		<ul style="list-style-type: none"> • a worker in the marine transportation sector who is essential for the movement of goods by vessel, as defined in section 2 of the Canada Shipping Act, 2001 and who seeks to enter Canada for the purpose of performing their duties in that sector. • All travelers, including Canadian citizens and permanent residents, showing symptoms are prohibited from entering the country by air, but may be allowed to enter by land, rail or sea, where available. Those entering must seek immediate medical attention and undergo quarantine. • Face mask is mandatory starting from the airport entrance and during the flight. • <u>Final decision of accepting passengers onboard is subjected to the approval of the Canadian Boarder Service Agency.</u> • <u>All passengers travelling to Canada are required to download (Arrive CAN) application to provide specific information upon entry into Canada, including providing an appropriate 14 day quarantine plan, contact information, and updates on symptoms through self-assessment.(within 48 hours before arriving in Canada)</u> • <u>QUARANTINE: All travelers entering Canada are subject to 14 day quarantine upon arrival. This does not apply to medical or cargo personnel on essential movements.</u> • <u>PCR: PCR is not required, unless passenger has been refused to travel by any airline within the last 14 days.</u>
2	USA	<ul style="list-style-type: none"> • US nationals will be allowed to return after ‘appropriate screening’. Those returning from China’s Hubei province are subject to a mandatory 14-day quarantine. • <u>Entry is suspended</u> for non-US nationals who have been to the following regions in the preceding 14 days: Brazil, Mainland China, Iran, Ireland, the Schengen Area of Europe (Austria, Belgium, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden and Switzerland) and the United Kingdom.<u>(Transit passengers are included)</u> • Permanent residents of the US, immediate family members of US citizens and travelers on A-1, A-2, C-2, C-3, E-1, G-1, G-2, G-3, G-4, NATO-1 through NATO-4, and NATO-6 visas are exempt from regional restrictions and will be allowed to return. • All international travelers who are permitted to enter should expect heightened screening measures and will be asked to self-quarantine for 14 days after their return. • Travel between the US and Canada, as well as between the US and Mexico, will remain closed to non-essential travel. ”Essential travel may continue” • <u>Passengers holding visa type B1 or B2 or any other type of visa:</u>

The restrictions only pertain to B1 / B2 visa holders that have been present in certain countries in the past 14 days. Those countries include China, Iran, EU/Schengen area, UK, Republic of Ireland, and Brazil. So essentially, if those B1B2 visa holders were NOT present in any of those countries during the 14 days prior to travel to the US, there are no restrictions.

- Passenger holding EU citizen (Schengen area)

Again, the restrictions are on where the passenger is coming from, rather than their citizenship in this case. If they hold EU citizenship but have not been present in China, Iran, UK, Republic of Ireland, Brazil or the Schengen regions in the 14 days prior to travel, then there are no restrictions.

- Passengers coming from china or Iran

Unless they fall under one of the exemptions, they will be refused entry under the Presidential Proclamations if they are coming directly from either country. The exemptions should be listed on the following website: <https://www.cdc.gov/coronavirus/2019-ncov/travelers>

- **Temporary Suspension of Dogs Entering the United States from Egypt** Dogs from Egypt may be imported only with CDC's advance written approval, including dogs imported from a third-party country if they lived in the other country for less than 6 months.
