# International Reports

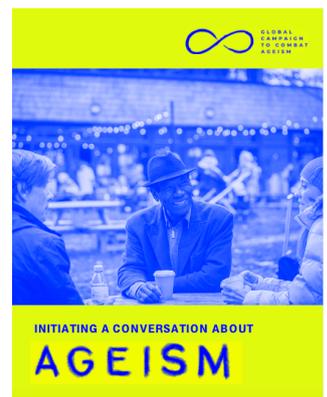

## Advocacy Brief: Social isolation and loneliness among older people

This advocacy brief on social isolation and loneliness among older people, reflects on both the public health and policy concerns regarding the topic. The brief discusses the adverse impacts of loneliness and social isolation amongst older persons, which has been furthered by the COVID-19 pandemic. With suggestions on how these issues can be addressed.

## Initiating a conversation about ageism

The Initiating a conversation about ageism guide, offers guidelines on how to discuss the topic of ageism. By shedding light on ageism and speaking about the topic this allows for necessary actions to be taken to address and combat the issue. Reflecting on the importance of dialogue in addressing the topic of ageism.

## Healthy Aging Data Report

The Healthy Aging Data Report shares an insight into the facilities that are avid in Age-Friendly Communities. With a focus on the state of Connecticut, the report is still able to provide policy suggestions, programs and services that could be implemented globally.

# Regional Reports

## Ageing in the Arab Region: Statistical Trends and Policy Perspectives

The Ageing in the Arab Region: Statistical Trends and Policy Perspectives report looks at age structure trends within the Arab Region. The report looks at the different aspects of the lives of older people in the Arab Region. By looking at these trends the report is able to present challenges faced by older populations in the region and opportunities that can be provided to them.

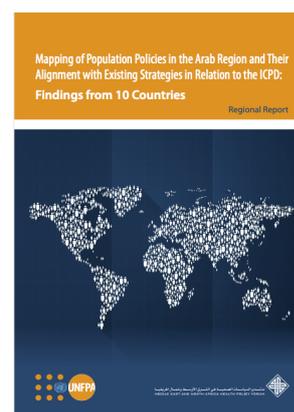

## Reviewing the Implementation of the 2013 Cairo Declaration. Regional Report 2018.

The Reviewing the Implementation of the 2013 Cairo Declaration, Regional Report 2018, showcases the regions development over a five-year period. The report discusses the adoption of “active aging”, which could be a potential method to advance health and well-being amongst older people in the region.

## Mapping of Population Policies in the Arab Region and Their Alignment with Existing Strategies in Relation to the ICPD: Findings from 10 Countries

The report discusses the population trends in the Arab region. With a focus on the trend of population ageing that is apparent in multiple Arab countries. The report reflects on the matter that nations in the region are not prepared for this demographic change. Consequently, it is suggested that social welfare systems in the region must be adjusted to absorb the upcoming population ageing.
