Regional Webinar

Ageing in the Arab region: Realizing the potentials of the second demographic dividend

21st of November 2021
Virtual Webinar

The webinar aimed to explore the extent to which the Arab countries are adhering to the broad frameworks for harnessing the potentials of their second demographic dividend.

The webinar focused on discussing the following points:

- Positioning the Arab countries in relation to the international and regional aging framework set for harnessing the potentials of their greying generations
- Mainstreaming the human rights approach in addressing old population issues
- Highlighting aspects of human rights violation in the lives of Arab older persons including older people with disabilities

The webinar was attended by over 95 participants. The webinar participants comprised of high-level representatives from governmental organizations, universities, research centers, international development partners and international, regional and national non-governmental organizations as well as distinguished experts and researchers in the area of population ageing. H.E The Egyptian Minister of Social Solidarity: Dr. Nivine El-Kabbag attended and presented an opening and closing speech on the Egyptian perspective towards achieving the full potential of the Egyptian greying generations.

International Reports

Healthy Ageing Evidence Review

This review sets the scene regarding why healthy ageing is crucial. The review reflects on policies to be able to achieve programs for healthy ageing. In addition to, explaining why healthy ageing services are needed and their effectiveness. This review can support in the decision-making process and provide a guideline regarding healthy ageing.

Age-friendly environments in Europe: Indicators, monitoring and assessments

The report discusses potential policies to encourage more age-friendly cities. These policies are translatable globally due to their community-based nature. Measurement and monitoring tools are also provided to be able to assess progress and understand the situation of older people within the community.
