To set up your iPhone (v1.1.3) to work with AUCmail:

1. Enable POP
2. Configure iPhone

Enabling POP

You can retrieve your AUCmail messages with Outlook Express or any client or device that supports POP.

To enable POP in AUCmail:

1. Sign in to AUCmail (http://mail.aucegypt.edu).
2. Click Settings at the top of any AUCmail page.
3. Click Forwarding and POP/IMAP.

4. Select Enable POP for all mail or Enable POP for mail that arrives from now on.
5. Choose the action you’d like your AUCmail messages to take after they are accessed with POP.
Configuring iPhone (1.1.3)

1. Tap Mail from your iPhone's Home screen.
2. Tap Other.
3. Select POP from the tab menu.
4. Enter your name, email address, and password in the appropriate fields. The Address field should be your full email address (username@aucegypt.edu).
5. Under Incoming Mail Server, fill in the Host Name field as 'pop.gmail.com.'
6. Under Outgoing Mail Server (SMTP), fill in the Host Name field as 'smtp.gmail.com.'
7. Tap Save. Now you're done!

If you notice that POP access isn't working properly, please ensure that all your settings are correct by following these instructions:

1. From the Home menu, tap Settings.
2. Select your AUCmail address.
3. Scroll to the bottom of the page and tap Advanced.
4. Ensure that your settings are as follows:

   **Incoming Uses SSL**: ON
   **Outgoing Uses SSL**: ON
   **Authentication**: Password

   If you're accessing your Gmail from multiple POP clients, we recommend setting Use Recent Mode to ON.
