Print performance dashboard

The Performance Dashboard provides a quick view of student activities, and allows you to investigate why a student is struggling. It summarizes the following:

- Days since last course access
- Review Status of enabled course content
- Adaptive Release of enabled content items
- Discussion Board postings
- Early system warnings met
View the Performance Dashboard

The Performance Dashboard is accessed through the valuation area of the Control Panel. Once enabled, the following should appear:

1. **Student Last Name, First Name, Username, and system Role**

2. **Last Course Access, and Days Since Last Course Access**

3. **Review Status** – which displays how many items have been reviewed; a detailed view of items may be opened in a new window.
4. **Adaptive Release** - An overview of the Student path that can also be displayed in a new window.
