Introduction

This is the fourth issue of the annual series of AUC faculty publications, which started in 2006. An isolated issue, however, was published for the academic year 1982-83 by I. Moyer Hunsberger, Vice President for academic affairs and dean of the faculty then, who wrote in his introduction, "... The reputation of a faculty member among the community of scholars in his/her discipline is enhanced by publication, as is the reputation of his/her university."

The annual series of faculty publications has a number of goals:

- Showcase faculty research productivity
- Increase the visibility of the research, scholarly and creative works by AUC faculty
- Help in the preparation of news releases to the media about new research, in efforts to raise the profile of the university and develop deeper connections with the local community
- Serve as a vehicle for faculty members to get to know about each other's work and interests
- Help people who look for faculty with expertise in a certain area
- Increase interdisciplinary and collaborative research among AUC faculty
- Emphasize the importance of research as an integral part of faculty responsibilities
- Encourage faculty to increase their research productivity
- Serve as a database and historical record of AUC faculty publications

The purpose, however, is not for this list of publications to serve as the sole criterion by which a faculty member is judged. The university does not consider the quantity of publications to be a substitute for the quality, and while a faculty member may not have published this year, he or she may very well have had several publications in previous years. In addition, the various statistics for the schools and departments are provided in this publication for the record and should not be used — independent of other factors — for comparative purposes. It is also acknowledged that the expected number and type of publications published by a faculty member vary greatly by discipline.

Faculty Publications 2009 was compiled from soft copies provided by AUC faculty members through their respective school deans. Every effort has been made to make this list as accurate and complete as possible. A draft of this list has been checked for accuracy by the faculty, school deans and other units. I would like to thank Basma El Maabady at the Office of the Vice Provost for her help in the preparation of this document.

An effort has been made to provide a list that is consistent throughout the university in terms of bibliographic style and format. This style is shown on the following page. Please report any error you find in this list to the Office of the Vice Provost.

Ali S. Hadi
Vice Provost
Director of Graduate Studies and Research

Manuscript Classification Code

CW:	Creative work or exhibit
BK:	Book
EB:	Edited book
BC:	Book chapter
BR:	Book review
RJ:	Article in refereed journal
CP:	Article in conference proceedings
CD:	Article published on a CD or online
EN:	Encyclopedia article
NM:	Article in newspaper/magazine
TR:	Unpublished article or technical report
OP:	Other publications
PT:	Patent
TL:	Translation

Bibliography Style

BK: Authors' names and abbreviations, (year), *Book Title*, City: Publisher.

EB: Authors' names and abbreviations, Eds. (year), *Book Title*, City: Publisher.

BC: Authors' names and abbreviations, (year), "Chapter Title," in *Book Title*, (Editors' names and abbreviations, Eds.), City: Publisher, pp–pp.

BR: Authors' names and abbreviations, (year), "A Review of *Title of book reviewed* by book authors and abbreviations," City: Publisher of book, *Journal Name*, Volume number, pp–pp.

RJ: Authors' names and abbreviations, (year), "Article Title," *Journal/Proceedings*, Volume number, pp–pp.

CP: Authors' names and abbreviations, (year), "Article Title," *Name of Proceedings*, pp–pp.

NM: Authors' names and abbreviations, (year), "Article Title," *Name of Newspaper/Magazine*, pp–pp.

Schools and centers are given in the following order:

- School of Business (SoB)
- School of Global Affairs and Public Policy (GAPP)
- School of Humanities and Social Sciences (HUSS)
- School of Sciences and Engineering (SSE)
- Libraries and Learning Technology (LLT)
- Social Research Center (SRC)

Names of departments within a school are arranged in alphabetical order. Names of faculty members within a department are also arranged in alphabetical order.

Summary Statistics
