved, and who have received written notice of that approval **before March 18, 2020**, (but have not yet become a Permanent Resident) are allowed to enter Canada under section 58 of the Quarantine Act.
- If the individual received written notice of approval **after March 18, 2020**, they are not yet permitted to enter Canada under section 58 of the Quarantine Act. Their notice of approval will explicitly state that, due to COVID-19 travel restrictions, they should not travel to Canada at this time to become a Permanent Resident.

- **QUARANTINE**:
  - **Effective from 22nd February 2021**, all passengers (**with some exceptions**), will be required to:
    - Reserve prior to departure to Canada**, a 3-night stay in a government-authorized hotel**. Passengers will be required to stay at their reserved hotel for up to 3 nights, **at their own cost**, while they await the results of their arrival test. (Hotel booking information will be available online as of February 18, 2021)
    - Passengers will need to book a hotel in the city in which they first arrive in Canada. If they receive a negative result on their arrival test, they will be able to take a connecting flight to their final destination.
    - It is the responsibility of the traveler to ensure that they have a confirmed GAA booking prior to boarding flight coming into Canada. Failure to provide evidence of pre-paid accommodation at a GAA prior to may result in enforcement action in Canada, including a fine of $3,000. For more information, please visit: www.canada.ca/covid-hotel-stay
    - **Booking and list hotels:**
      - www.canada.ca/en/public-health/services/diseases/2019-novel-coronavirus-infection/latest-travel-health-advice/mandatory-hotel-stay-air-travellers/list-government-authorized-hotels-booking.html
      - www.canada.ca/fr/sante-publique/services/maladies/2019-nouveau-coronavirus/derniers-conseils-sante-voyageurs/sejour-hotel-obligatoire-voyageurs-avion/liste-hotels-autorises-gouvernement-reservation.html
      - Prior to boarding, the passenger will be required (unless exempt) to provide evidence of a pre-paid accommodation at a government approved hotel for 3 nights, beginning on the day that they enter Canada. In the case that they are not required to have a pre-paid hotel booking, they are to provide their contact information. If the passenger fails to comply with this requirement, they may be liable to a fine.
      - At the same time on February 22, 2021, all passengers will be required to submit their travel and contact information, including a suitable quarantine plan, electronically via **ArriveCAN** before boarding a flight.
      - Passengers who are not in possession of the hotel reservation will not be denied boarding and the

responsibility of the carrier is only to notify the passenger that the 03 nights' reservation is mandatory and if he fails to provide it upon arrival penalties on the passengers will apply.

- **All travelers entering Canada are subject to 14 day quarantine upon arrival. This does not apply to medical or cargo personnel on essential movements.**

• **Exemptions from staying at a Government Approved Accommodation**

- Any person who is exempted from the requirement to quarantine including active aircrew.
- A person who provides an evidence of COVID-19 molecular test indicating that he / she received a positive result for COVID-19 test that was performed on a specimen collected at least 14 days and no more than 90 days before the aircraft's initial schedule departure time.
- Any person who boarded a medical evacuation flight for medical purposes, if the urgency of the medical situation does not permit a COVID-19 molecular test on entry into Canada.
- Accredited Foreign Representatives.
- Exigent circumstances
- A person who is less than five years of age.
- A person who is less than 18 years of age and who will not be accompanied in the government -authorized accommodation by a person who is 18 years of age or older.
- A person who is 18 years of or older and is dependent on one or more other person for care or support by reason of mental or physical limitation, and who will not be accompanied in the government -authorized accommodation by a person who is 18 years of age or older.
- Temporary Foreign Workers who hold a valid work permit under the subparagraph 200(1)(c)(iii) of the immigration and refugee protection regulation.
-

PCR:

- **Effective from 22nd February 2021**, all passengers (**with some exceptions**), will be required to Take a COVID-19 molecular test when they **arrive** Canada before exiting the airport (While waiting for their test results, passengers will be required to quarantine, at their own costs in a Government of Canada-approved hotel **for up to three nights**), and another toward the end of their 14-day quarantine period.
- **Effective January 7, 2021**, at 12:01 a.m. EST, All passengers **five years of age or older** will be required to present evidence of an acceptable negative molecular COVID-19 test result, (which includes a PCR or RT-LAMP test) **within 72 hours prior to the traveler's scheduled departure to Canada** (72 hours from Collection till the Schedule departure of the last direct departing flight to Canada).
- A negative laboratory test result must be presented before boarding (paper or electronic proof of result).
- The test result must indicate; (passenger's name and date of birth / name and address of the lab/facility

		that administered the test / the date on which the test was conducted / the method of test conducted, and that it is a PCR test /as negative) as The name on the result matches the name on the passenger's identification. • **Acceptable COVID-19 Molecular tests** The following test methods are considered acceptable molecular tests: (Polymerase chain reaction (PCR) / Real time PCR (RT-PCR) / Quantitative PCR (qPCR) / Ct (cycle threshold) / Droplet digital PCR or digital droplet PCR (ddPCR) / Isothermal amplification / Reverse transcription loop-mediated isothermal amplification (RT-LAMP) / CRISPR / Next generational sequencing (NGS) or whole genome sequencing (WGS) / Sequencing, Sanger Sequencing / RNA (Ribonucleic acid) / Nucleic acid technology or test (NAT) / Nucleic acid amplification / Multiplex / Assignment CID 2 / Gene / Corman assay / N gene / Orf1a/b / S gene / E gene). • **Exceptions from PCR negative test:** **Minors** □ A person who is less than five years of age **Crew Members** □ A crew member as defined in subsection 101.01(1) of the Canadian Aviation Regulations or a person who enters Canada only to become such a crew member; □ A member of a crew as defined in subsection 3(1) of the Immigration and Refugee Protection Regulations or a person who enters Canada only to become such a member of a crew; or □ A person who is re-entering Canada after having left to participate in mandatory training in relation to the operation of a conveyance and who is required by their employer to return to work as a crew member on a conveyance within the 14-day period that begins on the day on which they return to Canada. □ A member of an air crew of a visiting force, as defined in section 2 of the Visiting Forces Act, who enters Canada for the purpose of performing mission essential duties as a member of that force **Emergency Service Providers** □ A person who is permitted to work in Canada as a provider of emergency services under paragraph 186(t) of the Immigration and Refugee Protection Regulations and who enters Canada for the purpose of providing those services □ An emergency service provider, including a firefighter, peace officer or paramedic, who returns to Canada after providing emergency services in a foreign country and who is required to provide their services within the 14-day period that begins on the day on which they enter Canada **Government Officials** □ An official of the Government of Canada or a foreign government, including a border services officer,

		immigration enforcement officer, law enforcement officer or correctional officer, who is escorting an individual entering or leaving Canada pursuant to a legal process such as an international transfer of an offender or deportation or extradition of a person □ An official of the Government of Canada, the government of a province or a foreign government, including a border services officer, immigration enforcement officer, law enforcement officer or correctional officer, who enters Canada for the purposes of border, immigration or law enforcement, or national security activities, that support active investigations, ensure the continuity of enforcement operations or activities, or enable the transfer of information or evidence pursuant to or in support of a legal process □ A member of the Canadian Forces, who enters Canada for the purpose of performing their duties as a member of those forces **Essential Service Providers** □ A person or any member of a class of persons who, as determined by the Chief Public Health Officer, will provide an essential service, if the person complies with any conditions imposed on them by the Chief Public Health Officer to minimize the risk of introduction or spread of COVID-19 o An asymptomatic Canadian Citizen, permanent resident, or person with status under the Indian Act accompanying an individual seeking medical care pursuant to Schedule 1, Table 1 if the individual is either: □ An asymptomatic or symptomatic minor child or dependent child; or □ An asymptomatic person requiring assistance in accessing the essential medical services or treatments. o If the urgency of the medical situation does not permit a COVID-19 molecular test to be administered before boarding the aircraft for the flight to Canada, an asymptomatic person accompanying an individual entering by a medical evacuation flight for medical purposes pursuant to Schedule 1, Table 1 when the individual is either: □ An asymptomatic or symptomatic minor child or dependent child; or □ An asymptomatic person requiring assistance in accessing the essential medical services or treatments. **Pre-Adjudicated Cases** □ A person or any member of a class of persons whose presence in Canada, as determined by the Minister of Health, is in the national interest, if the person complies with any conditions imposed on them by the Minister to minimize the risk of introduction or spread of COVID-19 □ A person who returns to Canada after suffering hardship in a foreign country, as determined by the Minister of Foreign Affairs, if the person complies with any conditions imposed on them by the Minister of

		Foreign Affairs and developed in consultation with the Minister of Health to minimize the risk of introduction or spread of COVID-19 □ A person who will, as determined by the Minister of Transport, respond to, investigate or prevent significant disruptions to the effective continued operation of the national transportation system, transportation undertakings or infrastructure, if the person complies with any conditions imposed on them by the Minister of Transport and developed in consultation with the Minister of Health to minimize the risk of introduction or spread of COVID-19 □ A person who, as determined by the Minister of Public Safety and Emergency Preparedness, will respond to, investigate or prevent events related to national security, if the person complies with any conditions imposed on them by the Minister of Public Safety and Emergency Preparedness and developed in consultation with the Minister of Health to minimize the risk of introduction or spread of COVID-19 □ A person who enters Canada by aircraft and who is not required under the *Aeronautics Act* to provide the evidence referred to in subsection 2.2(1) **MedEvac Flight** □ Any person who boarded a medical evacuation flight for medical purposes, if the urgency of the medical situation does not permit a COVID-19 molecular test to be administered to the person before boarding the aircraft for the flight to Canada **Claims for Refugee Protection** □ A person referred to in subsection 5(1) or (2) of the Minimizing the Risk of Exposure to COVID-19 in Canada Order (Prohibition of Entry into Canada from the United States) who made a claim for refugee protection when entering Canada from the United States **Essential medical services or treatments** □ A Canadian citizen, permanent resident, temporary resident, protected person or person registered as an Indian under the Indian Act who resides in Canada and who received essential medical services or treatments in a foreign country, if the person has (a) written evidence from a licensed health care practitioner in Canada who indicated that the medical services or treatments outside Canada are essential, unless the services or treatments are for primary or emergency medical services under an agreement with another jurisdiction; and (b) written evidence from a licensed health care practitioner in the foreign country who indicated that the services or treatments were provided in that country **Denied entry into a foreign country** □ A Canadian citizen, permanent resident, temporary resident, protected person or person registered as an Indian under the Indian Act who resides in Canada, who has been denied entry in a foreign country and who

		must board a flight destined to Canada **In-Transit** □ A person who plans to arrive at a Canadian airport aboard an aircraft in order to transit to a country other than Canada and to remain in a sterile transit area, as defined in section 2 of the Immigration and Refugee Protection Regulations, until they leave Canada . **Cross-border worker** □ A person who must enter Canada regularly to go to their normal place of employment or to return from their normal place of employment in another country, if they do not directly care for persons 65 years of age or older within the 14-day period that begins on the day on which the person enters Canada **Effective Monday 1st February 2021 at 12:00(L),** • All arriving international and transborder passengers terminating in Toronto and those connecting to other locations within the Province of Ontario (e.g. Passengers flying from London Heathrow to Toronto and then onwards to Ottawa) will be required to **test upon arrival** at Toronto Pearson. Passengers connecting on the same day to other Canadian provinces and territories or international destinations are not required to test. • Passengers will be tested in the already established testing centres located on the arrivals levels of Terminals 1 and 3. More details concerning country entry restrictions can be found via: https://www.canada.ca/en.html Or https://www.canada.ca/en/public-health/services/diseases/2019-novel-coronavirus-infection/latest-travel-health-advice/mandatory-hotel-stay-air-travellers/list-government-authorized-hotels-booking.html
2	**USA**	• US nationals will be allowed to return after 'appropriate screening'. Those returning from China's Hubei province are subject to a mandatory 14-day quarantine. • **Entry is suspended** for non-US nationals who have been to the following regions in the preceding 14 days: Brazil, Mainland China, Iran, Ireland, the Schengen Area of Europe (Austria, Belgium, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden and Switzerland) and the United Kingdom.(**Transit passengers are included**) • Permanent residents of the US, immediate family members of US citizens and travelers on A-1, A-2, C-2, C-3, E-1, G-1, G-2, G-3, G-4, NATO-1 through NATO-4, and NATO-6 visas are exempt from regional restrictions and will be allowed to return. • All international travelers who are permitted to enter should expect heightened screening measures and will be asked to self-quarantine for 14 days after their return. • Travel between the US and Canada, as well as between the US and Mexico, will remain closed to non-

essential travel. ”Essential travel may continue”

- Passengers holding visa type B1 or B2 or any other type of visa:

The restrictions only pertain to B1 / B2 visa holders that have been present in certain countries in the past 14 days. Those countries include China, Iran, EU/Schengen area, UK, Republic of Ireland, and Brazil. So essentially, if those B1B2 visa holders were NOT present in any of those countries during the 14 days prior to travel to the US, there are no restrictions.

- Passenger holding EU citizen (Schengen area)

Again, the restrictions are on where the passenger is coming from, rather than their citizenship in this case. If they hold EU citizenship but have not been present in China, Iran, UK, Republic of Ireland, Brazil or the Schengen regions in the 14 days prior to travel, then there are no restrictions.

- Passengers coming from china or Iran

Unless they fall under one of the exemptions, they will be refused entry under the Presidential Proclamations if they are coming directly from either country. The exemptions should be listed on the following website: https://www.cdc.gov/coronavirus/2019-ncov/travelers

- **Temporary Suspension of Dogs Entering the United States from Egypt** Dogs from Egypt may be imported only with CDC’s advance written approval, including dogs imported from a third-party country if they lived in the other country for less than 6 months. For more information**:** CDCanimalimports@cdc.gov
- All airlines are required to confirm a **negative COVID-19 test result** and collect a passenger attestation on behalf of the U.S. Centers for Disease Control and Prevention (CDC) for certain passengers on aircraft **departing from the United Kingdom and arriving in the United States**.

Washington:

QUARANTINE: **No quarantine is required.**

PCR:

- **Effective 26 January 2021**, All passengers travelling to USA must have a negative COVID-19 test (PCR / LAMP) during the **72 Hours** preceding the flight’s departure from a foreign country OR Written or electronic documentation of a positive viral test result that confirms the passenger had a previous COVID-19 infection **and** a letter from a licensed health care provider or public health official stating the passenger is cleared to travel (so-called “Documentation of Recovery”)
- Test is a nucleic acid amplification test or a viral antigen test
- EgyptAir must confirm that each **passenger 2 years or older** has documentation of a negative test or a Documentation of Recovery
- EgyptAir must retain a copy of each passenger attestation for 2 years.
- Passengers must retain a copy of their negative test or Documentation of Recovery and present it for

		inspection at arrival upon request of USG. • Exception is made for: (Airlines transporting passengers with COVID-19 pursuant to CDC authorization / Federal law enforcement personnel on official duty) • *The US recommends but does not mandate that international passengers take a post arrival test 3-5 days after arrival as well a 7-day period of staying at home.*
3	**Brazil**	• All international passengers must fill in a Traveler's Health Declaration via; http://formulario.anvisa.gov.br **PCR**: **Effective 30th December 2020**, • All passengers travelling to Brazil must have a negative RT-PCR certificate within **72 Hours** from an authorized lab.(in Portuguese, Spanish or English) • Children under 12 years old are exempted. • **Unaccompanied** children above 2 and under 12 years old **must** have a negative RT-PCR certificate within **72 Hours** from an authorized lab.

6- AUSTRALIA & NEW ZEALAND
